

IMPORTANT NOTICE

The Board, the Supervisory Committee and the Directors, Supervisors and senior management of the Company warrant that there are no false records, misleading statements or material omissions in the 2017 interim report (this “**Report**”), and jointly and severally accept full legal responsibility for the truthfulness, accuracy and completeness of the information contained in this Report.

The Report has been reviewed and approved at the 11th meeting of the eighth session of the Board in 2017 (the “**Meeting**”). Mr. Wang Yuhang, Vice Chairman, was unable to attend the Meeting due to work reasons, and has authorised Mr. Liu Chong, non-executive Director, to vote on his behalf. All other Directors attended the Meeting.

The financial statements of the Group have been prepared in accordance with China Accounting Standards for Business Enterprises (“**CASBE**”). The interim financial statements and notes (the “**2017 Interim Financial Report**”) of the Group for the six months ended 30 June 2017 prepared in accordance with CASBE in this Report have not been audited.

Mr. Wang Hong, person-in-charge of the Company and chairman of the Board, Mr. Mai Boliang, CEO and president, and Mr. Zeng Han, general manager of the financial management department, person-in-charge of accounting affairs and head of the accounting department (the financial controller), hereby warrant the truthfulness, accuracy and completeness of this Report and the 2017 Interim Financial Report.

Neither any controlling shareholder (including its subsidiaries) nor substantial shareholder (including its subsidiaries) of the Company has utilised the non-operating funds of the Company.

The Company proposed not to distribute any cash dividend, issue bonus shares or convert shares from reserves into share capital for the six months ended 30 June 2017 (six months ended 30 June 2016: Nil).

This Report contains certain forward-looking statements made on the basis of subjective assumptions and judgments on future policy and economic development in relation to the financial conditions, operating results and business of the Group, which are subject to a variety of risks, uncertainties and assumptions beyond the Group’s control and with a high degree of uncertainty in nature. Therefore, the actual outcome may differ materially from such forward-looking statements. Such forward-looking statements are only the recent expectation of the Group on future events and are not guarantees for future business performance and do not constitute as an actual commitment to investors. Investors should be aware that undue reliance on or use of such information may lead to risks of investment.

This Report has been prepared in both Chinese and English. In the event of any inconsistency between the two versions, the Chinese version shall prevail.

02 Definitions

For the purpose of this Report, unless the context otherwise requires, the following terms shall have the meanings set out below:

Items	Definitions
"A Share(s)" (or "RMB-denominated Ordinary Share(s)")	domestic ordinary share(s) issued by the Company with a nominal value of RMB1.00 each, which are listed on the Shenzhen Stock Exchange and traded in Renminbi.
"A Share(s) Share Option Incentive Scheme"	share option incentive scheme of China International Marine Containers (Group) Co., Ltd. considered and approved at the extraordinary general meeting of the Company on 17 September 2010.
"Articles of Association"	The Articles of Association of China International Marine Containers (Group) Co., Ltd..
"Board"	the Board of the Company.
"C&C Trucks"	C&C Trucks Co., Ltd. (集瑞聯合重工有限公司), a company incorporated in the PRC with limited liability on 12 March 2009 and a non-wholly-owned subsidiary of the Company.
"CASBE"	Accounting Standards for Business Enterprises – Basic Standard and 38 Specific Accounting Standards issued by the Ministry of Finance of the People's Republic of China on 15 February 2006, and application guidance and interpretations to CASBE and other related regulations subsequently issued.
"CFSE"	China Fire Safety Enterprise Group Limited, a company listed on the main board of the Hong Kong Stock Exchange (stock code: 445) and an associated company of the Company.
"China COSCO Shipping"	China COSCO Shipping Corporation Limited, a company incorporated in the PRC with limited liability in February 2016 and was the indirect second largest shareholder of the Company as at the date of this Report.
"China Merchants Group"	China Merchants Group Limited, a company incorporated in the PRC with limited liability on 14 October 1986 and was the indirect largest shareholder of the Company as at the date of this Report.
"CIMC" or "Company"	China International Marine Containers (Group) Co., Ltd. (中國國際海運集裝箱集團股份有限公司), a joint stock company incorporated in the PRC with limited liability, the A shares of which are listed on the Shenzhen Stock Exchange and the H Shares of which are listed on the Hong Kong Stock Exchange.
"CIMC Enric"	CIMC Enric Holdings Limited (中集安瑞科控股有限公司), a company incorporated in the Cayman Islands with limited liability on 28 September 2004 and listed on the main board of the Hong Kong Stock Exchange (stock code: 3899) and a non-wholly-owned subsidiary of the Company.
"CIMC Finance Company"	CIMC Finance Co., Ltd., a company incorporated in the PRC with limited liability on 9 February 2010 and a wholly-owned subsidiary of the Company.

“CIMC Financial Leasing Company”	CIMC Financial Leasing Co., Ltd., a company incorporated in the PRC with limited liability on 30 July 2007 and a wholly-owned subsidiary of the Company.
“CIMC Hong Kong”	China International Marine Containers (Hong Kong) Limited (中國國際海運集裝箱香港有限公司), a company incorporated in Hong Kong with limited liability on 30 July 1992 and a wholly-owned subsidiary of the Company.
“CIMC Multimodal Transport”	CIMC Multimodal Transport Development Co., Ltd. (中集多式聯運發展有限公司), a company incorporated in the PRC with limited liability on 29 March 2016 and a non-wholly-owned subsidiary of the Company.
“CIMC Offshore Engineering”	CIMC Offshore Engineering Co., Ltd., a company incorporated in the PRC with limited liability on 21 July 2016 and a wholly-owned subsidiary of the Company.
“CIMC Raffles”	CIMC Raffles Offshore (Singapore) Limited, a company incorporated in Singapore with limited liability on 7 March 1994 and a wholly-owned subsidiary of the Company.
“CIMC Skyspace Real Estate”	Shenzhen CIMC Skyspace Real Estate Development Co., Ltd., a company incorporated in the PRC with limited liability on 24 November 1998 and a non-wholly-owned subsidiary of the Company.
“CIMC Tianda”	Shenzhen CIMC-Tianda Airport Support Co., Ltd. (深圳中集天達空港設備有限公司), a company incorporated in the PRC with limited liability on 18 July 1992 and a non-wholly-owned subsidiary of the Company.
“CIMC Vehicle (Group)”	CIMC Vehicle (Group) Co., Ltd. (中集車輛集團有限公司), a company incorporated in the PRC with limited liability on 29 August 1996 and a non-wholly-owned subsidiary of the Company.
“Corporate Governance Code”	the Corporate Governance Code contained in Appendix 14 of the Hong Kong Listing Rules.
“CSRC”	China Securities Regulatory Commission.
“Director(s)”	the director(s) of the Company.
“Group”, “we”, “our” and “us”	the Company and its subsidiaries.
“H Share(s)” (or “Overseas-listed Foreign Share(s)”)	overseas-listed foreign ordinary share(s) issued by the Company with a nominal value of RMB1.00 each, which are listed on the Hong Kong Stock Exchange and traded in Hong Kong dollars.
“Hong Kong”	The Hong Kong Special Administrative Region of the PRC.
“Hong Kong Listing Rules”	Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

04 Definitions

"Hong Kong Stock Exchange"	The Stock Exchange of Hong Kong Limited.
"Model Code"	the Model Code for Securities Transactions by Directors of Listed Issuers contained in Appendix 10 of the Hong Kong Listing Rules.
"PRC" or "China"	the People's Republic of China.
"Pteris"	Pteris Global Limited, a company incorporated in 1979 and a non-wholly-owned subsidiary of the Company.
"Reporting Period"	the six months starting from 1 January 2017 and ending on 30 June 2017, which is also called the first half of 2017.
"RMB"	Renminbi, the lawful currency of the PRC.
"SFO"	the Securities and Futures Ordinance, Chapter 571 of the Laws of Hong Kong.
"Shareholder(s)"	the holder(s) of share(s) of the Company, including the holder(s) of A Shares and H Shares.
"Shenzhen Listing Rules"	Rules Governing the Listing of Securities on the Shenzhen Stock Exchange.
"Shenzhen Stock Exchange"	the Shenzhen Stock Exchange.
"Supervisor(s)"	the supervisor(s) of the Company.
"Supervisory Committee"	the Supervisory Committee of the Company.
"US\$" or "U.S. dollars"	United States dollars, the lawful currency of the United States of America.
"Ziegler"	Albert Ziegler GmbH, a company incorporated in Germany with limited liability and a non-wholly-owned subsidiary of the Company.

This glossary contains certain definitions of technical terms used in this Report in connection with the Group. Some of these definitions may not correspond to standard industry definitions or usage.

Items	Definitions
CNG	Compressed Natural Gas.
FLNG	Floating Liquefied Natural Gas.
FPSO	Floating Production Storage and Offloading.
FSRU	Floating Storage and Regasification Unit.
HSE	Health, Safety and Environment.
GSE	Ground Support Equipment, refers to airport equipment used to ensure flight safety. To meet the requirements for aircraft maintenance and flights, airports are equipped with a variety of modern ground support equipment, including but not limited to mechanical, electric, hydraulic and special gas equipment.
Jack-up Drilling Platform	A jack-up drilling platform is a mobile oil rig commonly used for shallow water operation. Most jack-up rigs operate in water depths ranging from 250 to 400 feet. This oil drilling equipment is generally used for mounting machinery, power supply, equipment and accommodation facilities for drilling and certain liftable spud legs on a platform floating on the water.
LNG	Liquefied Natural Gas.
LPG	Liquefied Petroleum Gas.
Modular Building	the building manufactured in a factory environment and transported to a prepared project site to be installed.
ONE Model	Optimization Never Ending, the lean management system of the Group.
QHSE	A management system that guides and controls an organisation in respect of Quality, Health, Safety and Environmental aspects.
Semi-submersible Drilling Platform	A semi-submersible drilling platform is a mobile oil rig; the upper part of the hull structure is the working deck and the lower part comprises two lower hulls, with the parts connected by support columns. When in operation, the lower hulls are submerged into the water. A semi-submersible platform is generally used in deep seas with water depths ranging from 600-3,600m. The platform typically uses a dynamic positioning system for positioning.
TEU	Twenty-foot equivalent unit, also known as a standard unit (a container with a length of 20 feet, a height of 8 feet and 6 inches and a width of 8 feet), being used to measure the volume of a container.
VOCs	Volatile Organic Compounds.

06 Chapter I Corporate Profile

I. COMPANY PROFILE

Legal Chinese Name:	中國國際海運集裝箱集團股份有限公司
Abbreviated Chinese Name:	中集集團
English Name:	China International Marine Containers (Group) Co., Ltd.
Abbreviated English Name:	CIMC
Legal Representative:	Wang Hong
Authorised Representatives:	Mai Boliang, Yu Yuqun
Registered Address and Address of Head Office:	8th Floor, CIMC R&D Centre, 2 Gangwan Avenue, Shekou, Nanshan District, Shenzhen, Guangdong, PRC
Postal Code:	518067
Company Website:	http://www.cimc.com
Email Address:	shareholder@cimc.com
Principal Place of Business in Hong Kong:	3101-2 Infinitus Plaza, 199 Des Voeux Road Central, Hong Kong
Uniform Social Credit Code:	91440300618869509J

II. CONTACT PERSONS AND MEANS OF COMMUNICATION

Secretary to the Board, Company Secretary:	Yu Yuqun
Assistant Company Secretary:	Shen Yang
Contact Address:	CIMC R&D Centre, 2 Gangwan Avenue, Shekou, Nanshan District, Shenzhen, Guangdong, PRC (Postal code: 518067)
Contact Telephone:	(86) 755-2669 1130
Facsimile:	(86) 755-2682 6579
Email Address:	shareholder@cimc.com
Representative of Securities Affairs:	Wang Xinjiu
Contact Address:	CIMC R&D Centre, 2 Gangwan Avenue, Shekou, Nanshan District, Shenzhen, Guangdong, PRC (Postal code: 518067)

Minority interests	10,049,070	9,848,822	2.03%
Share capital (shares)	2,980,352,786	2,978,576,986	0.06%

Unit: RMB thousand

Consolidated cash flow statement items	The Reporting Period (January – June 2017) (unaudited)	The same period of the previous year (January – June 2016) (unaudited)	Changes from the same period of the previous year to the Reporting Period (%)
	Net cash flows from/(used in) operating activities	(668,216)	933,732
Net cash flows from/(used in) investing activities	(1,507,729)	(5,376,277)	71.96%
Net cash flows from/(used in) financing activities	1,875,660	5,570,910	(66.33%)

Balance of cash and cash equivalents at the end of the period	As at the end of the Reporting Period 30 June 2017 (unaudited)	As at the end of previous year 31 December 2016 (audited)	Changes from the end of previous year to the end of the Reporting Period (%)
		5,940,423	6,338,667

Key Financial Indicators

Basic earnings per share attributable to shareholders of the Company (RMB/share)	The Reporting Period (January – June 2017) (unaudited)	The same period of the previous year (January – June 2016) (unaudited)	Changes from the same period of the previous year to the Reporting Period (%)
		0.2554	(0.1444)
Diluted earnings per share attributable to shareholders of the Company (RMB/share)	0.2544	(0.1444)	276.18%
Weighted average return on net assets (%)	2.76%	(1.64%)	4.40%
Weighted average return on net assets after deducting non-recurring profit or loss (%)	3.00%	(2.11%)	5.11%
Net cash flows from/(used in) operating activities per share (RMB/share)	(0.22)	0.31	(170.97%)

Net assets per share attributable to Shareholders and other equity holders of the Company (RMB/share)	As at the end of the Reporting Period (30 June 2017) (unaudited)	As at the end of previous year (31 December 2016) (audited)	Changes from the end of previous year to the end of the Reporting Period (%)
		10.01	9.83
Gearing ratio (%) (Note)	69.21%	68.60%	0.61%

Note: The gearing ratio was calculated based on the Group's total debts divided by our total assets as at the respective dates.

10 Chapter II Summary of Accounting Data and Financial Indicators

II. DIFFERENCES IN ACCOUNTING DATA UNDER DOMESTIC AND FOREIGN ACCOUNTING STANDARDS

1. Differences in net profits and net assets prepared under International Accounting Standards and CASBE

Applicable Not applicable

There was no difference in net profits and net assets prepared under International Accounting Standards and CASBE during the Reporting Period.

2. Differences in net profits and net assets prepared under foreign accounting standards and CASBE

Applicable Not applicable

There was no difference in net profits and net assets prepared under foreign accounting standards and CASBE during the Reporting Period.

3. Reason for differences in accounting data under domestic and foreign accounting standards

Applicable Not applicable

III. NON-RECURRING PROFIT OR LOSS ITEMS AND AMOUNT

Applicable Not applicable

Unit: RMB thousand

Item	Amount (January – June 2017) (unaudited)
Gains/(loss) on disposal of non-current assets	13,739
Government grants recognised in profit or loss for the current period	91,032
Gains or losses from changes in fair value arising from holding financial assets at fair value through profit or loss and financial liabilities at fair value through profit or loss, and investment gains arising from disposal of financial assets at fair value through profit or loss, financial liabilities at fair value through profit or loss and available-for-sale financial assets, and gains or losses from changes in fair values of investment properties subsequently measured at fair value, except for the effective hedging activities relating to the Group's ordinary activities	(20,332)
Net gains/(loss) from disposal of long-term equity investments	(25,460)
Other non-operating income and expenses other than the above items	38,201
Other profit/loss items defined as non-recurring profit/loss items	(105,549)
Effect of income tax	(30,200)
Effect of minority interests (after tax)	(29,616)
Total	(68,185)

Note: Aforesaid non-recurring profit or loss items (other than the effect of minority interests (after tax)) was presented at amount before taxation.

Reasons and explanations on the Company's non-recurring profit or loss items as defined under the Explanatory Announcement No. 1 on Information Disclosure by Companies Offering Securities to the Public – Non-Recurring Profit or Loss (the "Explanatory Announcement No. 1") and the recurring profit or loss items which are listed as non-recurring profit or loss items under the requirements of the Explanatory Announcement No. 1

Applicable Not applicable

The Company did not define the non-recurring profit or loss items as defined and listed under the Explanatory Announcement No. 1 as recurring profit or loss items during the Reporting Period.

12 Chapter III Report of the Board

I. BUSINESS SUMMARY

The Group is principally engaged in the manufacture of modern transportation equipment, energy, chemical and liquid food equipment, offshore engineering equipment and airport facilities, as well as the provision of relevant services, including the design, manufacture and service

By virtue of the favourable domestic and overseas macroeconomic conditions, the prosperity of the relevant industries where the Group was engaged in improved significantly. During the Reporting Period, the Group's revenue amounted to RMB33,387.152 million (same period in 2016: RMB23,542.843 million), representing significant year-on-year growth of 41.81%. Among the principal businesses, the revenue from container manufacturing, road transportation vehicle and heavy truck business recorded significant growth. The revenue from energy, chemical and liquid food equipment, airport facilities equipment, logistics service and financial business sustained stable growth, while the revenue from the real estate business slightly decreased. As affected by an industry downturn, the revenue from the offshore engineering business significantly declined. During the Reporting Period, the Group's net profit attributable to the shareholders and other equity holders of the parent company amounted to RMB796.898 million (same period in 2016: loss of RMB378.034 million), turning the loss to profit year on year, where the net loss in the same period of the previous year was mainly due to the large amount of provisions provided for the amounts due from SinoPacific Offshore & Engineering Co., Ltd. (南通太平洋海洋工程有限公司) ("SOE") of CIMC Enric.

2. REVIEW OF THE PRINCIPAL BUSINESSES DURING THE REPORTING PERIOD

Container Manufacturing Business

The Group's container manufacturing business mainly deals with standard dry containers, reefer containers and special reefers. The Group has the capacity to produce a full series of container products with independent intellectual property rights. Special reefers include 53-foot inland North American containers, European wide containers, bulk containers, special reefer containers, foldable containers and other products. During the Reporting Period, the Group remained at top No. 1 in terms of output and sales of containers in the industry.

In the first half of 2017, there was a positive trend for the overall global trade environment. The growth of shipping volume was higher than expected. Imbalance between supply and demand was improved attributable to the continuous increase in shipping prices. In view of the current strain container supply and the positive view on future development, customers generally increased their procurement of new containers. Meanwhile, most of the plants in the domestic container manufacturing industry had upgraded their production lines to using water-based paint in the first half of this year in accordance with the environmental-friendly water-based paint self-discipline convention in the industry, thus affecting the effective production capacity in the industry. The production costs started to increase in the second quarter of this year. Container prices were basically stable after growth in the first quarter. In addition, the number of orders and container prices of the same period in the previous year was relatively at a low level, and the year-on-year base was low. As a result, we recorded a significant year-on-year increase in the sales volume and the revenue of containers of the Group during the Reporting Period.

14 Chapter III Report of the Board

During the Reporting Period, the accumulated sales volume of ordinary dry containers of the Group reached 535,700 TEUs (same period in 2016: 238,300 TEUs), representing a year-on-year increase of 124.80%; the accumulated sales volume of reefer containers reached 35,100 TEUs (same period in 2016: 22,300 TEUs), representing a year-on-year increase of 57.40%. The container business of the Group recorded a revenue of RMB10,049.055 million (same period in 2016: RMB4,898.618 million), representing a year-on-year increase of 105.14%; and the net profit was RMB681.102 million (same period in 2016: recording a net loss of RMB139.632 million), gaining profit again from the loss-recorded previous year.

In the first half of 2017, the demand in the standard dry container industry of the Group increased, and the number of orders was higher than expected. As the production of oil-based painted containers fully suspended in standard dry container manufacturing enterprises in China from 1 April 2017, the container domestic production lines experienced the peak season of production suspension for upgrade of water-based painted containers. The Group strived to shorten the period of production line upgrade of water-based painted containers and meet the demands of clients. The Group was able to proceed with the standard dry water-based painted container upgrade on schedule. Meanwhile, our market share had recovered to normal level from the low level in the previous year, with excellent results achieved. In addition, in response to the government requirement and in compliance with the policy direction, the Group made greater investment in HSE in the container manufacturing business during the Reporting Period. The construction standard of plants had reached a higher level. The relocation project of containers in Fenggang of Dongguan City progressed in an orderly way, and it is expected that the Phase I of this project will be put into operation at the beginning of the next year.

Road Transportation Vehicle Business

With “the world’s local manufacturing group (全球運營，地方智慧)” as its business philosophy, CIMC Vehicle (Group), a subsidiary of the Group, is a globally leading road transportation vehicle manufacturing group, providing with global customers various special vehicle products, key parts of special vehicles and sales services. CIMC Vehicle (Group) has established 25 production and research and development bases in China, Northern America, Europe and emerging markets, and developed different product lines for special vehicles consisting of 10 series and more than 1,000 models, including container semi-trailers, flatbed/staked-side semi-trailers, low-flatbed semi-trailers, vehicle loaded semi-trailers, stake trucks, van trucks, tank trucks, dump trucks, sanitation trucks and special vehicles, covering major domestic and international markets.

In the first half of 2017, the global manufacturing industry and trade resumed growth and the Chinese economy gradually became stable. There was a noticeable trend in replacement with light trucks for road transportation vehicles benefiting from the extended impacts of implementation of the policy of the mandatory standard on the limits of dimensions, axle load and masses for vehicles, trailers and combination of vehicles (GB1589-2016) promulgated by the central government in 2016 and the continued domestic stringent governance against overloading. Meanwhile, more domestic infrastructure projects commenced construction, which boosted the growth of demand for intelligent urban muck trucks. In the overseas market, although the shipping performance in the North American market remained strong, the cyclical demand for semi-trailers declined. With the economic recovery in Europe, the demand in some local markets in emerging markets was buoyant.

During the Reporting Period, by virtue of the business growth in Chinese and European markets, the Group's road transportation vehicle business achieved sales of 81,468 units (same period in 2016: 58,231 units), representing a year-on-year increase of 39.90%. It recorded revenue (excluding the heavy truck business) of RMB9,719.601 million (same period in 2016: RMB7,013.354 million), representing a year-on-year increase of 38.59%, and achieved net profit (excluding the heavy truck business) of RMB568.016 million (same period in 2016: RMB361.893 million), representing a year-on-year increase of 56.96%.

During the Reporting Period, CIMC Vehicle (Group) continued promoting the global operation management steadily, enhanced the operational efficiency of assets of each business unit and the corporate profitability, and focused on the investment and development of the incremental business and the innovation business of each business unit to realise the growth with quality. In the PRC market, as CIMC Vehicle (Group) fully stimulated the enterprise vitality, continued to grasp the popular trend towards replacement with light trucks and opportunities in market segments and enlarged its marketing strength and scope in the first half of this year, the Group completed more than 55% of the annual target in terms of revenue and profit of its domestic business. In the overseas market, in order to eliminate the effects of cyclical decline in the market, CIMC Vehicle (Group) actively expanded its product coverage in the North American market, and focused on its leading

16 Chapter III Report of the Board

During the Reporting Period, the major business segments of CIMC Enric devoted themselves to focusing on customers' needs, improving core technology reserve and enhancing business competitiveness. (1) The energy equipment business segment carried out continuous multi-dimension reform on smart products, customised services, and operation management data. Its overseas businesses achieved unified management on marketing for improving market responding capability. The segment also strived to explore new businesses and new service models to seek business opportunities for hydrogen energy, distributed power generation, EPC system solutions, operating lease and other projects. (2) During the Reporting Period, against the backdrop of slow growth in overall market demand for the products in the chemical equipment business segment, the tank container business of CIMC Enric delivered outstanding performance amidst the fierce market competition. Standard tank containers, gas tank containers, LNG tank containers and railway tank containers all recorded excellent performance. (3) After consolidating Ziemann and Briggs Group Limited, the liquid food equipment business segment had become a supplier of comprehensive turn-key project solutions for beer, spirit and other liquid food manufacturers and pharmaceutical companies. Meanwhile, the segment kept a foothold in China and Europe and expanded its production capacity in China and its market network in Asia by consolidating Ziemann Holvrieka Asia Company Limited.

As mentioned in the 2016 Interim Report, 2016 Annual Report and the relevant announcements of the Company, on 1 June 2016, CIMC Enric terminated the acquisition of all equity interest in SOE from the vendors and the provision of financial assistance to SOE due to the failure in fulfillment or waive of certain conditions precedent set out in the relevant agreements by SOEG PTE LTD, Jiangsu Pacific Shipbuilding Group Co., Ltd. and Evergreen Group Co., Ltd., and requested the vendors to refund the prepaid consideration and SOE to return the loan and the guarantee of bank loan. After a comprehensive and careful assessment on the

impairment risks and collectability of the amount receivables, CIMC Enric made impairment provision of RMB1,214.880 million in total for the amounts due from the vendors and SOE in the interim period of 2016, and made further provision at the end of 2016, resulting in a total amount of provision of RMB1,362.915 million for the whole year. Accordingly, CIMC Enric incurred net loss in the interim period of 2016 and the year 2016, and the Company recorded a net loss in the interim period of 2016 and a significant decline in net profit in the year 2016.

Considering that SOE is under receivership of the Receiver and its business and assets may supplement and collaborate with the business of CIMC Enric, on 5 July 2017, CIMC Enric, through its wholly-owned subsidiary CIMC Enric Investment Holdings (Shenzhen) Ltd., entered into the Restructuring Investment Agreement with SOE and SOE Bankruptcy and Liquidation Team* (南通太平洋破產清算組) to propose to acquire the entire equity interest in SOE to purchase the major assets of SOE. On 4 August 2017, the SOE Restructuring Plan was approved by SOE's creditors at the creditors' meeting and was approved by the court in China in accordance with the relevant laws in China. SOE will implement the Restructuring Plan under the supervision of the Receiver accordingly. On 15 August 2017, SOE has become an indirect wholly-owned subsidiary of CIMC Enric pursuant to the Restructuring Investment Agreement and the Restructuring Plan and has become an indirect non-wholly-owned subsidiary of the Group. SOE renamed as “南通中集太平洋海洋工程有限公司” (Nantong CIMC SinoPacific Offshore & Engineering Co., Ltd.*). For details, please refer to the relevant announcements published by the Company on 6 July, 4 August and 16 August 2017. According to the solvency analysis report provided by the Receiver, the recoverable amount of the amount due from SOE of CIMC Enric was estimated to be RMB190.521 million as at 30 June 2017. Accordingly, CIMC Enric will make additional provisions of RMB105.549 million for impairment for the Reporting Period. Such provisions also included in the 2017 consolidated interim financial report of the Group.

Offshore Engineering Business

CIMC Raffles, a subsidiary of the Group, is an offshore engineering enterprise whose integrated operation model integrating design, procurement, manufacture, construction, commission and operation, possessing the capability of mass and industrialised construction of high-end offshore engineering equipment and other special vessels as a contractor. It is also one of the leading contractors of high-end offshore engineering equipment in China and has been participating in the competition of the international market of offshore engineering business all the time. Its major businesses include the design and construction of semi-submersible drilling platforms, semi-submersible accommodation platforms, jack-up drilling platforms, jack-up accommodation platforms, gas compression jack-up units, Liftboat, floating production storage vessels, crane vessels, pipe-laying vessels, OSV, ocean tugs, mid-to-high-end yachts and other vessels with its products covering a majority of offshore engineering products.

In the first half of 2017, by virtue of the bottoming out of the international oil prices, the turnover of the global offshore engineering equipment market increased as compared with the same period of the previous year. In spite of the historically lower turnover, signs of bottoming out emerged. The investment in respect of global oil and gas development stopped declining, gradually stabilised and slightly improved; the utilisation rate and daily rentals of semi-submersible drilling platforms started to recover slowly from its all-time low recorded early this year; and the number of quotations and tender projects in offshore engineering market increased.

However, under the significant impact of the continued downturn in the industry and due to reasons such as the shrink in new orders acquired and the postponed delivery of the orders on hand, during the Reporting Period, the offshore engineering business of the Group recorded a sales revenue of RMB1,214.509 million (same period in 2016: RMB3,703.689 million), representing a year-on-year significant decrease of 67.21%, and a net loss expanding to RMB550.421 million (same period in 2016: net loss of RMB3.988 million).

In the severe industry environment, CIMC Raffles strived to develop a variety of business models to explore market potential. During the Reporting Period, CIMC Raffles acquired new orders amounting to RMB230 million. s oand

18 Chapter III Report of the Board

In the first half of 2017, the global economy recovered moderately. In spite of the stabilised and favourable imports and exports, a number of political uncertainties remained. In view of the intense competition in the domestic logistics industry with oversupply, the shipping price remained low and there was no significant improvement in the performance of enterprises. In addition, factors such as more stringent environmental protection policies in China also affected the equipment manufacturing business in the logistics segment.

During the Reporting Period, the Group's logistics business achieved sales revenue of RMB3,751.202 million (same period in 2016: RMB3,218.617 million), representing a year-on-year increase of 16.55%, and net profit of RMB57.340 million (same period in 2016: RMB68.434 million), representing a year-on-year decrease of 16.21%. During the Reporting Period, as affected by the adjustment in the business line in Mongolia, the gross profit margin of this business segment declined, resulting in a year-on-year decrease in net profit.

In the first half of 2017, the logistic service business of the Group steadily pushed forward the four major business lines. (1) The container services business line specified the development strategies for its seven key products during the 13th Five Year Plan, namely vacant/loaded container yards, tank container yards, wharf services, railway yards and stations, services for reefer containers, trading of new/old containers and global container operation and management. It realised the layout of container yards in Southeast Asia (Thailand and Vietnam) and the network distribution of container yards in overseas. It also enhanced the sales performance of second-hand containers by expanding sales channels and broadening sources of containers. (2) The shipping and project logistic services business line actively seized the market opportunities arising from the national strategy, the "Belt and Road", so as to expand its shipping and freight forwarding, project logistics and contract logistics businesses. It enhanced and strengthened the services network

of freight forwarding in coastal regions such as Xiamen and Shenzhen and optimised the national layout of shipping forwarding in order to facilitate the collaboration of shipping and freight forwarding. By creating synergy with the container services business line and taking Thailand and Vietnam as the starting points, it gradually carried out business expansion in target regions including other Southeast Asian countries, and rapidly acquired the network distribution and superior resources for the "Belt and Road" in the Middle East and Central Asia by cooperating more closely with regional leading enterprises in terms of business and capital. (3) The rail-water transport business line kept on putting effort into business focusing and

Heavy Truck Business

C&C Trucks, a subsidiary of the Group, operates the heavy truck business. C&C Trucks positions its products in the mid-end to high-end heavy truck market in the international market and the high-end heavy truck market in the domestic market with the product development strategy of “leading domestic techniques and following foreign techniques” and the development strategy of “making high-end products, providing quality services, and creating first-class brands”. Its key products cover two kinds including diesel and oil, and four series including tractors, mixer trucks, dump trucks, cargo trucks and special-use vehicles.

In the first half of 2017, by virtue of the implementation of the new national standard GB1589-2016, governance on vehicle overload, phasing out yellow-label vehicles and other factors and affected by the implementation of proactive financial policies by the government, the domestic heavy truck market continued to deliver excellent performance. In light of the traditional peak season of the heavy truck market in early this year and the commencement of infrastructure projects in various prefecture-level cities, the procurement demand for heavy trucks increased, which facilitated the significant growth of the sales of heavy trucks.

During the Reporting Period, the sales of C&C Trucks amounted to 4,438 units (same period in 2016: 3,003 units), representing a significant year-on-year increase of 47.79%, which maintained significant sales growth for two consecutive years. The sales revenue amounted to RMB1,283.201 million (same period in 2016: RMB860.359 million), representing a substantial year-on-year increase of 49.15%, and the net loss reduced to RMB42.814 million (same period in 2016: net loss of RMB96.523 million), recording a decrease of loss of 55.64% as compared with the same period of the previous year.

During the Reporting Period, C&C Trucks kept making changes to be better and put more effort in sales by reconsolidating resources and institutions, product improvement, channel building, international market expansion, end market development, smooth and prompt services and other marketing combinations. In respect of

the domestic market, C&C Trucks put continuous effort into product adjustment and optimisation and focused on the market demand and the major products in regions to develop marketable products so as to introduce cost-effective products and comprehensively enhance the vehicle delivery capacity. The new marketing model of “Internet + Logistics + Manufacturing + Finance + Aftermarket Services” achieved preliminary results and deepened progressively. In the first half of this year, both its performance and brand influence improved. “C&C Trucks” was awarded the prominent trademark of Anhui Province. It won three major awards including the “2017 Hazardous Chemical Vehicle Model Mostly Trusted by Truck Owners in China”. It also won the “Logistics Technology Innovation Award” in 2017 Global Logistics Technology Conference in Chengdu. As a member of the Group, C&C Trucks was the only heavy truck manufacturer participating in the Intermodal Asia 2017 in Shanghai. C&C Trucks also participated in China Truck Racing Championship and won the champion in the domestic category, the champion in 12L group for the year and the runner-up in terms of racing team performance. In respect of the international market, affected by upgrading in emission standards, control in capital risk and other factors, the gap to international sales target of C&C Trucks was quite large in the first half of this year. Nonetheless, it is expected the business will achieve sales growth and make up the gap by taking measures such as improving channel capacity, R&D of new products and project implementation in the second half of this year.

Airport Facilities Equipment Business

The Group's airport facilities business is mainly operated by Pteris, CIMC Tianda, Ziegler and its subsidiaries. The Group also integrates and achieves synergy with its subsidiary CFSE over the advantages of resources. The principal business includes boarding bridges, automated logistics systems and Ground Support Equipment (GSE) business (including shuttle buses and lifting platform vehicles etc.), fire trucks and other rescue vehicles as well as smart parking business.

In the first half of 2017, the regulation policies on real estates in popular cities in China kept tightening with the intensification of purchasing restrictions on houses and lending restrictions as well as other regulatory measures. The government also introduced the “restriction on sales” model with expanding scope while strengthening financial regulation on real estate in order to curb the demand for investment and speculation. Under the guidance of the tightened policy control, the real estate market resumed to a more rational level. The overall turnover of the housing market represented a year-on-year decrease with obvious discrepancies between different cities.

During the Reporting Period, the Group’s real estate business achieved revenue of RMB297.664 million (same period in 2016: RMB315.698 million), representing a year-on-year decrease of 5.71%, and net profit of RMB65.035 million (same period in 2016: RMB42.775 million), representing a year-on-year increase of 52.04%, which was mainly due to the receipt of agency service fee for the land reserve at the end of last year during the Reporting Period.

In the first half of 2017, CIMC Skyspace Real Estate strengthened its effort into the expansion of industrial parks, and the model of industrial parks became more mature. In March 2017, it established a project company for an industry park in Beijing West and accelerated the implementation of an industrial real estate project in the New Shougang Comprehensive Service Zone in Beijing. In April, CIMC Elite Apartment was open in Song Shan Lake,

well as the Songshan Lake Industrial Park.

22 Chapter III Report of the Board

In the first half of 2017, the macroeconomic environment in China sustained the stable and favourable momentum since the second half year of the previous year. The prosperity of the industries related to the Group was significantly enhanced. Embracing the market opportunities, CIMC Financial Leasing Company continued to deepen the integration of industry and finance from three dimensions of "breadth, depth and mechanism", increased its investment in transportation, logistics and other markets, focused on optimising asset structure and improve the quality of customers so as to achieve healthy and sustainable growth. Under the business directions of reducing cost and improving efficiency, being prudent and steady and maintaining quality growth, its asset size gradually expanded in the first half of this year with further improvement in asset quality and operation efficiency.

In the first half of 2017, the keynote of the national monetary policy changed to "prudent and neutral". Prevention and control on financial risk were placed in a more important position during the implementation of various financial policies and regulatory measures. Against the backdrop of "tightening currency" and "strengthening regulation", during the Reporting Period, by further implementing centralised management on funds and following the industry demand, CIMC Finance Company strengthened the deep integration with business segments and gave play to its functions in financial services. The total investment in financial services exceeded RMB6,200 million in the first half of this year. In respect of building financial service capacity, the Finance Company obtained the approval to participate in the Shanghai Commercial Paper Exchange to improve its operation capacity of commercial papers. At the same time, it further expanded the scope of foreign enterprises for its cross-border two-way Renminbi capital pool and extended its services to various business segments. By making innovation in the products and ways of financial services, it also strived to reduce financial costs and improve capital efficiency of the Group in order to improve both the quality and efficiency of business development. In respect of risk prevention and control, the CIMC Finance Company fully

evaluated the impact of change in risk factors from the perspective of the whole Group, optimised the management and control on risk red line and strengthened the awareness in risk management and control so as to ensure the stable development of financial business of the Group.

Other Businesses

During the Reporting Period, the modular building business of the Group sustained stable development under a one-stop service model of "manufacturing + finance + service" integrating industry and finance. As for the international market, it entered into the first formal agreement for a mass production project in the U.S., achieving a breakthrough from zero in the U.S. market. With further deepened cooperation with customers, it is expected to enter into an agreement for the first batch order of high-rise buildings in the Australian market in the second half of this year. The delivery of a number of Hampton by Hilton hotels including those in Aberdeen Airport and Bristol Airport in the U.K. was completed successfully, which further consolidated the market position of the modular building products of the Group in the U.K. It has become one of the major suppliers in the hotel market in the U.K. In the African market, the first agreement for model home was entered into. It is expected that batch orders will be acquired in the second half of this year. As for the domestic market, the steel structure integration modular building system procedures of the Group was approved at the final examination and has become an important approach to lead and develop the domestic modular building market. Meanwhile, a breakthrough was achieved in the building precast factory pre-installation project under independent R&D, which was an emblematic initiative for development into high-rise buildings of the modular business of the Group, indicating the further completion of the factory for modular building. The modular building business has entered into the domestic market with major projects under construction in Shenzhen, Jiangmen and other regions. It is expected to deliver those projects in the second half of this year.

In the second half of 2017, the Group's modular building business will further consolidate its existing markets including the U.K. and Australia and will also put much more effort into the expansion of new markets such as Africa and Northern Europe so as to diversify its markets. In the domestic market, the implementation of the "Belt and Road", the construction of Xiong'an New Area and other national policies will bring about new opportunities for the modular business of CIMC. A number of large projects will also commence construction in China. The Group will strengthen its collaboration with strategic partners to push forward the implementation of potential projects. With respect to technology, it will upgrade its corporate standards to the industry standards in China in order to regulate the organisational system of steel structure modular and promote the standardisation progress of modular building business in China.

The Group's subsidiary CIMC Multimodal Transport Development Co., Ltd.* (中集多式聯運發展有限公司) ("CIMC Multimodal Transport Company") is engaged in multimodal transport business. It aims to maximise the Group's comprehensive advantages in brand, equipment, finance and services, utilise the advanced internet technologies to effectively link different modes of transport, and promote the widespread application of the Group's products in the multimodal transport industry, so as to create a domestic multimodal transport platform. During the Reporting Period, in respect of international rail-sea transport business, CIMC Multimodal Transport Company sustained stable development and established a company in the U.S. in order to put much more effort into the expansion of the U.S. market and to develop the China-North America multimodal transport business. In respect of road-railway transport business, it launched a total of six railway container lines and preliminarily established the multimodal transport network in South China, Central China and Northwest China. The application of new containers including tank containers, 35-tonne open-top containers and coil containers in railway was further promoted. The international rail-sea transport business, equipment logistics, steel business and road-railway transport business also had rapid development.

In the second half of 2017, the overall logistics industry is expected to maintain stable operation. Leveraging the continuous establishment of the multimodal transport system and the application of mobile internet and other new technologies, the logistics efficiency in the society will improve. The Group will accelerate its network distribution of multimodal transport channels and set foot in station operation to commence the establishment of multimodal transport node network. It will also look into the establishment of a transportation and distribution system which serves the channel network and commence the establishment of a multimodal transport platform.

III. FUTURE DEVELOPMENT AND OUTLOOK

1. Macroeconomic Environment and Policies

In the second half of 2017, the global economy is expected to continue to recover moderately, and the international trade will further prosper. China will further deepen and reinforce the supply-side structural reform, accelerate implementation of the strategy of innovation motivating development and maintain a "prudent and neutral" monetary policy. The economic operation in China will maintain the stable and favourable momentum.

2. Industry Development Trend and Market Outlook

In respect of the container manufacturing business, based on the latest prediction of CLARKSON (an authoritative analysis institution in the industry), the growth of global container trade will be approximately 4.8% in 2017. It is a relatively high level of growth in recent years. It is expected that the imbalance of supply and demand in the global shipping industry will further improve in the second half of this year, and the results of container shipping companies will improve significantly with stronger willingness for customers to purchase containers, driving the overall demand for containers to have greater increase this year.

24 Chapter III Report of the Board

In respect of the road transportation vehicle business, in the second half of 2017, the periodical demand of the semi-trailer industry in the United States will begin to experience downturn. The economies in Europe will maintain the momentum of recovery. There will be obvious segmentation of the economy of emerging markets with brisk demand in certain regional markets. The Chinese market will sustain the stable and favourable economic momentum. In spite of the uncertainties in real estate and infrastructure investment, it is expected that the demand for smart muck trucks for construction use will not decline. At the same time, the implementation of policy measures, which include advancing the management of serious over speed, passenger overload as well as overload of road traffic, regulating conformity of production, the change of yellow-label vehicles to green-label vehicles, urban environmental governance and improvement of emission standards for vehicles and so on, will accelerate domestic industrial transformation and upgrade as well as product replacement and upgrade.

In respect of the energy, chemical and liquid food equipment business, after the promulgation of the 13th Five Year Plan on Energy Development in 2016, the National Development and Reform Commission in China promulgated the notice on the Opinion of Accelerating the Use of Natural Gas to accelerate the use of natural gas in urban gas, industrial fuel, gas power generation, transportation

In respect of the airport facilities equipment business, in the second half of 2017, the global airport business is expected to grow steadily and new growth point will emerge in American market and area of new products. Boarding bridge business will greet the opportunity of renewal period in American market. Fire-fighting equipment business is affected by fiscal budget cuts by European countries, but it will produce better results in Chinese market. Logistics industry will grow steadily along with the industrial trend and garage business is expected to make a great breakthrough during this year. The newly-developed three-dimensional bus garage business will bring a large and brand new market.

In respect of the real estate development business, in the second half of 2017, it is expected that the financial policies in relation to the regulation on real estate in China will pose great influence on the housing market. The real estate market will be more stable, and its supply and transaction structure will be optimised. In the long run, the housing price will also stabilise because of the optimised structure. The appreciation potential of real estate in the future will be more dependent on the development of the first-tier cities, which will provide a better expectation on asset value of the land in the first-tier cities owned by CIMC Skyspace Real Estate.

In respect of the financial business, in the second half of 2017, the global monetary environment will continue to be tightened. Rate hike and shrinking balance sheet by the Fed will increase global economic and financial risks. Affected by real estate regulation and financial deleveraging, the investment in fixed assets in China will face downward pressure to a certain extent. The growth in macro-economy may be slower at first and faster in the end. The financial leasing industry in China will maintain its growth momentum but at a slower pace. The increasing financing costs will facilitate industry reshuffle. Under the policy of “deleveraging”, domestic credit risk will continue to be released. The operating risk of financial leasing enterprises will increase.

3. Overall Operation Targets and Initiatives for Main Business Segments

In the second half of 2017, the Group will insist on implementing the strategy of “Manufacturing + Service + Finance”, continue to carry out business transformation and upgrading and extend its manufacturing business to service sectors based on customer demand, thus providing a comprehensive solution that covers the whole life cycles of its products. The Group will continue to enhance its global operation, optimise its business and products, and speed up the industry cluster to cultivate its advantages on industrial chains. Innovations will be constantly made on technology upgrading, business model and management mechanism, to which the risks related will be controlled. The Group will strive to capture the opportunities brought by market changes and expand its coverage on emerging industries and innovation business to achieve sustained quality growth.

In respect of the container manufacturing business, in the second half of 2017, the Group will focus on connotative optimisation and consolidation of its leading position in the industry, and seize market opportunities. It will also enhance the efficiency and stabilise the quality of the manufacturing of containers with water-based paint while improving the construction of HSE of all plants. In the second half of this year, the Dongguan Fenggang project will enter into the period of overall construction on schedule. For new business expansion, the container segment will continue to explore possibilities in a proper and orderly manner as planned on the basis of strengthening risk management and control.

26 Chapter III Report of the Board

In respect of the road transportation vehicle business, in the second half of 2017, it will continue to strive for comprehensively improving the core competency of global operations. While focusing on semi-trailer business and optimising existing business, the Group will put much more effort into exploring business growth and innovation business, to seize rapidly the opportunities arising from the changing trends and demands in the global markets and realise the continuous quality growth. In domestic market, the Group will seek for developing new profit growth by capturing opportunities brought by new regulations and prevailing hot events. In North American market, the Group will actively extend the geographical coverage of its products to set off the cyclical downtrends. In the European market, the Group will continue to give play to the cost advantages of its superior products from business collaboration. In emerging markets, the Group will adopt appropriate strategies to grow with the markets while focusing on the key markets.

In respect of the energy, chemical and liquid food equipment business, in the second half of 2017, it will continue to focus on the improvement of its core competitiveness based on organic growth and continuous innovation and make use of the innovation in new businesses, new technology and business models to achieve industry upgrade. As for its energy equipment business, CIMC Enric will put much more effort into expanding the market share of its core products in China and enhance R&D projects in new energy fields; as for the chemical equipment business, CIMC Enric will strive to develop a variety of tank containers while paying special attention to the development and application of new tank materials and the R&D of special tank containers for railways in China and Europe; as for the liquid food equipment business, CIMC Enric will continue to improve the brand advantages of "Ziemann Holvrieka", strengthen the integration of Briggs Group Limited and further improve its market position.

In respect of the offshore engineering business, in the second half of 2017, it will actively expand the scope of offshore engineering business by focusing on the oil and gas industries and expanding into the relevant diversified business. It will continue to develop towards production, vessels management, disassembly and high-end vessel repairing sectors from the drilling sector so as to integrate drilling and mining while covering building and repairing. It will also further expand into the business related to the national economy and livelihood and explore potential orders in the non-oil and gas offshore equipment, tourism and deep sea fishery industries. It will take off from the downturn of the offshore engineering market by coping with the changes in the industry environment and providing differentiated products and services.

In respect of the logistics services business, in the second half of 2017, it will further strengthen strategic rationalisation and optimising the business structure and organisational structure; enhancing capital efficiency and profitability; further promoting the lean management in the logistics business; completing the risk management in business segments; further promoting the enhancement in the financial system; promoting the development of informatisation with the integration of the idea of "Internet plus". The Group will also strengthen industry collaboration by consolidating its internal and external resources and further establish and complete its global logistics network distribution and construct a logistics ecosystem for CIMC while adhering to the national strategy of the "Belt and Road".

In respect of the heavy truck business, in the second half of 2017, C&C Trucks will continue to carry out its work by strictly complying with operational principle of “market-oriented, efficiency first, risk management, management standardisation and integrity-centric” to specifically cater for the needs of market segments. It will proceed with and achieve the project of “two decreasing and one lowering”, i.e. decreasing inventories, decreasing receivables and lowering doubtful debts. C&C Trucks will continue to improve versatility of parts and components and the cost performance of the products, manage orders through the whole process, raise the response efficiency of terminal service, construct credibility management system for counterparties so as to develop a partnership achieving mutual benefits on the basis of credibility and optimise the procedure for fixing post to establish a healthy organisational structure.

In respect of the airport facilities equipment business, in the second half of 2017, it will continue to improve the guarantee ability and achieve stable business growth; continuously strengthening core competitiveness; conducting business innovation with the consideration of industrial characteristics; perfecting the human resource system; promoting risk management improvement with reasonable control and management; complying with the Group's strategy to promote the our corporate efficiency. Meanwhile, by combining mergers and acquisitions with strategic cooperation, our corporate strength will be enhanced.

In respect of the real estate development business, in the second half of 2017, it will continue to promote the implementation of Qianhai Project and Shanghai Baoshan Project by keeping close communication with competent government authorities for substantial progress. In the meantime, through replication of the industrial park model, it will actively seek promising new industry projects in first-tier cities or their surrounding areas to boost the implementation of the projects.

In respect of the financial business, in the second half of 2017, CIMC Financial Leasing Company will continue to deepen the coordination of industry and finance, seize the opportunities of developing in market segments, put much more effort into marketing, optimise asset structure and improve customers' quality while maintaining a stable and prudent risk management and control policy. It will also make innovation in its business model so as to strive for healthy, stable and sustainable growth. CIMC Finance Company will further innovate its financial services, improve the quality and efficiency of global capital management services, promote the industry chain financial services, adhere to the risk bottom line and promote the business development of the Group.

4. Main Risk Factors for Future Development of the Group

Risk of economic periodic fluctuations and trade protection: The industries involved in the principal business operations of the Group are dependent on global and domestic economic performance and vary with the periodical changes of the overall economic environment. The U.S. economic policies may adopt the stance of more inclined to protectionism, which will bring more uncertainties and risks to the global economic recovery and the imports and exports of China. Affected by these factors, there are risks that the growth of the Group's various principal businesses might slow down. The changes and risks in the global economic environment bring higher requirements on the Group's operating and management capabilities.

28 Chapter III Report of the Board

Risk of industry policy upgrade: China's economy entered into the "new normal" and the government of China presents the road map for and overall objective of comprehensively deepening reform to push forward the transformation and upgrade of economic structure. The new industrial policies, tax policies, policies of environmental protection and land policies, etc. that have a huge

CHAPTER IV Operation Discussion and Analysis Prepared in Accordance with the Domestic Securities Regulatory Rules

I. BUSINESS OVERVIEW

(I) Principal Business Engaged by the Company during the Reporting Period

For the principal business engaged by the Company and its operation during the Reporting Period, please refer to “I. Business Summary” and “II. Review of Principal Businesses during the Reporting Period” under “Chapter III Report of the Board” in this Report.

(II) Significant Changes in the Major Assets during the Reporting Period

1. Significant Changes in the Major Assets

During the Reporting Period, there was no significant change in the major assets of the Group.

2. Main Overseas Assets

Applicable Not applicable

(III) Analysis of Core Competitive Advantages

Strategic Positioning of “Manufacture + Service + Finance”

The Group has formed an industrial pattern spanning both logistics and energy fields, and has developed major business segments with industry leading position and good prospects, and will continue to explore and deploy in emerging industry which help to give full play to the Group’s advantages. While reinforcing its edge in traditional industries, the Group promoted a customer demand-oriented business expansion from manufacture to incorporate service, offered comprehensive solutions covering the entire life cycle of a product, and established the strategic positioning and industrial ecosystem of “manufacture + service + finance”.

Development Philosophies of Business Diversification and Globalisation

The Group has always been committed to reasonable business diversification and globalised deployment. The Group’s existing principal businesses cover container manufacturing business, road transportation vehicle business, energy, chemical and liquid food equipment business, offshore engineering business, logistics service business, heavy truck business, airport facilities equipment business, financial business, real estate development business and other emerging businesses, its production bases spread across Asia, Europe, North America and Australia, and its business network spans over the world’s major countries and regions. In particular, the container business continued to take the lead in the industry worldwide, as well as road transportation vehicles, energy and chemical equipment and offshore engineering businesses with strong competitive edges. The efficient implementation of business diversification and globalised deployment effectively offset the adverse impact of the periodic fluctuations of the global market in the recent year on the Group’s results.

A Standardised and Effective Corporate Governance System

The Group has developed a set of effective governance models covering business philosophy, governance structure and management mechanism. A standardised and effective corporate governance structure is the institutional safeguards of the Group’s sustainable and healthy development. Since 2010, the Group has launched the strategic upgrade campaign of “building an empowering platform for sustainable and healthy development of CIMC”. According to the organisational transformation direction of “layering management”, the Company has established a three-tier management model comprising the executive committee, special committees and the Board as well as a 5S core management process, and introduced the lean management concept. As a result, the Company has established an innovative and forward-looking management system to ensure sustainable and healthy development of its businesses.

Risk analysis regarding positions in derivatives during the Reporting Period and explanations of risk control measures (including but not limited to market risk, liquidity risk, credit risk, operation risk and law risk etc.)

As at 30 June 2017, the derivative financial instruments held by the Group were mainly foreign exchange forwards, interest rate swap and currency swap contracts. The risks of interest rate swap contracts were closely related to the fluctuations of interest rate. The risks carried by foreign exchange forwards were connected with the market risks relating to exchange rates and the Group's cash flow certainty of foreign currency revenues in the future. The Group's control on the derivative financial instruments was mainly reflected in: making prudent selection and determination on the type and quantity of newly-added derivative financial instruments; as to derivatives transactions, the Group developed rigorous internal approval systems and operational processes, and clarified the approval and authorisation procedures for all levels involved, so as to control the associated risks.

Changes in market prices or product fair values of derivatives invested during the Reporting Period, where specific methods and relevant assumptions and parameters used shall be disclosed in the analysis of fair values of derivatives

From January to June 2017, the Group's profit or loss arising from changes in fair values of the derivative financial instruments was RMB(64,290) million. Fair values of the derivative financial instruments of the Group were determined based on market prices of external financial institutions.

Explanations of any significant changes in the Company's accounting policies and specific accounting principles on derivatives between the Reporting Period and the last reporting period

No

Specific opinions of independent Directors on the derivatives investments and risk controls of the Company

The Company invested in derivatives for the purpose of the day-to-day international business operations of the Company in order to smooth the fluctuation of the operations of the Company due to the change in exchange rates and interest rates. The effect of exchange rates and interest rates on the operations of the Company was reduced to such extent that it is acceptable and under control so the operations stabilised and improved, which ensured the long-term operating or strategic objectives were to be achieved. The Company has established a sound internal control system and put it into effective implementation. The management systems were formulated and constantly improved. The related decision-making procedures were optimised with risks under control in compliance with the requirements of the laws and regulations and without prejudice to the interests of the Company and the shareholders, in particular, the minority shareholders.

Chapter V Management Discussion and Analysis Prepared in Accordance with Hong Kong Securities Rules

The following contents are the financial resource reviews prepared in accordance with the relevant provisions of the Hong Kong Listing Rules. The following discussion and analysis shall be read together with other chapters and the 2017 Interim Financial Report (unaudited) of the Group set out in this Report.

CHANGES IN ACCOUNTING POLICIES FOR THE REPORTING PERIOD

On 28 August 2017, as considered and approved by the 11th meeting of the eighth session of the Board of Directors of the Company for 2017 and the 6th meeting of the eighth session of the Supervisory Committee for 2017, the Company revised the accounting policies of the Company pursuant to the requirements under “Notice on Issuance of Revised Accounting Standards for Business Enterprises No. 16 – Government Subsidy” (Cai Kuai [2017] No. 15) issued by Ministry of Finance (“MOF”) of the People’s Republic of China and “Notice on the Issuance of the Accounting Standards for Business Enterprises No. 42 – Non-current Assets Held for Sale, Disposal Group and Termination of Operation” (Cai Kuai [2017] No. 13) issued by MOF, pursuant to which, (1) the Company has implemented the “Notice on Issuance of Revised Accounting Standards for Business Enterprises No. 16 – Government Subsidy” (Cai Kuai [2017] No. 15) issued by MOF since 12 June 2017. Government grants relating to the ordinary activities of the Group shall be included in other income based on the nature of economic business. Government grants not relating to the ordinary activities of the Group shall be included in non-operating income and expense. The prospective application method shall be used for the accounting treatment of the government grants existed on 1 January 2017 of the Group. Adjustment shall be made for the government grants arose from 1 January 2017 to the effective date of such standard. The comparative financial statements of the Group for January – June 2016 were not restated. (2) The Company has implemented the “Notice on the Issuance of the Accounting Standards for Business Enterprises No. 42 – Non-current Assets Held for Sale, Disposal Group and Termination of Operation” issued by MOF since 28 May 2017. The change in such accounting policy did not have a significant impact on the financial statements of the Company during the Reporting Period. For details, please refer to note II. 33 of “Chapter IX 2017 Interim Financial Report (Unaudited)” in this Report.

CONSOLIDATED OPERATING RESULTS

During the Reporting Period, the Group recorded revenue of RMB33,387.152 million (same period in 2016: RMB23,542.843 million), representing a year-on-year increase of 41.81%, and profit attributable to shareholders and other equity holders of the Company of RMB796.898 million (same period in 2016: recording a loss of RMB378.034 million). For details, please refer to relevant information set out in the chapters headed “Chapter II Summary of Accounting Data and Financial Indicators” and “II. Review of Principal Businesses during the Reporting Period” under “Chapter III Report of the Board” in this Report.

SEGMENT INFORMATION

For details of the segment information of the Group during the Reporting Period, please refer to “II. Review of Principal Businesses during the Reporting Period” under “Chapter III Report of the Board” and note XIII of “Chapter IX 2017 Interim Financial Report (Unaudited)” in this Report.

GROSS PROFIT MARGIN AND PROFITABILITY

During the Reporting Period, the gross profit margin of the Group was 18.41% (same period in 2016: 18.76%), representing a slight year-on-year decrease of 0.35%. Among the principal businesses, the gross profit margin of container manufacturing and heavy trucks increased, the gross profit margin of offshore engineering business turned from profit to loss as affected by the continued downturn in the industry, the gross profit margin of the remaining segments remained basically stable or slightly decreased as compared with the same period of last year. For details, please refer to “2. Composition of Principal Businesses during the Reporting Period” of “(II) Analysis of Principal Businesses” of “II. Operation Discussion and Analysis” of “IV. Operation Discussion and Analysis Prepared in Accordance with the Domestic Securities Regulatory Rules” in this Report.

44 Chapter V Management Discussion and Analysis Prepared in Accordance with Hong Kong Securities Rules

NON-OPERATING INCOME

During the Reporting Period, the Group's non-operating income amounted to RMB84.343 million (same period in 2016: RMB167.289 million), representing a year-on-year

Chapter V Management Discussion and Analysis Prepared in Accordance with Hong Kong Securities Rules

BANK LOANS AND OTHER BORROWINGS

As at 30 June 2017, the Group's short-term borrowings, long-term borrowings, debentures payable and other current liabilities (issuance of commercial papers) in aggregate amounted to RMB57,072.710 million (31 December 2016: RMB55,932.185 million). Details are set out in notes IV. 25, IV. 36, IV. 37, IV. 38 and IV. 39 of "Chapter IX 2017 Interim Financial Report (Unaudited)" in this Report.

Unit: RMB thousand

	As at 30 June 2017 (unaudited)	As at 31 December 2016 (audited)
Short-term borrowings	17,945,748	15,729,787
Non-current borrowings due within one year	4,891,414	3,525,710
Long-term borrowings	23,665,089	27,023,222
Debentures payable	7,986,500	7,986,500
Other current liabilities (issuance of commercial papers)	2,583,959	1,666,966
Total	57,072,710	55,932,185

In the first half of 2017, the net bank loans appropriated by the Group amounted to RMB2,798.256 million (same period in 2016: RMB5,324.877 million), representing a year-on-year decrease of 47.45%. The Group's bank borrowings are mainly denominated in U.S. dollars, with the interest payments computed using fixed rates and floating rates. As at 30 June 2017, the Group's bank borrowings included fixed-rate borrowings of approximately RMB11,035.941 million (31 December 2016: RMB8,123.960 million), representing an increase of 35.84% as compared with the end of the previous year, which was mainly due to the financing arrangement made by the Group to meet the working capital requirements; floating-rate borrowings of RMB35,466.310 million (31 December 2016: RMB38,154.759 million), representing a decrease of 7.05% as compared with the end of the previous year. As at the end of the Reporting Period, the long-term borrowings were mainly due within five years. For details, please refer to note IV. 38 and XIV. 3 of "Chapter IX 2017 Interim Financial Report (Unaudited)" in this Report.

46 Chapter V Management Discussion and Analysis Prepared in Accordance with Hong Kong Securities Rules

CAPITAL STRUCTURE

The Group's capital structure consists of equity interest attributable to shareholders and liabilities. As of 30 June 2017, the Group's equity interest attributable to shareholders amounted to RMB39,871.883 million (31 December 2016: RMB39,134.792 million) in aggregate, the total liabilities amounted to RMB89,626.971 million (31 December 2016: RMB85,479.956 million) and the total assets amounted to RMB129,498.854 million (31 December 2016: RMB124,614.748 million). The Group is committed to maintaining an appropriate combination of equity and debt, in order to maintain an effective capital structure and provide maximum returns for shareholders.

At the end of the Reporting Period, the Group's gearing ratio was 69.21% (31 December 2016: 68.60%), which slightly increased by 0.61% as compared with the end of the previous year. (Calculation of the gearing ratio: based on the Group's total debts as at the respective dates divided by our total assets.)

FOREIGN EXCHANGE RISK AND RELEVANT HEDGE

The major currency of the Group's business revenue is U.S. dollars, while most of its expenditure is made in RMB. As the exchange rates of RMB are affected by domestic and international economic and political situations, and the demand and supply of RMB, the Group is exposed to potential foreign exchange risk arising from the exchange rate fluctuation in RMB against other currencies, which may affect the Group's operating results and its financial condition. The management of the Group has closely monitored its foreign exchange risk and taken appropriate measures to avoid foreign exchange risk. For details of the foreign exchange hedging contracts held by the Group during the Reporting Period, please refer to note IV. 2 and IV. 26 of "Chapter IX 2017 Interim Financial Report (Unaudited)" in this Report.

INTEREST RATE RISK

The Group is exposed to the market interest rate change risk relating to its interest-bearing bank loans and other borrowings. To minimise the impact of interest rate risk, the Group entered into interest rate swap contracts with certain banks. For details, please refer to note IV. 2 and IV. 26 of "Chapter IX 2017 Interim Financial Report (Unaudited)" in this Report.

CREDIT RISK

The Group's credit risk is primarily attributable to cash at bank and on hand, receivables, derivative financial instruments entered into for hedging purposes, etc. Exposure to these credit risks is monitored by the management on an ongoing basis. For details, please refer to note XIV. 1 of "Chapter IX 2017 Interim Financial Report (Unaudited)" in this Report.

PLEDGE OF ASSETS

As at 30 June 2017, the restricted assets of the Group totally amounted to RMB8,902.078 million (31 December 2016: RMB9,756.883 million), representing a decrease of 8.76% as compared with the end of the previous year. For details, please refer to note IV. 24 of "Chapter IX 2017 Interim Financial Report (Unaudited)" in this Report.

CAPITAL COMMITMENTS

As at 30 June 2017, the Group had capital expenditure commitments of approximately RMB494.514 million (31 December 2016: RMB417.786 million), representing an increase of 18.37% as compared with the end of the previous year, which were mainly used as external investment contracts entered but not performed or performed partially. For details, please refer to note XI. 1. (1) of "Chapter IX 2017 Interim Financial Report (Unaudited)" in this Report.

Chapter V Management Discussion and Analysis Prepared in Accordance with Hong Kong Securities Rules

CONTINGENT LIABILITY

As at 30 June 2017, the Group had contingent liabilities of approximately RMB59.028 million (31 December 2016: RMB83.248 million), representing a decrease of 29.09% as compared with the end of the previous year. For details, please refer to note X. 1 of “Chapter IX 2017 Interim Financial Report (Unaudited)” in this Report.

SIGNIFICANT INVESTMENTS AND MAJOR ACQUISITIONS AND DISPOSALS RELATING TO SUBSIDIARIES AND ASSOCIATED COMPANIES

During the Reporting Period, the Group did not make any significant investment and had no major acquisitions and disposals relating to subsidiaries and associated companies. For information on the major subsidiaries of the Group, please refer to note VI. 1 of “Chapter IX 2017 Interim Financial Report (Unaudited)” in this Report.

FUTURE PLANS FOR SIGNIFICANT INVESTMENTS AND EXPECTED SOURCES OF FUNDING

For the investment plan of the principal businesses of the Group in the second half of the year, please refer to “3. Overall Operation Targets and Initiatives for Main Business Segments” of “III. Future Development and Outlook” under “Chapter III Report of the Board” in this Report. The operating and capital expenditures of the Group are mainly financed by our own fund and external financing. The Group will take a prudent attitude to enhance its operating cash flow. The Group has sufficient sources of funding to meet the requirements of capital expenditure and working capital.

CAPITAL EXPENDITURE AND FINANCING PLAN

Based on changes in the economic situation and operating environment, as well as the requirements of the Group’s strategic upgrade and business development, the expected capital expenditure of the Group in 2017 was approximately RMB7,900 million, among which approximately RMB500 million was actually expensed in the first half of this year, which was mainly used for acquisition of fixed assets, intangible assets and other long-term assets. Various forms of financing arrangements will continue to be considered by the Group in the second half of this year.

On 31 May 2016, as considered and approved at the shareholders’ general meeting, the Company proposed a non-public offering of new A shares to eligible investors for no more than RMB6,000 million (the “Non-public Offering of A Shares”). On 17 January 2017, as certain matters still need to be resolved, the Company submitted an application to the CSRC for the suspension of inspection of the documents of the Non-public Offering of A Shares. On 9 June 2017, in order to ensure the implementation of the relevant work, upon consideration and approval at the annual general meeting of 2016 and the first 2017 class meeting of A Shares and the first 2017 class meeting of H Shares, the Company revised its issuance proposal for the Non-public Offering of A Shares and extended the validity period of the resolution by the shareholders’ general meeting as well as the validity period of the mandate for the Board. For details, please refer to “II. Issue and Listing of Securities” under “Chapter VII Changes in Share Capital and Information on Substantial Shareholders” in this Report. As at the end of the Reporting Period, the Non-public Offering of A Shares is still suspended.

50 Chapter VI Significant Events

During the Reporting Period, the Board, comprising 8 Directors, held 5 meetings, of which 1 meeting was held on-site, 4 meetings were held in a way of written review resolutions with 36 resolutions reviewed. Save for the regular meetings, in the course of the management and supervision of the Group's business operations, the Company's executive Directors have brought major business or management matters to the attention of the Board to hold an interim Board meeting from time to time, and relevant Board decisions were made in the form of written resolutions by all Directors.

Code provision A.1.1 requires that "The board should meet regularly and board meetings should be held at least four times a year at approximately quarterly intervals". During the Reporting Period, the Company held 5 Board meetings, of which only 1 meeting was held on-site. The executive Directors of the Company manage and monitor the business operation and propose to hold Board meetings to have discussions and make decisions on the Group's major business or management affairs from time to time. Accordingly, certain relevant decisions were made by all Directors by way of written resolutions. The Directors are of the opinion that, the fairness and validity of the decisions made for the business had adequate assurance. The Company will strive to put effective corporate governance practices into practice in future.

On 7 August 2017, Mr. Wang Zhixian, a non-executive Director, resigned from the position of non-executive Director and all the positions in the Risk Management Committee and the Remuneration and Appraisal Committee of the Board due to the change in job assignments. For details, please refer to "II. Changes of Directors, Supervisors and Senior Management of the Company" under "Chapter VIII Information on Directors, Supervisors and Senior Management" in this Report.

() **Board Committees**

During the Reporting Period, 9 meetings were held by the Board Committees with 19 letters of opinions from Board Committees passed.

() **Supervisory Committee**

During the Reporting Period, 3 meetings of the eighth session of the Supervisory Committee, comprising three Supervisors, was held with 13 resolutions reviewed. The Supervisors attended 5 meetings of the Board on a non-voting basis. The Supervisor Xiong Bo attended the 2016 annual general meeting, the first 2017 A shareholders' class meeting and the first 2017 H shareholders' class meeting.

On 7 August 2017, Mr. Lv Shengzhou, a Supervisor, resigned from the position of the Supervisor representing shareholder due to the change in work arrangement. However, pursuant to the Articles of Association, Mr. Lv Shengzhou will continue to perform his duties as a Supervisor before a new Supervisor being approved for appointment at the general meeting of the Company. For details, please refer to "II. Changes of Directors, Supervisors and Senior Management of the Company" under "Chapter VIII Information on Directors, Supervisors and Senior Management" in this Report.

() **Shareholders' Meetings**

On 9 June 2017, the Company held the 2016 annual general meeting, the First 2017 A Shareholders' Class Meeting and the First 2017 H Shareholders' Class Meeting. The notice, convening, holding and voting procedures of such meetings were in compliance with the relevant requirements of the PRC Company Law, the Articles of Association and the Hong Kong Listing Rules. The announcements on the relevant voting results were published in China Securities Journal, Shanghai Securities News and Securities Times and on Cninfo website (<http://www.cninfo.com.cn>) on 9 June 2017, and on the websites of the Hong Kong Stock Exchange (<http://www.hkexnews.hk>) and the Company (<http://www.cimc.com>).

The executive Director, CEO and President Mr. Mai Boliang and the non-executive Director Mr. Liu Chong and independent non-executive Directors Mr. Pan Chengwei, Mr. Pan Zhengqi and Mr. Wong Kwai Huen Albert attended the abovementioned general meetings. Non-executive Directors Mr. Wang Hong, Mr. Wang Yuhang and Mr. Wang Zhixian (resigned on 7 August 2017) failed to attend due to other important affairs.

() [Click here to view the full text of the resolutions passed at the general meetings.](#)

Code provision A.2.7 requires that “The chairman shall convene at least one meeting every year with the non-executive Directors (including independent non-executive Directors) without the executive Directors present”. The Company has only one executive Director, Mr. Mai Boliang, and the Company’s business operation is managed and monitored by the executive Director. Accordingly, during the Reporting Period, the Company has not held a Board meeting without the presence of the executive Director.

Code provision A.6.7 requires that “Independent non-executive directors and other nonexecutive directors should also attend general meetings and develop a balanced understanding of the views of shareholders”. Code provision E.1.2 requires that “The chairman of the board should attend the annual general meeting. He should also invite the chairmen of the audit, remuneration, nomination and any other committees (as appropriate) to attend”. The three independent non-executive Directors of the Company all attended the general meetings convened during the Reporting Period. The non-executive Directors Wang Hong, the Chairman of the Board, Wang Yuhang and Wang Zhixian (resigned on 7 August 2017), the Chairman of the Risk Management Committee of the Board, failed to attend the aforesaid general meetings due to other important affairs.

2. Compliance with the Model Code by Directors and Supervisors of the Company for Securities Transactions

The Company has adopted the standards prescribed in the Model Code contained in Appendix 10 of the Hong Kong Listing Rules as the code of conduct in dealing in securities by Directors and Supervisors of the Company. After inquiries to all the Directors and Supervisors, all the Directors and Supervisors confirmed that they had fully complied with the requirements in the Model Code during the Reporting Period.

3. Audit Committee

The Company has appointed three independent non-executive Directors and established the audit committee pursuant to the requirements of the Hong Kong Listing Rules. The members of the audit committee are Mr. Pan Chengwei (chairman of the audit committee with professional qualifications and experience in relation to financial management such as accounting), Mr. Pan Zhengqi and Mr. Wong Kwai Huen, Albert.

On 27 August 2017, the audit committee reviewed the unaudited 2017 Interim Financial Report and this Report of the Group for the six months ended 30 June 2017, and agreed to present the same to the Board.

4. Disclosure Pursuant to Rule 13.51B(1) of the Hong Kong Listing Rules

For the changes in information of Directors, Supervisors and chief executive officer of the Company to be disclosed pursuant to Rule 13.51B(1) of the Hong Kong Listing Rules during the Reporting Period, please refer to the chapter headed “IV. Changes in Information of Directors and Supervisors” under “Chapter VIII Information on Directors, Supervisors and Senior Management”. Except for such disclosure, there is no other information required to be disclosed pursuant to Rule 13.51B(1) of the Hong Kong Listing Rules.

During the Reporting Period, there was no effective judgement of the court failed to be satisfied by the Company and its largest shareholder, China Merchants Group, or relatively large amount of debts due and outstanding.

XII. IMPLEMENTATION OF THE COMPANY'S SHARE OPTION INCENTIVE SCHEME, EMPLOYEE STOCK OWNERSHIP SCHEME OR OTHER EMPLOYEE INCENTIVE MEASURES

1. Summary of Share Option Incentive Scheme

(1) A Share(s) Share Option Incentive Scheme of the Company

In order to establish and improve the incentive-constraint mechanism, and effectively combine the interests of the Shareholders, the Company and its employees, the A Share(s) Share Option Incentive Scheme was considered and approved at the extraordinary general meeting of the Company on 17 September 2010. According to such scheme, the first tranche of 54,000,000 share options (the "First Tranche of Share Options") were registered on 26 January 2011 and the second tranche of reserved 6,000,000 share options (the "Second Tranche of Share Options") were registered on 17 November 2011.

As at 12 May 2015, upon the consideration and approval at the eighth meeting of the seventh session of the Board in 2015, the options of the second exercisable period for the First Tranche of Share Options have met the exercise conditions and were actually exercisable starting from 2 June 2015 to 27 September 2020 with the total exercisable options amounting to 39,660,000 options. As at 9 October 2015, upon the consideration and approval at the fourteenth meeting of the seventh session of the Board in 2015, the second exercisable period for the Second Tranche of Share Options have met the exercise conditions and were actually exercisable starting from 24 October 2015 to 27 September 2020 with the total exercisable options amounting to 4,132,500 options. As at 20 July 2017, upon the consideration and approval at the eighth meeting of the eighth session of the Board in 2017 and the implementation of the annual dividend distribution plan of the Company for 2016 on 20 July 2017, the adjusted option exercise price for the First and Second Tranche of Share Options is RMB10.49 and RMB16.02, respectively.

During the Reporting Period, the total exercisable options of A Share(s) Share Option Incentive Scheme amounted to 1,775,800 options, representing 3.03% of the total (adjusted), of which, totalling 1,730,800 options were exercised during the second exercisable period for the First Tranche of Share Options, and totalling 45,000 options were exercised during the second exercisable period for the Second Tranche of Share Options. The implementation of A Share(s) Share Option Incentive Scheme has no material impact on the Company's financial conditions and results of operation during the Reporting Period and in the future.

(2) Share option incentive scheme of the subsidiary CIMC Enric

CIMC Enric passed and adopted a share option scheme ("2006 Share Option Scheme") at its extraordinary general meeting held on 12 July 2006, pursuant to which CIMC Enric granted a total of 120,370,000 share options as rewards and benefits provided to certain employees, directors and other eligible persons for their contributions to CIMC Enric in November 2009, October 2011 and June 2014. The 2006 Share Option Scheme expired in 2016. For details, please refer to the related announcements of CIMC Enric published on the website of the Hong Kong Stock Exchange, the relevant announcements released on the websites of the Cninfo, the Hong Kong Stock Exchange and the Company as well as relevant regular reports of the Company in recent years.

On 20 May 2016, the annual general meeting of CIMC Enric passed and adopted a new share option scheme ("2016 Share Option Scheme") and terminated the 2006 Share Option Scheme. Since adoption of the 2016 Share Option Scheme, no share option has been granted by CIMC Enric pursuant to the 2016 Share Option Scheme.

(3) Implementation of the equity trust scheme of the subsidiary CIMC Vehicle (Group)

The CIMC Vehicle (Group) Co., Ltd. Equity Trust Plan (Draft) was considered and approved at the general meeting of the Company held on 17 October 2007, pursuant to the which, the senior management relating to the vehicle business of the Group and the key employees of CIMC Vehicle (Group) held 20% equity interests in CIMC Vehicle (Group) by capital increase of RMB220,700,000 through the CIMC Vehicle (Group) Co., Ltd. Equity Trust Plan (the "CR Trust CIMC Vehicle (Group) Equity Trust Plan") where Shenzhen International Trust & Investment Co., Ltd. (深圳國際信託投資有限責任公司) (now renamed China Resources SZITIC Trust Co., Ltd.) as the trustee. On 30 December 2015, CIMC Vehicle (Group) completed the capital increase and the CR Trust CIMC Vehicle (Group) Equity Trust Plan given up its pre-emptive rights. As at 31 May 2016, the Company reviewed and approved the Resolution regarding the Amendments to CIMC Vehicle (Group) Co., Ltd. Equity Trust Plan (Draft) (《關於修改〈中集車輛集團有限公司股權信託計劃(草案)〉的議案》) at the 2015 annual general meeting. For details, please refer to the relevant announcements released on the websites of the Cninfo, the Hong Kong Stock Exchange and the Company as well as relevant regular reports of the Company in recent years. The CR Trust CIMC Vehicle (Group) Equity Trust Plan held 15.83% equity interests in CIMC Vehicle (Group) as at the end of the Reporting Period.

2. Implementation of the A Share(s) Share Option Incentive Scheme of the Company and its Influence

Scope of participants during the Reporting Period	The first tranche of 54,000,000 shares (among which 4,107,500 shares were cancelled) were granted to 175 senior management and key technical personnel of the Company; the second tranche of 6,000,000 share options (among which 578,125 shares were cancelled) were granted to 38 key technical personnel and middle management of the Company.
Total equity granted during the Reporting Period (shares)	0
Total equity exercised during the Reporting Period (shares)	1,775,800
Total equity cancelled during the Reporting Period (shares)	0
Total equity lapsed during the Reporting Period (shares)	0
Total equity granted but outstanding at the end of the Reporting Period on a cumulative basis (shares)	23,453,740
Total equity granted and exercised at the end of the Reporting Period on a cumulative basis (shares)	31,860,635
Adjustments to grant price and exercise price during the Reporting Period and latest grant price and exercise price after such adjustments	The initial exercise price for the first tranche was RMB12.39/share which was adjusted to RMB10.49/share after implementation of the dividend distribution proposals for the year 2010 to 2016. The initial exercise price for the second tranche was RMB17.57/share which was adjusted to RMB16.02/share after implementation of the dividend distribution proposals for the year 2011 to 2016.

During the Reporting Period, there was no contracting of the Company generating a profit or loss which contributed to 10% or more of the total profit of the Company during the Reporting Period.

(3) Leasing

Applicable Not Applicable

During the Reporting Period, there was no leasing of the Company generating a profit or loss which contributed to 10% or more of the total profit of the Company during the Reporting Period.

2. MATERIAL GUARANTEES

Applicable Not Applicable

(1) Description of Guarantees

Unit: RMB thousand

External guarantees undertaken by the Company and its subsidiaries (excluding guarantees for subsidiaries)

Name of the guaranteed	Disclosure date of the announcement about the guarantee facilities	Guarantee facilities	Actual date (date of the agreement)	Actual amount of guarantee	Type of guarantee	Guarantee period	Fulfilled or not	Related party guaranteed or not
Customers and dealers of subsidiaries of CIMC Vehicle	28 March 2017	2,650,000	1 January 2017	794,628	Warranty	1-2 years	No	No
Customers and dealers of C&C Trucks and its controlling subsidiaries	28 March 2017	1,600,000	1 January 2017	314,477	Warranty	1-2 years	No	No
Purchasers of commodity houses of CIMC Skyspace Real Estate and its controlling subsidiaries	28 March 2017	740,000	1 January 2017	714,347	Warranty	1-2 years	No	No
Customers of CIMC Raffles	28 March 2017	382,000	1 January 2017	334,250	Warranty	1-2 years	No	No
Total external guarantee facilities approved during the Reporting Period (A1)		1,122,000		Total actual amount of external guarantees during the Reporting Period (A2)				1,048,597
Total external guarantee facilities approved at the end of the Reporting Period (A3)		5,372,000		Total actual balance of external guarantees at the end of the Reporting Period (A4)				2,157,702

Chapter VI Significant Events 63

The Company's guarantees for subsidiaries

Name of the guaranteed	Disclosure date of the announcement about guarantee facilities	Guarantee facilities	Actual date (date of the agreement)	Actual amount of guarantee	Type of guarantee	Guarantee period	Fulfilled or not	Related party guaranteed or not
Subsidiaries of CIMC	28 March 2017	24,172,570	1 January 2017	5,982,920	Warrandice	1-2 years	No	No
Overseas holding subsidiaries of CIMC	28 March 2017	30,000,000	1 January 2017	14,460,910	Warrandice	1-2 years	No	No
Total guarantee facilities for subsidiaries approved during the Reporting Period (B1)			35,651,530	Total actual amount of guarantees for subsidiaries during the Reporting Period (B2)				14,623,210
Total guarantee facilities for subsidiaries approved at the end of the Reporting Period (B3)			54,172,570	Total actual balance of guarantees for subsidiaries at the end of the Reporting Period (B4)				20,443,830

Subsidiaries' guarantees for subsidiaries

Name of the guaranteed	Disclosure date of the announcement about guarantee facilities	Guarantee facilities	Actual date (date of the agreement)	Actual amount of guarantee	Type of guarantee	Guarantee period	Fulfilled or not	Related party Guaranteed or not
Guarantee of one subsidiary for another	28 March 2017	12,573,650	1 January 2017	6,254,230	Warrandice	1-2 years	No	No
Total guarantee facilities for subsidiaries approved during the Reporting Period (C1)			6,731,980	Total actual guarantee amount for subsidiaries during the Reporting Period (C2)				2,216,770
Total guarantee facilities for subsidiaries approved at the end of the Reporting Period (C3)			12,573,650	Total actual guarantee balance for subsidiaries at the end of the Reporting Period (C4)				6,254,230

Total guarantee of the Company (total of the above three items)

Total guarantee facilities approved during the Reporting Period (A1+B1+C1)			43,505,510	Total actual guarantee amount during the Reporting Period (A2+B2+C2)				17,888,577
Total guarantee facilities approved at the end of the Reporting Period (A3+B3+C3)			72,118,220	Total actual guarantee balance at the end of the Reporting Period (A4+B4+C4)				28,855,762
% of total actual guarantee amount (A4+B4+C4) in net assets of the Company								96.76%
Of which:								
Guarantee amount provided to Shareholders, the de facto controller and related parties (D)								0
Debt guarantee amount provided directly or indirectly to the guaranteed party with a gearing ratio of over 70% (E)								9,013,380
Amount of total guarantee amount in excess of 50% of net assets of the Company (F)								13,944,356
Total amount of the above three guarantees (D+E+F)								22,957,736
Explanations on liabilities for guarantees incurred during the Reporting Period or possibly assuming joint settlement liabilities by the Company in respect of undue guarantees (if any)								0
Explanations on external guarantees provided in violation of prescribed requirements (if any)								0

Specific explanation of compound guarantees: non-existent

Applicable Not Applicable

XVI.SOCIAL RESPONSIBILITY**1. Performance of Precise Poverty-alleviation Social Responsibility**

Applicable Not Applicable

During the Reporting period, the Company did not engage in any precise poverty-alleviation activity and had no follow-up plan for precise poverty alleviation.

2. Performance of Other Social Responsibilities

The Company published the 2016 Social Responsibility Report and the 2016 Environmental, Social and Governance Report in Cninfo website (www.cninfo.com.cn), the Company's website (www.cimc.com) and the Hong Kong Stock Exchange website (www.hkexnews.hk) on 28 March 2017 and 30 June 2017 respectively.

3. Material Environmental Protection Events

Whether the listed company and its subsidiaries are on the list of critical pollutant dischargers published by the environmental protection authorities

Yes No Not Applicable

Chapter VI Significant Events 65

The subsidiaries of the Group which were listed as key pollutant-discharging units by the environmental protection departments in China are as follows:

Name of subsidiary	Name of major and specific pollutants	Emission method	Number of		Emission concentration	Pollutant emission standards in effect	Total emission	Approved	
			emission outlets	Distribution of emission outlets				total emission	Excessive emission
Southern CIMC Logistics Equipment Manufacturing Co., Ltd.	Sum of benzene, methylbenzene and xylene and sum of VOCs	Concentrated high-altitude emissions comply with standard	19	Distribute in phase II, phase III and pre-treatment lines	Emissions comply with standard	Period I Standard of Emission Standard of Volatile Organic Compounds for Container Manufacturing of Guangdong Province	Comply with standard	-	Nil
Nantong CIMC Shunda Containers Co., Ltd. and Nantong CIMC Special Transportation Equipment Manufacture Co., Ltd.	Particulate matter, methylbenzene (exhaust gas), xylene (exhaust gas), COD, SS and ammonia nitrogen	Intermittent and continuous emissions	14	Distribute in sanding, paint spraying and domestic sewage	Emissions comply with standard	Integrated Emission Standard of Air Pollutants (GB16297-1996), Integrated Wastewater Discharge Standard (GB8978-1996) and Wastewater Quality Standards for Discharge to Municipal Sewers (CJ343-2010)	Comply with standard	-	Nil
Shanghai CIMC Baowell Industries Co. Ltd.	Non-methane hydrocarbon	Organised (chimney) emissions after exhaust gas treatment	4	Distribute in zinc-rich paint exhaust outlet (1#), exterior paint exhaust outlet (2#), intermediary and interior paint exhaust outlet (3#) and pre-treatment exhaust outlet (4#)	Emissions comply with standard	DB31/933-2015 Integrated Emission Standard of Air Pollutants	Comply with standard	-	Nil
Shanghai CIMC Yangshan Logistics Equipments Co., Ltd.	Ammonia nitrogen, PH value, BOD, COD, SS and non-methane hydrocarbon	Incorporated into the sewage collection network	6	-	Emissions comply with standard	-	Comply with standard	-	Nil
Shenzhen CIMC Special Vehicle Co., Ltd.	Particulate matter, benzene, methylbenzene, xylene and hazardous waste	High-altitude emissions	10	Centralised or dispersed distribution	Emissions comply with standard	DB44/27-2001 Period II Grade II Standard	Comply with standard	-	Nil
Nantong CIMC Tank Equipment Co., Ltd.	Chemical oxygen demand, ammonia nitrogen, particulate matter, methylbenzene, xylene and non-methane hydrocarbon	Intermittent emissions	6	General outlet	Emissions comply with standard	Type III Standard	Comply with standard	-	Nil

66 Chapter VI Significant Events

Construction and operation of pollution prevention and control facilities:

Name of subsidiary	Construction and operation of pollution prevention and control facilities
Southern CIMC Logistics Equipment Manufacturing Co., Ltd.	<p>I. Exhaust gas pollution control facilities: The company has 5 sets of exhaust gas treatment facilities in phase II and 6 sets of exhaust gas treatment facilities and 3 sets of exhaust gas treatment facilities for pre-treatment in phase III.</p> <p>II. The company has 1 industrial wastewater treatment station with a treatment capacity of 450m³/d. All of the industrial wastewater is reused in the workshops with zero emission.</p> <p>III. Domestic sewage is discharged into the municipal sewage network after treatment in septic tanks and finally reaches Shangyang Sewage Treatment Plant for treatment.</p>
Nantong CIMC Shunda Containers Co., Ltd. and Nantong CIMC Special Transportation Equipment Manufacture Co., Ltd.	<p>I. Exhaust gas pollution control facilities: The production workshops of the two companies have to conduct sandblasting. The sandblasting rooms have suction inlets connecting to the dedusting system to process and emit the dust produced during the operation. Paint spraying is conducted in specialised paint spraying rooms which are airtight in slightly negative pressure. The paint mist and organic exhaust produced by the coating first-line of Special Transportation Equipment company and Shunda company during the coating process are purified and treated by the "water curtain spray + paint mist filter + multi-stage activated carbon adsorption + solvent recovery" devices. The coating second-line of Special Transportation Equipment company uses "water curtain spray + paint mist filter + activated carbon adsorption and desorption with catalytic combustion" devices for exhaust treatment.</p> <p>II. After second phase of renovation, the sewage treatment facilities of the two companies reaches 600m³/d at present. The actual treatment volume is approximately 300m³/d. The sewage treatment uses the technique of biochemical + physicochemical treatment. The quality of treated wastewater complies with the Grade III emission standard.</p>
Shanghai CIMC Baowell Industries Co. Ltd.	<p>I. The company has 4 sets of exhaust gas treatment facilities with an aggregate treatment capacity of 308,000m³/h of wind. The organic exhaust treatment uses the technique of "activated carbon adsorption + steam desorption + condensation recovery".</p> <p>II. The company has 1 industrial wastewater treatment station with treatment capacity of 6t/d and 140t/d for desorption wastewater and paint spraying recycling water respectively. The industrial wastewater is treated by using the "coagulating air floatation + catalytic oxidation + UASB + MBR" technique. All of the industrial wastewater is reused in the workshops with zero emission.</p> <p>III. The company has 1 set of domestic sewage treatment facilities with a treatment capacity of 280t/d. The domestic sewage is treated by using the "biochemical treatment + physicochemical treatment" technique and is discharged into the municipal sewage network after treatment and finally reaches the sewage treatment plant for treatment.</p>

Chapter VI Significant Events 67

Name of subsidiary	Construction and operation of pollution prevention and control facilities
Shanghai CIMC Yangshan Logistics Equipments Co., Ltd.	<p>I. Exhaust gas pollution control facilities comprise 4 sets of exhaust gas treatment facilities.</p> <p>II. The company has 1 industrial wastewater treatment station with a treatment capacity of 100m³/d. The industrial wastewater is treated by using the “coagulating air floatation + frame filter press for separation of water and residue + anaerobic biochemical reaction + aerobic biochemical reaction + MBR” technique. All of the industrial wastewater is reused in the workshops with zero emission.</p> <p>III. Domestic sewage is discharged into the municipal sewage network after treatment in septic tanks and finally reaches the sewage treatment plant for treatment.</p>
Shenzhen CIMC Special Vehicle Co., Ltd.	<p>I. The company has 5 sets of exhaust gas treatment facilities which use the treatment techniques of rotary water filter + activated carbon adsorption and high-altitude emissions.</p> <p>II. The company has 1 set of production wastewater treatment facilities which use the treatment techniques of chemical precipitation for recycling with no external emission. Domestic sewage is discharged into the municipal sewage network after biochemical treatment.</p> <p>III. The company has 2 sets of dust treatment facilities which use the treatment techniques of high-altitude emissions after using pulse filter.</p> <p>IV. The company has 2 warehouses for hazardous waste which mainly store paint residues and paint buckets. Staff is designated for the pollution control facilities of the company. The equipment team is responsible for maintenance and repairs. The shift chiefs of the coating line are responsible for facilities operation. The licensed sewage operators are responsible for the operation of the production wastewater treatment facilities. The facilities are under sound operation and pollutant emissions comply with the standards.</p>
Nantong CIMC Tank Equipment Co., Ltd.	<p>I. The spraying exhaust of the company is emitted according to the standards after being treated by the “water curtain absorption + paint must filter + multi-stage activated carbon adsorption + catalytic combustion” techniques. The soldering dust is emitted after being treated by the dust treatment device. The sanding exhaust is emitted according to the standards after being treated by high-efficient filter elements.</p> <p>II. The company invested a total of approximately RMB6 million in the construction of a sewage treatment station, ensuring that the wastewater of the company is treated by the “physicochemical reaction + biochemical reaction” techniques according to the emission standards and reaches the Donggang Sewage Treatment Plant for further treatment via the municipal sewage network.</p> <p>III. The company has 2 warehouses for hazardous waste with an area of 300m² which have anti-seep measures.</p>

XVII. EXPLANATION ON OTHER MATERIAL EVENTS

1. On 17 January 2017, as certain matters still need to be resolved, the Company submitted an application to the CSRC for the suspension of inspection of the documents of the Non-public Offering of A Shares. On 9 June 2017, in order to ensure the implementation of the relevant work, upon consideration and approval at the annual general meeting of 2016, the first 2017 class meeting of A Shares and the first 2017 class meeting of H Shares, the Company revised its issuance proposal for the Non-public Offering of A Shares and extended the validity period of the resolution by the shareholders' general meeting as well as the validity period of the mandate for the Board. For relevant information, please refer to the relevant announcements dated 17 January, 21 April and 9 June 2017 disclosed in China Securities Journal, Shanghai Securities News, Securities Times, Cninfo website (www.cninfo.com.cn), the Company's website (www.cimc.com) (Notice No.: [CIMC]2017-002, [CIMC]2017-024 and [CIMC]2017-033) and the website of the Hong Kong Stock Exchange (www.hkexnews.hk). As at the end of the Reporting Period, the Non-public Offering of A Shares is still suspended.
2. On 7 April 2017, China Merchants Port Holdings Company Limited, the former shareholder of the Company, transferred all shares of its wholly-owned subsidiary Soares Limited (indirectly holding shares of the Company through the wholly-owned subsidiary China Merchants (CIMC) Investment Limited) to China Merchants Industry Holdings Co., Ltd. by agreement. Upon the completion of transaction on 9 June 2017, China Merchants Industry Holdings Co., Ltd. has become the controlling shareholder wholly-owned Soares Limited and also the largest shareholder of the Company indirectly by indirectly holding 730,557,217 H Shares of the Company (accounting for 24.51% of the total issued shares of the Company) through Soares Limited and China Merchants (CIMC) Investment Limited. As the number and percentage of shares of the Company held by China Merchants Group remained unchanged before and after the transfer of shares of Soares Limited, China Merchants Group continued to be the largest shareholder of the Company indirectly. For relevant information, please refer to the relevant announcements dated 8 April and 9 June 2017 disclosed in China Securities Journal, Shanghai Securities News, Securities Times, Cninfo website (www.cninfo.com.cn), the Company's website (www.cimc.com) (Notice No.: [CIMC]2017-020 and [CIMC]2017-032) and the website of the Hong Kong Stock Exchange (www.hkexnews.hk).
3. As considered and approved by the 11th meeting of the eighth session of the Board of Directors of the Company for 2017 and the 6th meeting of the eighth session of the Supervisory Committee for 2017, the Company revised the accounting policies of the Company pursuant to the requirements under "Notice on Issuance of Revised Accounting Standards for Business Enterprises No. 16 – Government Subsidy" (Cai Kuai [2017] No. 15) issued by MOF and "Notice on the Issuance of the Accounting Standards for Business Enterprises No. 42 – Non-current Assets Held for Sale, Disposal Group and Termination of Operation" (Cai Kuai [2017] No. 13) issued by MOF and has implemented such revised accounting policies since 12 June 2017 and 28 May 2017 according to the relevant requirements respectively. For relevant information, please refer to the relevant announcements dated 28 August 2017 disclosed in China Securities Journal, Shanghai Securities News, Securities Times, Cninfo website (www.cninfo.com.cn), the Company's website (www.cimc.com) (Notice No.: [CIMC]2017-058) and the website of the Hong Kong Stock Exchange (www.hkexnews.hk).

XVIII. MATERIAL EVENTS OF SUBSIDIARIES

Applicable Not Applicable

XIX. SIGNIFICANT SUBSEQUENT EVENTS

1. On 5 July 2017, EIHL (Shenzhen) entered into the relevant agreement with SOE and SOE Bankruptcy and Liquidation Team (南通太平洋破產清算組) to propose to purchase the major assets of SOE through acquiring the entire equity interests in SOE. On 4 August 2017, the SOE Restructuring Plan was approved at the creditors' meeting of SOE and approved by the court. On 16 August 2017, SOE has become an indirect wholly-owned subsidiary of CIMC Enric and an indirect non-wholly-owned subsidiary of the Group. SOE has renamed as “南通中集太平洋海洋工程有限公司” (Nantong CIMC SinoPacific Offshore & Engineering Co., Ltd.). For relevant information, please refer to the announcements dated 6 July, 4 August and 16 August 2017 disclosed in China Securities Journal, Shanghai Securities News, Securities Times, Cninfo website (www.cninfo.com.cn), the Company's website (www.cimc.com) (Notice No.: [CIMC]2017-036, [CIMC]2017-047 and [CIMC]2017-054) and the website of the Hong Kong Stock Exchange (www.hkexnews.hk).
2. On 17 July 2017, CIMC Skyspace Real Estate and CGRE entered into a capital increase agreement, pursuant to which CGRE injected an amount of RMB926,322,300 into the capital of CIMC Skyspace Real Estate and held as to 25% of its equity after the completion while the Company held 61.5% equity interest in CIMC Skyspace Real Estate through CIMC Shenfa. For relevant information, please refer to the announcements dated 17 July 2017 disclosed in China Securities Journal, Shanghai Securities News, Securities Times, Cninfo website (www.cninfo.com.cn), the Company's website (www.cimc.com) (Notice No.: [CIMC] 2017-040) and the website of the Hong Kong Stock Exchange (www.hkexnews.hk).
3. On 3 August 2017, Shenzhen Southern CIMC Containers Manufacture Co., Ltd. (深圳南方中集集裝箱製造有限公司) (“Southern CIMC”), a wholly-owned subsidiary of the Company, and China Merchants Shekou Industrial Zone Holdings Co., Ltd. (招商局蛇口工業區控股股份有限公司) (“China Merchants Shekou”) entered into a relocation compensation agreement for the land in Prince Bay, Shekou, pursuant to which Southern CIMC agreed to relocate and return the leasehold land in Prince Bay, Shekou to China Merchants Shekou and China Merchants Shekou agreed to pay compensation based on the appraised value of RMB494,894,588. Such matter has been submitted to the first extraordinary general meeting in 2017 of the Company to be convened on 26 September 2017 for consideration and approval. For relevant information, please refer to the announcements dated 3 August and 11 August 2017 and the notice of general meeting disclosed in China Securities Journal, Shanghai Securities News, Securities Times, Cninfo website (www.cninfo.com.cn), the Company's website (www.cimc.com) (Notice No.: [CIMC] 2017-045 and [CIMC] 2017-052) and the website of the Hong Kong Stock Exchange (www.hkexnews.hk).

XX. CORPORATE BONDS

The Company has no publicly issued corporate bonds that are listed on stock exchanges, undue as at the date approving the issue of the 2017 interim report or falling due but not fully repaid.

70 Chapter VII Changes in Share Capital and Information on Substantial Shareholders

I. CHANGES IN SHAREHOLDINGS IN THE REPORTING PERIOD

1. Change in Share Capital

Unit: Shares

	Pre-movement (As at 31 December 2016)		New issue	Increase/decrease (+/-) Conversion				Sub-total	Post-movement (As at 30 June 2017)

76 Chapter VII Changes in Share Capital and Information on Substantial Shareholders

Note 1: 730,557,217 H shares were held by China Merchants (CIMC) Investment Limited in the capacity of beneficial owner. China Merchants (CIMC) Investment Limited was wholly-owned by Soares Limited, which was in turn wholly-owned by China Merchants Industry Holdings Co., Ltd., which was wholly-owned by China Merchants Holdings (Hong Kong) Company Limited, which was wholly-owned by China Merchants Steam Navigation Company Limited, which was wholly-owned by China Merchants Group. Accordingly, pursuant to Part XV of the SFO, China Merchants Group was deemed to have interests in the 730,557,217 H shares of the Company.

Note 2: Among which, 220,520,075 H shares were held by COSCO Container Industries Limited in the capacity of beneficial owner. 25,322,106 H shares were held by Long Honour Investments Limited in the capacity of beneficial owner. COSCO Container Industries Limited was wholly-owned by Long Honour Investments Limited, which was in turn wholly-owned by COSCO Shipping Development (Hong Kong) Co., Limited, which was wholly-owned by COSCO Shipping Development Co., Ltd., which was owned by China Shipping (Group) Company as to 39.02%, which was wholly-owned by China COSCO Shipping. Accordingly, pursuant to Part XV of the SFO, China COSCO Shipping was deemed to have interests in the 245,842,181 H shares of the Company. In addition, China COSCO Shipping also held 432,171,843 A shares of the Company through the aforementioned subsidiaries.

Note 3: 215,203,846 H shares were held by Broad Ride Limited in the capacity of beneficial owner while the other 143,048,050 H shares were held by Broad Ride Limited in the capacity of person having security interest in shares. Broad Ride Limited was wholly-owned by Hony Capital Fund V, L.P., which was in turn wholly-owned by Hony Capital Fund V GP, L.P., which was wholly-owned by Hony Capital Fund V GP Limited, which was wholly-owned by Hony Group Management Limited, which was wholly-owned by Hony Managing Partners Limited as to 80%, which was wholly-owned by Exponential Fortune Group Limited, which was wholly-owned by John Huan Zhao as to 49%. Accordingly, pursuant to Part XV of the SFO, John Huan Zhao was deemed to have interests in the 358,251,896 H shares of the Company.

Save as disclosed above and as far as the Directors are aware, as at 30 June 2017, no other person (other than a Director, Supervisor or senior management of the Company) had any interests recorded in the register of interests in shares and short positions required to be kept by the Company pursuant to Section 336 of the SFO of Hong Kong.

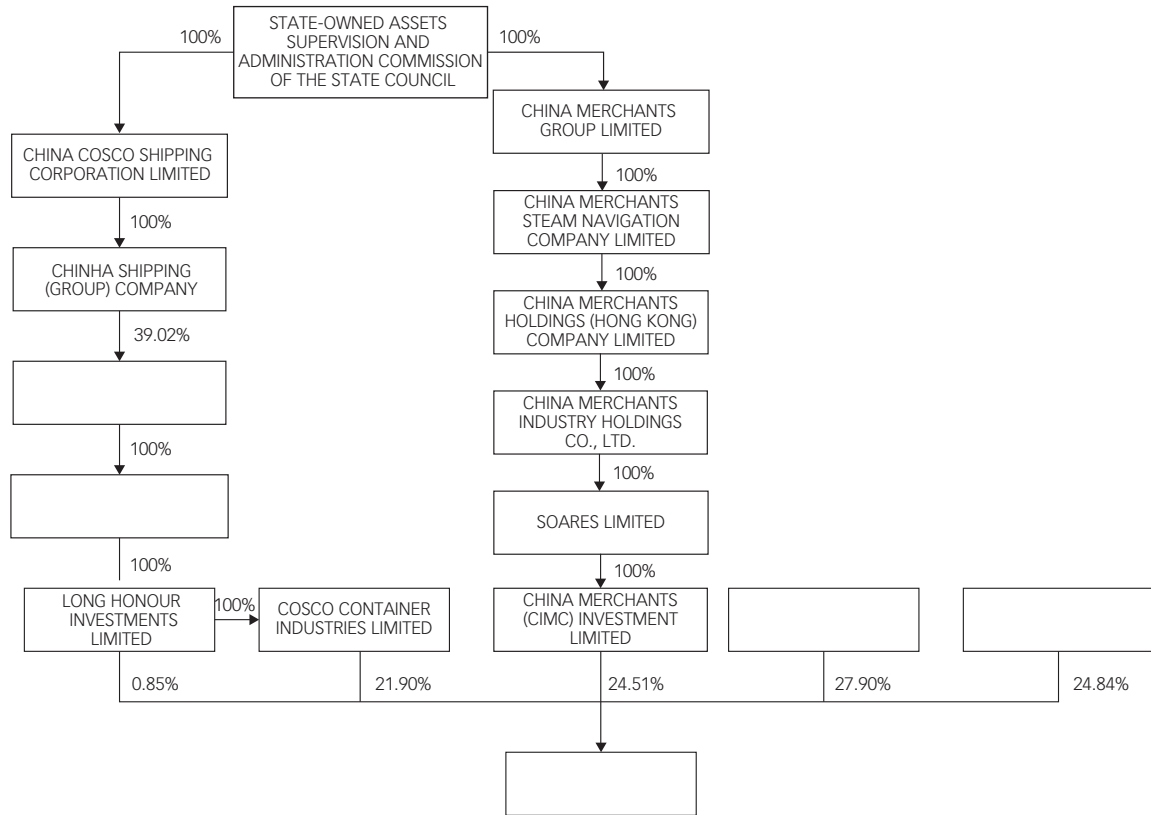

Substantial Shareholders of the Company

As at the end of the Reporting Period, the substantial Shareholders of the Company are China Merchants Group and China COSCO Shipping.

China Merchants Group was incorporated on 14 October 1986 in the PRC. Its registered capital is RMB10,050 million and its chairman of the board of directors is Li Jianhong. China Merchants Group's business focuses on three core industries, namely traffic (harbour, highway, shipping and transportation, logistics, ocean engineering and trade), finance (bank, securities, funds and insurance) and real estates (industrial zone development and real estate development). On 9 June 2017, China Merchants Port Holdings Company Limited, a subsidiary of China Merchants Group, completed the transaction of transferring all shares of Soares Limited to China Merchants Industry Holdings Co., Ltd. (subsidiary of China Merchants Group) as of the end of the Reporting Period. China Merchants Group through its subsidiaries (including China Merchants Steam Navigation Company Limited, China Merchants Holdings (Hong Kong) Company Limited, China Merchants Industry Holdings Co., Ltd., Soares Limited and China Merchants (MUSTO) Limited and C 7 (Inv)37ch was wholl(ad)024.51%iod,)37(issuedmpny)110.9(,)JTJ0.089

1. During the Reporting Period, changes of Directors, Supervisors and senior management of the Company are set out below:

Name	Position	Type	Date	Reasons
Jin Jianlong	General Manager of Financial Department	Retirement upon expiry of the term	27 March 2017	Retirement upon expiry of the term
Zeng Han	General Manager of Financial Department	Appointment	27 March 2017	Appointment

Chapter VIII Information on Directors, Supervisors and Senior Management

2. The changes of Directors and Supervisors of the Company after the Reporting Period are set out below:

On 7 August 2017, Mr. Wang Zhixian resigned from the position of non-executive Director of the Company and all the positions in the Risk Management Committee and the Remuneration and Appraisal Committee of the Board due to the change in job assignments. The resignation of Mr. Wang Zhixian has taken effect from the date of the Board's receipt of his written resignation. On 11 August 2017, the Board proposed to nominate Mr. Hu Xianfu as a non-executive Director of the eighth session of the Board. According to the Articles of Association, the proposed appointment has been submitted to the first extraordinary general meeting in 2017 of the Company to be convened on 26 September 2017 for consideration and approval.

On 7 August 2017, Mr. Lv Shengzhou proposed to resign from the position of the Supervisor representing shareholder of the Company due to the change in work arrangement. Mr. Lv Shengzhou's resignation will result in the total number of supervisors of the Company falling below the minimum quorum; therefore, according to the Articles of Association, Mr. Lv Shengzhou's resignation will not come into effect until a new supervisor is elected at the Company's general meeting to fill the vacancy. Mr. Lv Shengzhou shall continue to fulfill the duties of supervisor before his resignation takes effect. On 11 August 2017, the Supervisory Committee proposed to nominate Mr. Wang Hongyuan as a Supervisor representing shareholder of the eighth session of the Supervisory Committee. According to the Articles of Association, the proposed appointment has been submitted to the first extraordinary general meeting in 2017 of the Company to be convened on 26 September 2017 for consideration and approval.

For relevant information, please refer to the announcements dated 7 August and 11 August 2017 disclosed in China Securities Journal, Shanghai Securities News, Securities Times, Cninfo website (www.cninfo.com.cn), the Company's website (www.cimc.com) (Notice No.: [CIMC] 2017-048 and [CIMC] 2017-051) and the website of the Hong Kong Stock Exchange (www.hkexnews.hk).

I. GENERAL INFORMATION

China International Marine Containers (Group) Co., Ltd. (the "Company"), formerly "China International Marine Containers Co., Ltd.", was a Sino-foreign joint venture set up by China Merchants Group, the East Asiatic Company (Denmark) and Ocean Containers Inc.(USA). In December 1992, as approved by "Shen Fu Ban Fu [1992] 1736" issued by the General Office of the People's Government of Shenzhen and "Shen Ren Yin Fu Zi (1992) 261" issued by Shenzhen Special Economic Zone Branch of People's Bank of China, the Company was restructured as an incorporated company set up by directional subscription and was renamed as "China International Marine Containers Co., Ltd." by the original corporate shareholders of the Company. On 31 December 1993 and 17 January 1994 respectively, the Company issued ordinary shares denominated in Renminbi for domestic investors (A Shares) and for foreign shares issued domestically (B Shares), and commenced trading on Shenzhen Stock Exchange. Pursuant to "Shen Fu Ban Fu [1993] 925" issued by the General Office of the People's Government of Shenzhen and "Shen Zheng Ban Fu [1994] 22" issued by Shenzhen Securities Administration Office On 1 December 1995, as approved by the State Administration of Industry and Commerce, the Company changed its name to "China International Marine Containers (Group) Co., Ltd". The Registered Address and Address of Head Office of the company is 8th Floor, CIMC R&D Centre, 2 Gangwan Avenue, Shekou, Nanshan District, Shenzhen, Guangdong, PRC.

On 19 December 2012, the Company's domestically listed foreign shares (B shares) changed listing location and went publication on the main market of the Stock Exchange of Hong Kong through the way of introduction. Henceforth, all the company's B shares converted to overseas listed foreign shares (H shares).

The principal activities of the Company and its subsidiaries (together referred to as the "Group") are the manufacturing of modern transportation facilities, facilities for energy, food, chemistry and rendering of relative services. Detailed activities are the manufacturing and repairing of containers and other relevant business; utilizing the Group's equipment to process and manufacture various parts, structure components and relevant machines; providing cutting, punching, moulding, riveting surface treatment (including sand/paint spraying, welding and assembly) and other processing services; developing, manufacturing and selling of various high-tech and high performance special vehicles, heavy truck, airport equipment, fire-engine and semi-trailers; leasing of containers; developing, production and sales of high-end fuel gas equipments such as pressure container and compressor; providing integrated services for natural gas distribution; production of static container and pot-type wharf equipments and providing EP+CS (engineering procurement and construction supervision) technical service for the storage and processing of LNG, LPG and other petrochemical gases. Apart from the above, the Group is also engaged in financial equity investment, manufacturing of logistic equipment and related services, marine projects, railway trucks production and property development, etc.

CIMC Enric Holdings Limited ("CIMC Enric"), the subsidiary of the Group, is listed in the Main Board of the Stock Exchange of Hong Kong Limited. The principal activities of Enric are the design, development, manufacturing, engineering and sales of, and the provision of technical maintenance service for, a wide spectrum of transportation, storage and processing equipment that is widely used in energy, chemical and liquid food industries.

Pteris Global Limited ("Pteris"), the subsidiary of the Group, is listed on the mainboard of the Catalist of Singapore Exchange Ltd. The principal activities of the Pteris Global Ltd are electrical products used in airports and ports, automatic parking system and equipment, automation logistics warehousing system and equipment, airport equipment(aviation food vehicles, self-propelled aircraft deicing vehicle, anti ice, container, pallet loaders, spreading vehicle, snowplows, friction coefficient test vehicle), installation and after sale service of self-produced products and agents product and provide parking management services. Pteris delisted from the Singapore Exchange Ltd. since 7 September 2016.

Notes to the Financial Statements

For the period started from 1 January and ended 30 June 2017
(All amounts in RMB'000 unless otherwise stated)
(English Translation for Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

4. Recording currency

Functional currency is determined by the Company and its subsidiaries on the basis of the currency in which major income and costs are denominated and settled.

The functional currency of the Company and its subsidiaries domiciled in PRC are Renminbi. Hong Kong and the overseas subsidiaries use local currencies as their functional currencies. Foreign currencies are defined as currency other than functional currency.

Financial statements of the Company are presented in Renminbi. For subsidiaries using currencies other than Renminbi as their functional currencies, the Company translates the financial statements of these subsidiaries into Renminbi (see Note II.8).

5. Business combinations

(1) Business combinations involving enterprises under common control

A business combination involving enterprises under common control is a business combination in which all of the combining enterprises are ultimately controlled by the same party or parties both before and after the business combination, and that control is not transitory. The assets and liabilities obtained are measured at the carrying amounts as recorded by the enterprise being combined at the combination date. The difference between the carrying amount of the net assets obtained and the carrying amount of consideration paid for the combination (or the total face value of shares issued) is adjusted to capital premium in the capital reserve. If the balance of the capital premium is insufficient, any excess is adjusted to retained earnings. Any costs directly attributable to the combination shall be recognised in profit or loss for the current period when occurred. The combination date is the date on which one combining enterprise effectively obtains control of the other combining enterprises.

(2) Business combinations involving enterprises not under common control

A business combination involving enterprises not under common control is a business combination in which all of the combining enterprises are not ultimately controlled by the same party or parties both before and after the business combination. Where 1) the aggregate of the fair value at the acquisition date of assets transferred (including the acquirer's previously held equity interest in the acquiree), liabilities incurred or assumed, and equity securities issued by the acquirer, in exchange for control of the acquiree, exceeds 2) the acquirer's interest in the fair value at the acquisition date of the acquiree's identifiable net assets, the difference is recognised as goodwill (see Note II.18). When 1) is less than 2), the difference is recognised in profit or loss for the current period. The costs of the issuance of equity or debt securities as a part of the consideration paid for the acquisition are included as a part of initial recognition amount of the equity or debt securities. Other direct acquisition-related costs arising from the business combination are recognised as expenses in the periods in which the costs are incurred. The difference between the fair value and the carrying amount of the assets transferred is recognised in profit or loss. The acquiree's identifiable asset, liabilities and contingent liabilities, if satisfying the recognition criteria, are recognised by the Group at their fair value at the acquisition date. The acquisition date is the date on which the acquirer effectively obtains control of the acquiree.

Notes to the Financial Statements

For the period started from 1 January and ended 30 June 2017

(All amounts in RMB'000 unless otherwise stated)

(English Translation for Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

6. Preparation of consolidated financial statements

The scope of consolidated financial statements is based on control and the consolidated financial statements comprise the Company and its subsidiaries. Control means the group has rights in the invested entity, and could gain returns through its involvement with the entity as well as has the ability to affect those returns through its power over the entity. The financial position, financial performance and cash flows of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

Where a subsidiary was acquired during the reporting period, through a business combination involving enterprises under common control, the financial statements of the subsidiary are included in the consolidated financial statements as if the combination had occurred at the date that the ultimate controlling party first obtained control. The opening balances and the comparative figures of the consolidated financial statements are also restated. In the preparation of the consolidated financial statements, the subsidiary's assets and liabilities based on their carrying amounts are included in the consolidated balance sheet, and financial performance is included in the consolidated income statement, respectively, from the date that the ultimate parent company of the Company obtains the control of the subsidiary to be consolidated.

Where a subsidiary was acquired during the reporting period, through a business combination involving enterprises not under common control, the identifiable assets and liabilities of the acquired subsidiaries are included in the scope of consolidation from the date that control commences, base on the fair value of those identifiable assets and liabilities at the acquisition date.

For a business combination not involving enterprises under common control and achieved in stages, the Group remeasures its previously-held equity interest in the acquiree to its fair value at the acquisition date. The difference between the fair value and the carrying amount is recognised as investment income for the current period; the amount recognised in other comprehensive income relating to the previously-held equity interest in the acquiree is reclassified as investment income for the current period.

Where the Company acquires a minority interest from a subsidiary's minority shareholders or disposes of a portion of an interest in a subsidiary without a change in control, the difference between the amount by which the minority interests are adjusted and the amount of the consideration paid or received is adjusted to the capital reserve (capital surplus) in the consolidated balance sheet. If the credit balance of capital reserve (capital surplus) is insufficient, any excess is adjusted to retained earnings.

When the Group loses control of a subsidiary due to the disposal of a portion of an equity investment, the Group derecognises assets, liabilities, minority interests and other related items in owners' equity in relation to that subsidiary. The remaining equity investment is remeasured at its fair value at the date when control is lost. Any gains or losses therefore incurred are recognised as investment income for the current period when control is lost.

Notes to the Financial Statements

For the period started from 1 January and ended 30 June 2017
(All amounts in RMB'000 unless otherwise stated)
(English Translation for Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

6. Preparation of consolidated financial statements (Continued)

When the amount of loss for the current period attributable to the minority shareholders of a subsidiary exceeds the minority shareholders' portion of the opening balance of shareholders' equity of the subsidiary, the excess is allocated against the minority interests.

When the accounting period or accounting policies of a subsidiary are different from those of the Company, the Company makes necessary adjustments to the financial statements of the subsidiary based on the Company's own accounting period or accounting policies.

All significant inter-group balances, transactions and unrealised profits are eliminated in the consolidated financial statements. The portion of a subsidiary's equity and the portion of a subsidiary's net profit and loss for the period as well as comprehensive income not attributable to Company are recognised as minority interests, net profit and loss attributable to minority interests as well as and comprehensive income attributable to minority interests presented separately in the consolidated financial statements within equity and net profit as well as total comprehensive income respectively. The unrealised profit and loss arising from sales of assets to subsidiaries by the Company are fully eliminated against net profit attributable to owners of the Company. The unrealised profit and loss arising from sales of assets to the Company by subsidiaries are eliminated against net profit attributable to owners of the Company as well as net profit attributable to minority interests respectively according to the Company and minority interests' shareholding on the subsidiaries. The unrealised profit and loss arising from sales of between subsidiaries are eliminated against net profit attributable to owners of the Company as well as net profit attributable to minority interests respectively according to the Company and minority interests' share holdings on the subsidiary who sold.

The difference on recognising a same transaction between on the accounting subjects of the Group and of the Company or its subsidiaries would be adjusted on the accounting subject of the Group.

7. Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, deposits that can be readily drawn on demand, and short-term and highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Notes to the Financial Statements

For the period started from 1 January and ended 30 June 2017

(All amounts in RMB'000 unless otherwise stated)

(English Translation for Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

8. Foreign currency transactions and translation of financial statements denominated in foreign currency

When the Group receives capital in foreign currencies from investors, the capital is translated to functional currency at the spot exchange rate at the date of the receipt. Other foreign currency transactions are, on initial recognition, translated to functional currency at the rates that approximate the spot exchange rates at the dates of the transactions.

A spot exchange rate is an exchange rate quoted by the People's Bank of China. A rate that approximates the spot exchange rate is a rate determined under a systematic and rational method, normally the average exchange rate of the current period or the weighted average exchange rate.

Monetary items denominated in foreign currencies are translated to functional currency at the spot exchange rate at the balance sheet date. The resulting exchange differences, except for those arising from the principal and interest of specific foreign currency borrowings for the purpose of acquisition, construction or production of qualifying assets (see Note II.16), are recognised in profit or loss. Non-monetary items denominated in foreign currencies that are measured at historical cost are translated to functional currency using the foreign exchange rate at the transaction date. Non-monetary items denominated in foreign currencies that are measured at fair value are translated using the foreign exchange rate at the date the fair value is determined; the resulting exchange differences are recognised in profit or loss, except for the differences arising from the translation of available-for-sale financial assets, which are recognised as other comprehensive income. The effect of exchange rate changes on cash presented separately in the cash flow statement.

The assets and liabilities of foreign operation are translated to functional currency at the spot exchange rates at the balance sheet date. The equity items, excluding "Retained earnings", are translated to functional currency at the spot exchange rates at the transaction dates. The income and expenses of foreign operation are translated to functional currency at the rates that approximate the spot exchange rates at the transaction dates. The resulting translation differences are recognised in a separate component of equity. Upon disposal of a foreign operation, the cumulative amount of the translation differences recognised in equity which relates to that foreign operation is transferred to profit or loss in the period in which the disposal occurs. The cash flows of overseas operations are translated at the spot exchange rates on the dates of the cash flows. The effect of exchange rate changes on cash presented separately in the cash flow statement.

Notes to the Financial Statements

For the period started from 1 January and ended 30 June 2017
(All amounts in RMB'000 unless otherwise stated)
(English Translation for Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

9. Financial instruments

Financial instruments include cash at bank and on hand, financial assets at fair value through profit or loss, receivables, available-for-sale financial assets, investments in equity securities other than long-term equity investments, payables, loans, borrowings and debentures payables.

(1) Financial Assets

()

Financial assets are classified into the following categories at initial recognition: financial assets at fair value through profit or loss, receivables, available-for-sale financial assets and held-to-maturity investments. The classification of financial assets depends on the Group's intention and ability to hold the financial assets.

a. Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss include financial assets held for the purpose of selling in short term.

b. Receivables

Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market.

c. Available-for-sale financial assets

Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless the investment matures or management intends to dispose of it within 12 months of the end of the reporting period.

()

Financial assets are recognised at fair value on the balance sheet when the Group becomes a party to the contractual provisions of the financial instrument. In the case of financial assets at fair value through profit or loss, the related transaction costs incurred at the time of acquisition are recognised in profit or loss for the current period. For other financial assets, transaction costs that are attributable to the acquisition of the financial assets are included in their initial recognition amounts.

Financial assets at fair value through profit or loss are subsequently measured at fair value. Investments in equity instruments are measured at cost when they do not have a quoted market price in an active market and whose fair value cannot be reliably measured. Receivables are measured at amortised cost using the effective interest method.

Notes to the Financial Statements

For the period started from 1 January and ended 30 June 2017

(All amounts in RMB'000 unless otherwise stated)

(English Translation for Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

9. Financial instruments (Continued)

(1) Financial Assets (Continued)

() Available-for-sale financial assets (Continued)

Gain or loss arising from change in the fair value of financial assets at fair value through profit or loss is recognised in profit or loss. Interests and cash dividends received during the period in which such financial assets are held, as well as the gains or losses arising from disposal of these assets are recognised in profit or loss for the current period.

Accumulated fair value adjustments of available-for-sale financial assets are recognised in equity except impairment and exchange gains and losses of foreign currency financial assets. When available-for-sale financial assets are disrecognised, the accumulated fair value adjustments recognised in equity are included in the income statement. Interest on available-for-sale securities calculated using the effective interest method and cash dividends on available-for-sale equity instruments when the group's right to receive payments is established are recognised in the income statement as part of other income.

() Held-to-maturity financial assets

The Group assesses the carrying amounts of financial assets other than those at fair value through profit or loss at each balance sheet date. If there is objective evidence that a financial asset is impaired, the Group determines the amount of impairment loss.

Objective evidence indicating a financial asset is impaired represents matters actually happen subsequently to the initial recognition of the financial assets and exert influences the financial assets' estimated future cash flows which can be reliably measured by the Group.

Evidence of held-to-maturity equity instrument is impaired comprises a significant or prolonged decline in the fair value of an investment in an equity instrument below its cost. The Group assesses all available-for-sale financial assets on an individual basis at each balance sheet date. Impairment loss should be recognised if the fair value of an equity instrument has is than 50% (50% inclusive) of its initial investment cost or in the case that the fair value has been less than the initial investment cost for more than one year(one year inclusive). The Group will consider other relevant factors, such as the price volatility, to determine whether an impairment loss should be recognised for the equity instrument if the decline in the fair value of an equity instrument is more than 20% (20% inclusive) but less than 50% of its initial investment cost. The initial investment cost of held-to-maturity equity instrument is calculated using the weighted average method.

When an impairment loss on a financial asset carried at amortised cost has occurred, the amount of loss

Notes to the Financial Statements

101

For the period started from 1 January and ended 30 June 2017

(All amounts in RMB'000 unless otherwise stated)

(English Translation for Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

9. Financial instruments (Continued)

(1) Financial Assets (Continued)

(i) Available-for-sale financial assets (Continued)

When an available-for-sale financial asset is impaired, the cumulative loss arising from decline in fair value that has been recognised directly in equity is reclassified to profit or loss. If, after an impairment loss has been recognised on an available-for-sale debt instrument, the fair value of the debt instrument increases in

Notes to the Financial Statements

(All amounts in RMB'000 unless otherwise stated)

(English Translation for Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

9. Financial instruments (Continued)

(2) Financial liabilities

Financial liabilities are classified into the following categories at initial recognition: financial liabilities at fair value through profit or loss and other financial liabilities.

Payables, including accounts payable and other payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

Borrowings and debentures payable are recognised initially at fair value, net of transaction costs incurred and subsequently measured at amortised cost using the effective interest method.

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Subsequently, the liabilities are measured at the higher of the initial fair value less cumulative amortisation recognised in the statement of income, and the amount of provision based on the principle of contingencies (see Note II.21).

Other financial liabilities with maturities no more than one year are classified as current liabilities. Other financial liabilities with maturities over one year but are due within one year(inclusive) at the balance sheet date are classified as the current portion of non-current liabilities. Others are classified as non-current liabilities.

A financial liability is derecognised or partly derecognised when the current obligation is discharged or partly discharged. The difference between the carrying amount of the financial liability or the derecognised part of the financial liability and the consideration paid is recognised in profit or loss.

(3) Determination of fair value

The fair value of a financial instrument that is traded in an active market is determined at the quoted price in the active market. The fair value of a financial instrument that is not traded in an active market is determined by using an appropriate valuation technique that is applicable to current circumstances and supported by sufficient available data and other information. Valuation techniques mainly include market approach and income approach. When applying valuation techniques, inputs used by market participants in the transactions of the assets or liabilities with similar characteristics would be used and observable inputs would be given priority to the extent possible. Unobservable inputs would only be used when it is impossible or impracticable to obtain relevant observable inputs.

Notes to the Financial Statements

For the period started from 1 January and ended 30 June 2017
(All amounts in RMB'000 unless otherwise stated)
(English Translation for Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

9. Financial instruments (Continued)

(4) Equity instrument

An equity instrument is a contract that proves the ownership interest of the assets after deducting all liabilities in the Group.

The perpetual capital instrument is recognised as part of the equity when there is no contractual obligation to repay the principal or pay any interest or dividend.

The consideration received from the issuance of equity instruments net of transaction costs which belong to equity transactions directly is recognised in shareholders' equity. Where other equity instruments distribute dividends or interest during the period of existence are treated as profit distribution.

Consideration and transaction costs paid by the Group for repurchasing self-issued equity instruments are deducted from shareholders' equity.

10. Receivables

Receivables comprise of accounts receivable and other receivables. Accounts receivable arising from sale of goods or rendering of services are initially recognised at fair value of the contractual payments from the buyers or service recipients.

Receivables are assessed for impairment both on an individual basis and on a collective group basis.

Where impairment is assessed on an individual basis, an impairment loss in respect of a receivable is calculated as the excess of its carrying amount over the present value of the estimated future cash flows (exclusive of future credit losses that have not been incurred) discounted at the original effective interest rate. All impairment losses are recognised in profit or loss.

The assessment is made collectively where receivables share similar credit risk characteristics (including those having not been individually assessed as impaired), based on their historical loss experiences, and adjusted by the observable figures reflecting present economic conditions.

If, after an impairment loss has been recognised on receivables, there is objective evidences of a recovery in value of the financial asset which can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed through profit or loss. A reversal of an impairment loss will not result in the asset's carrying amount exceeding that which would have been determined had no impairment loss been recognised in prior years.

Notes to the Financial Statements

For the period started from 1 January and ended 30 June 2017

(All amounts in RMB'000 unless otherwise stated)

(English Translation for Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

10. Receivables (Continued)

(1) Receivables that are individually significant and impairment provided on an individual basis:

Criteria of provision for receivable that are individually significant and impairment provided on an individual basis.

Individually significant receivables are the receivables with the individual amount over RMB10 million (inclusive) or accounting to 5% or more of the total receivables.

Method of provision for receivable that are individually significant and impairment provided on an individual basis.

An impairment loss is calculated as the excess of its carrying amount over the present value of the estimated future cash flows (exclusive of future credit losses that have not been incurred) discounted at the original effective interest rate.

(2) Receivable that are individually insignificant but impairment provided on an individual basis:

Criteria of provision for receivables that are individually insignificant but impairment provided on an individual basis.

Within the receivables whose amounts are individually insignificant, impairment is assessed on an individual basis for the overdue receivables unpaid after collection efforts or with unique characteristics.

Method of provision for receivable that are individually insignificant but impairment provided on an individual basis.

An impairment loss is calculated as the excess of its carrying amount over the present value of the estimated future cash flows (exclusive of future credit losses that have not been incurred) discounted at the original effective interest rate.

Notes to the Financial Statements

For the period started from 1 January and ended 30 June 2017

(English Translation for Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

10. Receivables (Continued)

(3) Receivables that are assessed for impairment on a collective group basis:

For receivables that have not been individually assessed as impaired in (1) and (2), further assessment is made collectively on a group basis with receivables that share similar credit risk characteristics.

Determination method of the group based on credit risk characteristics

Accounts receivable are divided into seven groups of containers, vehicles, energy, chemistry and liquid food equipment, offshore engineering, airport facilities, other business and amounts due from related parties, land lease prepayments and operating deposits according to the industry and business nature of customers and the characteristics of the receivables. As for Offshore engineering groups, the relevant receivables within credit period have lower credit risk after the grouping based on credit risk characteristics according to individual credit risk assessment and historical data. As to other groups like due from related parties, land lease prepayments operating deposits, and etc, if the credit risk is assessed low after grouping based on the assessment on credit risk and their historical loss experience, no impairment loss is recognised for those groups.

Group 1	Containers
Group 2	Road transportation vehicles
Group 3	Energy, chemical and liquid food equipment
Group 4	Airport facilities
Group 5	Logistics services
Group 6	Other business
Group 7	Financial leasing

Methods of provision for receivables assessed on a collective group basis (based on an ageing analysis, a percentage of the total balance and others).

Containers	Provision is determined based on an aging analysis (Overdue aging)
Road transportation vehicles	Provision is determined based on an aging analysis (Overdue aging)
Energy, chemical and liquid food equipment	Provision is determined based on an aging analysis (Overdue aging)
Airport facilities	Provision is determined based on an aging analysis (Overdue aging)
Logistics service	Provision is determined based on an aging analysis (Overdue aging)
Other business	Provision is determined based on an aging analysis (Overdue aging)
Finance lease receivables	Provision is determined based on model analysis

Notes to the Financial Statements

For the period started from 1 January and ended 30 June 2017

(All amounts in RMB'000 unless otherwise stated)

(English Translation for Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

10. Receivables (Continued)

(3) Receivables that are assessed for impairment on a collective group basis: (Continued)

For the above groups, provision is made based on their respective ageing analysis follows:

Ageing	Percentage of total accounts receivable (%)	
	Group 1, 2, 4, 5, 6	Group 3
Within 1 year (inclusive)	5%	0%-5%
1 to 2 years (inclusive)	30%	30%
Over 2 years	100%	100%

(4) When the Group transfers the accounts receivable to the financial institutions without recourse, the difference between the proceeds received from the transaction and their carrying amounts and the related taxes is recognised in profit or loss for the current period.

11. Inventories

(1) Classification

Inventories include raw materials, work in progress, semi-finished goods, finished goods and reusable materials. Reusable materials include low-value consumables, packaging materials and other materials, which can be used repeatedly but do not meet the definition of fixed assets.

(2) Cost of inventories

Cost of inventories is calculated using the weighted average method.

Notes to the Financial Statements

For the period started from 1 January and ended 30 June 2017
(All amounts in RMB'000 unless otherwise stated)
(English Translation for Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

11. Inventories (Continued)

(3) The underlying factors in the determination of net realisable values of inventories and basis of provision for decline in value of inventories

Inventories are initially measured at cost. Cost of inventories comprises all costs of purchase, costs of conversion and other expenditures incurred in bringing the inventories to their present location and condition. Borrowing costs directly related to the production of qualifying inventories are also included in the cost of inventories (see Note II.16). In addition to the purchasing cost of raw materials, work in progress and finished goods include direct labour costs and an appropriate allocation of production overheads.

At the balance sheet date, inventories are carried at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the normal course of business less the estimated costs to completion and the estimated expenses and related taxes necessary to make the sale. The net realisable value of materials held for use in the production of inventories is measured based on the net realisable value of the finished goods in which they will be incorporated. The net realisable value of the quantity of inventory held to satisfy sales or service contracts is based on the contract price. If the quantities of inventories specified in sales contracts are less than the quantities held by the Group, the net realisable value of the excess portion of inventories shall be based on general selling prices.

Any excess of the cost over the net realisable value of each class of inventories is recognised in profit or loss as a provision for diminution in the value of inventories.

(4) Inventory system

The Group maintains a perpetual inventory system.

(5) Amortisation of reusable material including low-value consumables and packaging material

Reusable materials including low-value consumables and packaging materials are amortised in full when received for use. The amounts of the amortisation are included in the cost of the related assets or profit or loss.

12. Long-term equity investments

Long-term equity investments comprise the Company's long-term equity investments in its subsidiaries and the Group's long-term equity investments in its joint ventures and associates.

Subsidiaries are the investees over which the Company is able to exercise control. Joint ventures are the investees over which the Group is able to exercise joint control together with other ventures and the Group enjoys the rights only on the net assets of investees. Associates are the investees that the Group has significant influence on their financial and operating policies.

Investments in subsidiaries are presented in the Company's financial statements using the cost method, and are adjusted for preparing the consolidated financial statements using the equity method. Investments in joint ventures and associates are accounted for using the equity method.

Notes to the Financial Statements

For the period started from 1 January and ended 30 June 2017

(All amounts in RMB'000 unless otherwise stated)

(English Translation for Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

12. Long-term equity investments (Continued)

(1) Determination of investment cost

For long-term equity investments acquired through a business combination: for long-term equity investments acquired through a business combination involving enterprises under common control, the investment cost shall be the absorbing party's share of the carrying amount of owners' equity of the party being absorbed at the combination date; for long-term equity investment acquired through a business combination involving enterprises not under common control, the investment cost shall be the combination cost.

For long-term equity investments acquired not through a business combination: for long-term equity investment acquired by payment in cash, the initial investment cost shall be the purchase price actually paid; for long-term equity investments acquired by issuing equity securities, the initial investment cost shall be the fair value of the equity securities issued.

(2) Subsequent measurement

For long-term equity investments accounted for using the cost method, they are measured at the initial investment costs, and cash dividends or profit distribution declared by the investees are recognised as investment income in profit or loss.

For long-term equity investments accounted for using the equity method, where the initial investment cost of a long-term equity investment exceeds the Group's share of the fair value of the investee's identifiable net assets at the acquisition date, the long-term equity investment is measured at the initial investment cost; where the initial investment cost is less than the Group's share of the fair value of the investee's identifiable net assets at the acquisition date, the difference is included in profit or loss and the cost of the long-term equity investment is adjusted upwards accordingly.

For long-term equity investments accounted for using the equity method, the Group recognises the investment income according to its share of net profit or loss of the investee. If the accounting policies and the accounting periods are inconsistent between the Company and investees, the financial statements of investees are adjusted in accordance with the accounting policies and accounting period of the Company. The Group discontinues recognising its share of net losses of an investee after the carrying amount of the long-term equity investment together with any long-term interests that, in substance, form part of the investor's net investment in the investee are reduced to zero. However, if the Group has obligations for additional losses and the criteria with respect to recognition of provisions under the accounting standards on contingencies are satisfied, the Group continues recognising the investment losses and the provisions. For changes in owners' equity of the investee other than those arising from its net profit or loss, the Group records its proportionate share directly into capital surplus, provided that the Group's proportion of shareholding in the investee remains unchanged. The carrying amount of the investment is reduced by the Group's share of the profit distribution or cash dividends declared by an investee. The unrealised profits or losses arising from the intra-group transactions amongst the Group and its investees are eliminated in proportion to the Group's equity interest in the investees, and then based on which the investment gains or losses are recognised. For the loss on the intra-group transaction amongst the Group and its investees attributable to asset impairment, any unrealised loss is not eliminated.

Notes to the Financial Statements

For the period started from 1 January and ended 30 June 2017
(All amounts in RMB'000 unless otherwise stated)
(English Translation for Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

12. Long-term equity investments (Continued)

(3) Basis for determining the existence of joint control or significant influence over an investee

Control is the power over the investee to enjoy variable returns by participating in related activities of the investee and the ability to affect the return amount by executing the power over the investee.

Joint control is the sharing of control over an arrangement according to related agreement, and exists only when the decisions relating to the activity of the arrangement require the unanimous consent of the parties sharing control.

Significant influence is the power to participate in the determination of financial and operating policies of the investee, but is not control or joint control over those policies.

(4) Method of impairment testing and measuring

The carrying amount of long-term equity investments in subsidiaries, joint ventures and associates is reduced to the recoverable amount if the recoverable amount is below the carrying amount.

13. INVESTMENT PROPERTIES

Investment properties, including land use rights that have already been leased out, buildings that are held for the purpose of leasing and buildings that are being constructed or developed for future use for leasing, are measured initially at cost. Subsequent expenditures incurred in relation to an investment properties are included in the cost of the investment properties when it is probable that the associated economic benefits will flow to the Group and their costs can be reliably measured; otherwise, the expenditures are recognised in profit or loss for the period in which they are incurred.

The Group adopts fair value model to subsequently measure investment properties and don't provide depreciation or amortisation. The carrying amount of investment properties is adjusted based on their fair value at the balance sheet date, and the difference between the fair value and the original carrying amount is recognised in profit or loss for the current period.

When an investment properties is transferred to owner-occupied property, it is reclassified to fixed asset or intangible asset with the carrying amount determined at the fair value of the investment properties at the date of the transfer, and the difference between the fair value and the original carrying amount of the investment properties is recognised in profit or loss for the current period. When an owner-occupied property is transferred out for earning rentals or for capital appreciation, the fixed asset or intangible asset is transferred to investment properties with the carrying amount determined at the fair value at the date of the transfer. If the fair value at the date of the transfer is less than the original carrying amount of the fixed asset or the intangible asset, the difference is recognised in profit or loss for the current period; otherwise, it is included in other comprehensive income.

An investment properties is derecognised on disposal or when the investment properties is permanently withdrawn from use and no future economic benefits are expected from its disposal. The net amount of proceeds from sale, transfer, retirement or damage of an investment properties net of its carrying amount and related taxes and expenses is recognised in profit or loss for the current period.

110 Notes to the Financial Statements

For the period started from 1 January and ended 30 June 2017

(All amounts in RMB'000 unless otherwise stated)

(English Translation for Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

14. Fixed assets

(1) Recognition

Fixed assets represent the tangible assets held by the Group for use in the production of goods or supply of services, for rental to others or for operation and administrative purposes with useful lives over one year.

The cost of a purchased fixed asset comprises the purchase price, related taxes, and any directly attributable expenditure for bringing the asset to working condition for its intended use. The cost of self-constructed assets is measured in accordance with the policy set out in Note II.15.

Where parts of an item of fixed asset have different useful lives or provide benefits to the Group in different patterns thus necessitating use of different depreciation rates or methods, each part is recognised as a separate fixed asset.

The subsequent costs including the cost of replacing part of an item of fixed assets are recognised in the carrying amount of the item if the to recognise fixed assets criteria are satisfied, and the carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of fixed assets are recognised in profit or loss as incurred.

Fixed assets are stated in the balance sheet at cost less accumulated depreciation and impairment losses.

(2) Depreciation

Fixed assets are depreciated using the straight-line method to allocate the cost of the assets to their estimated residual values over their estimated useful lives, unless the fixed asset is classified as held for sale (see Note II.28). For the fixed assets that have been provided for impairment loss, the related depreciation charge is prospectively determined based upon the adjusted carrying amounts over their remaining useful lives. The estimated useful lives, residual values and depreciation rates of each class of fixed assets are as follows:

Classes	Residual Period (years)	Depreciation value rate (%)	Depreciation rate (%)
Plants and buildings	20-30	10%	3-4.5%
Machinery and equipment	10-12	10%	7.5-9%
Office and other equipment	3-5	10%	18-30%
Motor vehicles	5	10%	18%
Dock, wharf	50	10%	1.8%
Offshore engineering equipment	15-30	10%	3-6%

Useful lives, residual value and depreciation methods are reviewed at least at each year-end.

Notes to the Financial Statements

For the period started from 1 January and ended 30 June 2017
(All amounts in RMB'000 unless otherwise stated)
(English Translation for Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

14. Fixed assets (Continued)

(3) For the method of impairment testing and measuring, refer to Note II.20.

(4) Basis for identification of fixed assets held under finance leases and related measurement

For criteria of recognition and method of measuring for fixed assets under a finance lease, refer to Note II 27(3).

(5) Disposal

A fixed asset is derecognised on disposal or when no future economic benefits are expected from its use or disposal. The amount of proceeds from disposal on sale, transfer, retirement or damage of a fixed asset net of its carrying amount and related taxes and expenses is recognised in profit or loss for the current period.

15. Construction in progress

Construction in progress is measured at actual cost. The cost of self-constructed assets includes the cost of materials, direct labour, capitalised borrowing costs (see Note II.16), and any other costs directly attributable to bringing the asset to working condition for its intended use.

A self-constructed asset is included in construction in progress before it is transferred to fixed asset when it is ready for its intended use. No depreciation is provided against construction in progress. Construction in progress is stated in the balance sheet at cost less impairment losses (see Note II.20).

16. Borrowing costs

Borrowing costs incurred directly attributable to the acquisition, construction or production of a qualifying asset are capitalised as part of the cost of the asset.

Except for the above, other borrowing costs are recognised as financial expenses in the income statement when incurred.

During the capitalisation period, the amount of interest (including amortisation of any discount or premium on borrowing) to be capitalised in each accounting period is determined as follows:

- Where funds are borrowed specifically for the acquisition, construction or production of a qualifying asset, the amount of interest to be capitalised is the interest expense calculated using effective interest rates during the period less any interest income earned from depositing the borrowed funds or any investment income on the temporary investment of those funds before being used on the asset.
- Where funds are borrowed generally and used for the acquisition, construction or production of a qualifying asset, the amount of interest to be capitalised on such borrowings is determined by applying a capitalisation rate to the weighted average of the excess amounts of cumulative expenditures on the asset over the above amounts of specific borrowings. The capitalisation rate is the weighted average of the interest rates applicable to the general-purpose borrowings.

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

17.

Notes to the Financial Statements

For the period started from 1 January and ended 30 June 2017

(All amounts in RMB'000 unless otherwise stated)

(English Translation for Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

18. Goodwill

Goodwill represents the excess of cost of acquisition over the acquirer's interest in the fair value of the identifiable net assets of the acquiree under the business combination involving entities not under common control.

Goodwill is not amortised and is stated at cost less accumulated impairment losses (see Note II.20). On disposal of an asset group or combination of asset groups, any attributable amount of purchased goodwill is written off and included in the calculation of the profit or loss on disposal.

19. Long-term prepaid expenses

Long-term prepaid expenses are amortised on a straight-line method within the beneficial period.

The amortisation periods for expensed are as follows:

Item	Amortisation period (years)
Rental	2-10
Others	3-5

20. Impairment of long-term assets

Fixed assets, construction in progress, intangible assets with finite useful lives and long-term equity investments in subsidiaries, joint ventures and associates are tested for impairment if there is any indication that the assets may be impaired at the balance sheet date. If the result of the impairment test indicates that the recoverable amount of an asset is less than its carrying amount, a provision for impairment and an impairment loss are recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and the present value of the future cash flows expected to be derived from the asset. Provision for asset impairment is determined and recognised on the individual asset basis. If it is not possible to estimate the recoverable amount of an individual asset, the recoverable amount of a group of assets to which the asset belongs is determined. A group of assets is the smallest group of assets that is able to generate independent cash inflows.

Goodwill that is separately presented in the financial statements is tested at least annually for impairment, irrespective of whether there is any indication that it may be impaired. In conducting the test, the carrying value of goodwill is allocated to the related asset groups or combination of asset groups which are expected to benefit from the synergies of the business combination. If the result of the test indicates that the recoverable amount of an asset group or combination of asset groups, including the allocated goodwill, is lower than its carrying amount, the corresponding impairment loss is recognised. The impairment loss is first deducted from the carrying amount of goodwill that is allocated to the asset group or combination of asset groups, and then deducted from the carrying amounts of other assets within the asset groups or combination of asset groups in proportion to the carrying amounts of assets other than goodwill.

Once an impairment loss is recognised, it is not reversed in a subsequent period.

Notes to the Financial Statements

(All amounts in RMB'000 unless otherwise stated)
(English Translation for Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

21. Provisions and contingent liabilities

Provisions for product warranties, onerous contracts etc. are recognised when the Group has a present obligation, it is probable that an outflow of economic benefits will be required to settle the obligation, and the amount of the obligation can be measured reliably.

A provision is initially measured at the best estimate of the expenditure required to settle the related present obligation. Factors surrounding a contingency, such as the risks, uncertainties and the time value of money, are taken into account as a whole in reaching the best estimate of a provision. Where the effect of the time value of money is material, the best estimate is determined by discounting the related future cash outflows. The increase in the discounted amount of the provision arising from passage of time is recognised as interest expense.

The carrying amount of provisions is reviewed at each balance sheet date and adjusted to reflect the current best estimate.

Provisions which is expected to be paid within one year from the balance sheet date are disclosed as current liabilities.

In terms of a possible obligation resulting from a past transaction or event, whose existence will only be confirmed by the occurrence or non-occurrence of uncertain future events or a present obligation resulting from a past transaction or event, where it is not probable that the settlement of the above obligation will cause an outflow of economic benefits, or the amount of the outflow cannot be estimated reliably, the possible or present obligation is disclosed as a contingent liability.

22. Share-based payments

(1) Classification

Share-based payment transactions in the Group are classified as equity-settled share-based payments and cash-settled share-based payments.

(2) Method to determine the fair value of equity instruments

Fair value of stock option is estimated based on binomial lattice model. Contract term of the stock option is used as the input variable of this model. And the binomial lattice model includes estimation of early execution of the option. The following factors are taken into account when using the binomial lattice model: (1) exercise price of the option; (2) vesting period; (3) current price of basic stocks; (4) expected fluctuation of stocks; (5) expected dividends of stocks; (6) risk-free rate within the option term.

(3) Basis of the best estimate of the number of equity instruments expected to vest

At each balance sheet date during the vesting period, the Group makes the best estimation according to the latest information of the number of employees who are granted to vest and revises the number of equity instruments expected to vest. On vesting date, the estimate shall be equal to the number of equity instruments that ultimately vested.

Notes to the Financial Statements

For the period started from 1 January and ended 30 June 2017

(All amounts in RMB'000 unless otherwise stated)

(English Translation for Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

22. Share-based payments (Continued)

(4) Accounting treatment for share-based payment

() Equity-settled share-based payment

Where the Group uses shares or other equity instruments as consideration for services received from the employees, the payment is measured at the fair value of the equity instruments granted to the employees at the grant date. If the equity instruments granted to employees vest immediately, the fair value of the equity instruments granted is, on grant date, recognised as relevant cost or expenses with a corresponding increase in capital reserve. If the equity instruments granted to employees do not vest until the completion of services for a vesting period, or until the achievement of a specified performance condition, the Group, at each balance sheet date during the vesting period, makes the best estimation according to the latest information of the number of employees who are granted to vest and revises the number of equity instruments expected to vest. Based on the best estimation, the Group recognises the services received for the current period as related costs or expenses, with a corresponding increase in capital reserve, at an amount equal to the fair value of the equity instruments at the grant date.

() Cash-settled share-based payment

Where the Group receives services from employees by incurring a liability to deliver cash or other assets for amounts that are determined based on the price of shares or other equity instruments, the service received from employees is measured at the fair value of the liability incurred. If the rights under a cash-settled share-based payment do not vest until the completion of services for a vesting period, or until the achievement of a specified performance condition, the Group, at each balance sheet date during the vesting period, recognises the services received for the current period as related costs or expenses, with a corresponding increase in liability, at an amount equal to the fair value of the liability based on the best estimate of the outcome of vesting.

23. Revenue recognition

Revenue is the gross inflow of economic benefit in the periods arising in the course of the Group's ordinary activities when the inflows result in increase in shareholders' equity, other than increase relating to contributions from shareholders. Revenue is recognised in profit or loss when it is probable that the economic benefits will flow to the Group, the revenue and costs can be measured reliably and the following respective conditions are met.

(1) Sale of goods

Revenue from sale of goods is recognised when all of the general conditions stated above and following conditions are satisfied:

- (a) The significant risks and rewards of ownership of goods have been transferred to the buyer;
- (b) The Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold.

Revenue from the sale of goods is measured at the fair value of the considerations received or receivable under the sales contract or agreement.

Notes to the Financial Statements

For the period started from 1 January and ended 30 June 2017
(All amounts in RMB'000 unless otherwise stated)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

23. Revenue recognition (Continued)

(1) Sale of goods (Continued)

Revenue recognition of goods sold to customers

The Group recognises revenue after receive acceptance certificates from customers.

Revenue recognition of goods sold to overseas customers

Sales of road transportation vehicles are divided into sales to domestic customers and sales to overseas customers. As to sales to domestic customers, the Group recognises revenue after customers pick up and accept the vehicles. As to sales to overseas customers, the Group recognises revenue after vehicles are loaded to specified ship in specific port assigned by the customer pursuant to contracts.

Revenue recognition of real estate

The Group recognises revenue when the purchase and sell agreement is performed. When the property is sold in advance before completion, the revenue is recognised only when the construction is completed and delivered to the buyer. The deposits and installment received before revenue recognition are regarded as advance from customers.

(2) Revenue from construction contracts

Where the outcome of a construction contract can be estimated reliably, contract revenue and contract expenses associated with the construction contract are recognised at the balance sheet date using the percentage of completion method.

The stage of completion of a contract is determined based on completion of a physical proportion of the contract work.

When the outcome of a construction contract cannot be estimated reliably:

- (a) If the contract costs can be recovered, revenue is recognised to the extent of contract costs incurred that can be recovered, and the contract costs are recognised as contract expenses when incurred;
- (b) If the contract costs cannot be recovered, the contract costs are recognised as contract expenses immediately when incurred, and no contract revenue is recognised.

Construction contract revenue includes initial revenue stipulated by contract and increased amount generated by contract alteration.

Notes to the Financial Statements

For the period started from 1 January and ended 30 June 2017

(All amounts in RMB'000 unless otherwise stated)

(English Translation for Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

23. Revenue recognition (Continued)

(2) Revenue from construction contracts (Continued)

Increased amount cannot be recognised as contract revenue unless the following contract alteration terms are all satisfied:

- (c) Client accepts and confirms the increased amount generated by contract alteration;
- (d) Increased amount can be reliably measured.

Contract anticipated loss is recognised when estimated total construction contract cost exceeds contract revenue. Provision should be made for contract anticipated loss and charged into profit and losses for the current period.

(3) Rendering of services

Revenue from rendering of services is measured at the fair value of the considerations received or receivable under the contract or agreement.

At the balance sheet date, where outcome of a transaction involving the rendering of services can be estimated reliably, revenue from the rendering of services is recognised by reference to the stage of completion of the transaction based on the progress of work performed.

Where outcome of rendering of services cannot be estimated reliably, if the costs incurred are expected to be recoverable, revenues are recognised to the extent that the costs incurred that are expected to be recoverable, and an equivalent amount is charged to profit or loss as service cost; if the costs incurred are not expected to be recoverable, the costs incurred are recognised in profit or loss and no service revenue is recognised.

For freight agencies, revenues are recognised at the ship departure date (export) or the arrival date (import). As to land freight agencies, revenues are recognised when goods have arrived at the specified location. For shipping agency: revenues are recognised at the day that ship departs.

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

24. Employee benefits

Employee benefits represent all kinds of allowances and compensations paid by the Group for services rendered by employees or for termination of employment relationship, which mainly include short-term wages, pension benefits and termination of employment benefits.

(1) short-term wages

Short-term wages include wages or salaries, bonuses, allowances and subsidies, staff welfare, medical insurance, work injury insurance, maternity insurance, housing funds, labour union funds, employee education funds and short term paid absence and etc. Actual short-term wages are recognised as liabilities in the periods when the employees render services and are charged into profit or loss or capitalised in costs of related assets. The non-monetary welfare is measured at fair value.

(2) pension benefits

During the reporting period, the Group's pension benefits are basic pension insurance and unemployment insurance which are all defined contribution plans.

The Group's employees participated in the basic social pension insurance organised and implemented by local labour and social security bureau. The Group paid the basic pension issuance expenses monthly to designated insurance companies for its employees according to the basis amounts and rates determined by the local regulations. After retirement, local labour and social security bureau is responsible for paying the pension benefit to the retired employees. The amounts of pension insurance payable calculated according to the above regulations are recognised as liabilities during the periods when the employees render services and are charged to profit or loss or capitalised in costs of related assets.

(3) Enterprise annuities plan

The Group provides compensation for the termination of employment relationship before the expiry of employment contracts or compensation to encourage employees' voluntary layoffs, which is recognised as a liability and charged to profit or loss on the earlier one when the Group is unable to unilaterally withdraw the plan on the termination of employment relationship or the layoff proposal and costs and expenses in relation to the payment of compensation to the termination of employment relationship are recognised.

The Enterprise annuities plan with payment within one year at the balance sheet date are classified as current liabilities.

Notes to the Financial Statements

For the period started from 1 January and ended 30 June 2017

(All amounts in RMB'000 unless otherwise stated)

(English Translation for Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

25. Government grants

Government grants are transfers of monetary assets or non-monetary assets from the government to the Group at nil consideration, including refund of taxes and financial subsidies, etc..

A government grant is recognised when the conditions attached to it can be complied with and the government grant can be received. If a government grant in the form of transfer of monetary assets, the grant is measured at the amount received or receivable. For a government grant in the form of transfer of non-monetary assets, it is measured at fair value; if the fair value is not reliably determinable; the grant is measured at nominal amount.

Government grants related to assets represent grants obtained from government which are to compensate long-term assets purchased or other ways. Government grants related to income represent those government grants other than related to assets.

A government grant related to an asset is recognized by deducting the grant in arriving at the carrying amount of the asset or as deferred income, and amortised to profit or loss on a reasonable, systematic basis over the useful life of the asset. For government grants related to income, where the grant is a compensation for related expenses or losses to be incurred by the Group in the subsequent periods, the grant is recognised as deferred income, and included in profit or loss or by deducting the related expense over the periods in which the related costs are recognised; where the grant is a compensation for related expenses or losses already incurred by the Group, the grant is recognised immediately in profit or loss or by deducting the related expense the for the current period. The same method of presentation should be adopted for government grants of the same category: government grants related with the day-to-day operation should be presented in the operating profit; government grants not related with the day-to-day operation should be presented in the non-operating income or expenses.

For government loans with below-market rates of interest, the actual proceeds received is recognized as the initial carrying value of the loans, and borrowing costs are calculated based on the principal and the below-market rates of interest. Discount interest funds directly received from the government should be recognized by deducting the related borrowing costs.

26. Deferred tax assets and deferred tax liabilities

Deferred tax assets and liabilities arise from deductible and taxable temporary differences respectively, being the differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax bases, which include the deductible losses and tax credits carry forward to subsequent periods. Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which deductible temporary differences can be utilised.

Deferred tax is not recognised for the temporary differences arising from the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting profit nor taxable profit (or tax loss). No deferred tax liability is recognised for a temporary difference arising from the initial recognition of goodwill.

At the balance sheet date, the amount of deferred tax recognised is measured based on the expected manner of recovery or settlement of the carrying amount of the assets and liabilities, using tax rates that are expected to be applied in the period when the asset is recovered or the liability is settled in accordance with tax laws.

Notes to the Financial Statements

121

For the period started from 1 January and ended 30 June 2017
(All amounts in RMB'000 unless otherwise stated)
(English Translation for Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

26. Deferred tax assets and deferred tax liabilities (Continued)

The carrying amount of a deferred tax asset is reviewed at each balance sheet date. The carrying amount of a deferred tax asset is reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the benefit of the deferred tax asset to be utilised. Such reduction is reversed to the extent that it becomes probable that sufficient taxable profits will be available.

Deferred tax liabilities are recognised for temporary differences arising from investments in subsidiaries, associates and joint ventures, except where the Group is able to control the timing of reversal of the temporary difference, and it is probable that the temporary difference will not reverse in the foreseeable future. When it is probable that the temporary differences arising from investments in subsidiaries, associates and joint ventures will be reversed in the foreseeable future and that the taxable profit will be available in the future against which the temporary differences can be utilised, the corresponding deferred tax assets are recognised.

At the balance sheet date, deferred tax assets and liabilities are offset if all the following conditions are met:

- the taxable entity has a legally enforceable right to set off current tax assets against current tax liabilities; and
- they relate to income taxes levied by the same tax authority on either the same taxable entity; or different taxable entities which either intend to settle the current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

27. Operating and finance leases

A lease is classified as either a finance lease or an operating lease. A finance lease is a lease that transfers substantially all the risks and rewards incidental to ownership of a leased asset to the lessee, irrespective of whether the legal title to the asset is eventually transferred. An operating lease is a lease other than a finance lease.

(1) Assets acquired under operating leases

Rental payments under operating leases are recognised as costs or expenses on a straight-line basis over the lease term.

Notes to the Financial Statements

For the period started from 1 January and ended 30 June 2017

(All amounts in RMB'000 unless otherwise stated)

(English Translation for Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

27. Operating and finance leases (Continued)

(2) Assets leased out under operating leases

Fixed assets leased out under operating leases, except for investment properties (see Note II.13) are depreciated in accordance with the Group's depreciation policies described in Note II.14(2). Impairment losses are provided for in accordance with the accounting policy described in Note II.20. Other leased out assets under operating leases are amortised using the straight-line method. Income derived from operating leases is recognised in the income statement using the straight-line method over the lease term. If initial direct costs incurred in respect of the assets leased out are material, the costs are initially capitalised and subsequently amortised in profit or loss over the lease term on the same basis as the lease income. Otherwise, the costs are charged to profit or loss immediately.

(3) Assets acquired under finance leases

When the Group acquires an asset under a finance lease, the asset is measured at an amount equal to the lower of its fair value and the present value of the minimum lease payments, each determined at the inception of the lease. At the commencement of the lease term, the minimum lease payments are recorded as long-term payables. The difference between the value of the leased assets and the minimum lease payments is recognised as unrecognised finance charges. Initial direct costs that are attributable to a finance lease incurred by the Group are added to the amounts recognised for the leased asset. Depreciation and impairment losses are accounted for in accordance with the accounting policies described in Notes II.14(2) and II.20, respectively.

If there is a reasonable certainty that the Group will obtain ownership of a leased asset at the end of the lease term, the leased asset is depreciated over its estimated useful life. Otherwise, the leased asset is depreciated over the shorter of the lease term and its estimated useful life.

Unrecognised finance charge under finance lease is amortised using an effective interest method over the lease term. The amortisation is accounted for in accordance with principles of borrowing costs (see Note II.16).

At the balance sheet date, long-term payables arising from finance leases, net of the unrecognised finance charges, are presented as long-term payables or non-current liabilities due within one year, respectively, in the balance sheet.

Notes to the Financial Statements

123

For the period started from 1 January and ended 30 June 2017
(All amounts in RMB'000 unless otherwise stated)
(English Translation for Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

27. Operating and finance leases (Continued)

(4) Assets leased out under finance leases

At the commencement of the lease term, the Group recognises the aggregate of the minimum lease receipts determined at the inception of a lease and the initial direct costs as finance lease receivable. The difference between the aggregate of the minimum lease receipts, the initial direct costs, and the aggregate of their present value is recognised as unearned finance income.

Unearned finance income is allocated to each accounting period during the lease term using the effective interest method. At the balance sheet date, finance lease receivables, net of unearned finance income, are presented as long-term receivables or non-current assets due within one year, respectively in the balance sheet. Please refer to Notes II.9 for accounting policy on the derecognition and impairment of finance lease receivables.

28. Assets held for sale and discontinued operation

A non-current asset or disposal group is classified as held for sale when meet the following criteria: i. The asset (or disposal group) must be available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such assets (or disposal groups); ii. A non-cancellable transfer agreement has been signed with the transferee, the disposal plan has been approved properly and this transfer is expected to be completed within one year;

Non-current assets held for sale (excluding financial assets, investment properties measured at fair value and deferred tax assets) are stated at the lower of carrying amount and net realisable value. Any excess of the carrying amount over the net realisable value is recognised as impairment loss.

Assets and liabilities of a non-current asset or disposal group which is classified as held for sale are classified as current assets and current liabilities, which are separately presented in the balance sheet.

A discontinued operation is a component which has been disposed or classified as held for sale of the group's business and the operations and financial reporting of the discontinued operation can be clearly distinguished from the rest of the group and can meet one of the following criteria: (a) This component of the business represents a separate major line of business or geographic area of operations; (b) This component of the business is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations; (c) This component of the business is a subsidiary acquired exclusively with a view to resale.

The Group shall disclose profit or loss for the year from discontinued operations disclosed in the statement of comprehensive income comprising the total of: the post-tax profit or loss of discontinued operations and The post-tax gain or loss from remeasurement of the discontinued operation to fair value less costs to sell.

Notes to the Financial Statements

For the period started from 1 January and ended 30 June 2017

(All amounts in RMB'000 unless otherwise stated)

(English Translation for Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

29. Hedge accounting

Hedge accounting is a method which recognises the offsetting effects of fair value and cash flow of the hedging instruments and the hedged items on current profit or loss in the same accounting period(s).

Hedged items are the items that expose the Group to risks of changes in fair value or future cash flows and that are designated as being hedged. The Group's hedged item include a forecast transaction that is settled with a fixed amount of foreign currency and expose the Group to foreign currency risk.

A hedging instrument is a designated derivative whose changes in fair value or cash flows are expected to offset changes in the fair value or cash flows of the hedged item. For a hedge of foreign currency risk, a non-derivative financial asset or non-derivative financial liability may also be used as a hedging instrument.

The hedge is assessed by the Group for effectiveness on an ongoing basis and judged whether it has been highly effective throughout the accounting periods for which the hedging relationship was designated. A hedge is regarded as highly effective if both of the following conditions are satisfied:

- at the inception and in subsequent periods, the hedge is expected to be highly effective in achieving offsetting changes in fair value or cash flows attributable to the hedged risk during the period for which the hedge is designated;
- the actual results of offsetting are within a range of 80% to 125%.

Cash flow hedges

A cash flow hedge is a hedge of the exposure to variability in cash flows. The portion of the gain or loss on the hedging instrument that is determined to be an effective hedge is recognised directly in shareholders' equity as a separate component. That effective portion is adjusted to the lower of the following in absolute amounts:

- the cumulative gain or loss on the hedging instrument from inception of the hedge;
- The cumulative change in present value of the expected future cash flows on the hedged item from inception of the hedge.

The portion of the gain or loss on the hedging instrument that is determined to be an ineffective hedge is recognised in profit or loss.

If a hedge of a forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability, the associated gain or loss is removed from shareholders' equity and recognised in profit or loss in the same period during which the financial asset or financial liability affects profit or loss. However, if the Group expects that all or a portion of a net loss recognised directly in shareholders' equity will not be recovered in future accounting periods, it reclassifies into profit or loss the amount that is not expected to be recovered.

Notes to the Financial Statements

125

For the period started from 1 January and ended 30 June 2017
(All amounts in RMB'000 unless otherwise stated)
(English Translation for Reference Only)

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

29. Hedge accounting (Continued)

Cash flow hedges (Continued)

If a hedge of a forecast transaction subsequently results in the recognition of a financial asset or a financial liability, the associated gain or loss is removed from equity and recognised in profit or loss in the same period during which the financial asset or financial liability affects profit or loss. However, if the Group expects that all or a portion of a net loss recognised directly in shareholders' equity will not be recovered in future accounting periods, it reclassifies into profit or loss the amount that is not expected to be recovered.

For cash flow hedges, other than those covered by the preceding two policy statements, the associated gain or loss is removed from shareholders' equity and recognised in profit or loss in the same period or periods during which the hedged forecast transaction affects profit or loss.

When a hedging instrument expires or is sold, terminated or exercised, or the hedge no longer meets the criteria for hedge accounting, the Group will discontinue the hedge accounting treatments prospectively. In this case, the gain or loss on the hedging instrument that remains recognised directly in shareholders' equity from the period when the hedge was effective shall not be reclassified into profit or loss and is recognised in accordance with the above policy when the forecast transaction occurs. If the forecast transaction is no longer expected to occur, the gain or loss on the hedging instrument that remains recognised directly in shareholders' equity from the period when the hedge was effective shall be reclassified into profit or loss immediately.

30. Dividend distribution

Cash dividend is recognised as a liability for the period in which the dividend is approved by the shareholders' meeting.

Dividends or distributions of profits proposed in the profit appropriation plan which will be authorised and declared after the balance sheet date, are not recognised as a liability at the balance sheet date but disclosed in the notes separately.

31. Related parties

If a party has the power to control, jointly control or exercise significant influence over another party, or vice versa, or where two or more parties are subject to common control or joint control from another party, they are considered to be related parties. Related parties may be individuals or enterprises. Enterprises with which the Company is under common control only from the State and that have no other related party relationships are not regarded as related parties of the Group. Related parties of the Group and the Company include, but are not limited to:

- (a) the Company's parent;
- (b) the Company's subsidiaries;
- (c) enterprises that are controlled by the Company's parent;

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

31. Related parties (Continued)

- (d) investors that have joint control or exercise significant influence over the Group;
- (e) enterprises or individuals if a party has control, joint control over both the enterprises or individuals and the Group;
- (f) joint ventures of the Group, including subsidiaries of joint ventures;
- (g) associates of the Group, including subsidiaries of associates;
- (h) principal individual investors and close family members of such individuals;
- (i) key management personnel of the Group and close family members of such individuals;
- (j) key management personnel of the Company's parent and close family members of such individuals;
- (k) close family members of key management personnel of the Company's parent; and
- (l) other enterprises that are controlled or jointly controlled by principal individual investors, key management personnel of the Group, and close family members of such individuals.

Besides the related parties stated above determined in accordance with the requirements of CAS, the following enterprises and individuals are considered as (but not restricted to) related parties based on the disclosure requirements of Administrative Procedures on the Information Disclosures of Listed Companies issued by the CSRC:

- (m) enterprises or persons that act in concert that hold 5% or more of the Company's shares;
- (n) individuals and close family members of such individuals who directly or indirectly hold 5% or more of the Company's shares, supervisors for listed companies and their close family members;
- (o) enterprises that satisfy any of the aforesaid conditions in (a), (c) and (m) during the past 12 months or will satisfy them within the next 12 months pursuant to a relevant agreement;
- (p) individuals who satisfy any of the aforesaid conditions in (i), (j) and (n) during the past 12 months or will satisfy them within the next 12 months pursuant to a relevant agreement; and
- (q) enterprises, other than the Company and subsidiaries controlled by the Company, which are controlled directly or indirectly by an individual defined in (i), (j), (n) or (p), or in which such an individual assumes the position of a director or senior executive.

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

32. Segment reporting

Reportable segments are identified based on operating segments which are determined based on the structure of the Group's internal organisation, management requirements and internal reporting system. An operating segment is a component of the Group that meets the following conditions:

- It engages in business activities from which it may earn revenues and incur expenses;
- Its financial performance are regularly reviewed by the Group's management to make decisions about resource to be allocated to the segment and assess its performance;
- The Group is able to obtain its financial information regarding financial position, financial performance and cash flows, etc.

Two or more operating segments may be aggregated into a single operating segment if the segments have same or similar economic characteristics, and are similar in respect of the following aspects:

- the nature of each product and service;
- the nature of production processes;
- the type or class of customers for the products and services;
- the methods used to distribute the products or provide the services;
- the legal and regulatory impact on manufacturing of products and rendering of services.

Inter-segment revenues are measured on the basis of actual transaction price for such transactions for segment reporting, and segment accounting policies are consistent with those for the consolidated financial statements.

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

33. Significant changes in accounting policy

- (1) On 10 May 2017, the Ministry of Finance issued the Notice on Issuing the Revised "Accounting Standards for Business Enterprises No. 16 – Government Grants" (Cai Kuai [2017] No. 15) to revise the Accounting Standards for Business Enterprises No. 16 – Government Grants, which came into force on 12 June 2017. For the period from 1 January to 30 June 2017, the company adopted the aforesaid accounting standards for the Interim financial statement. The impacts of the change in accounting policy on financial statements of the group are listed as below:

Contents and reasons for the change	Impacted items on financial statement	Impacted amount for the period from 1 January to 30 June 2017
The government grants relating to the ordinary activities of enterprises shall be included in "other income" based on the nature of economic business; the government grants not relating to the ordinary activities of enterprises shall be included in "non-operating income and expense". For government grants existed as at 1 January 2017, the prospective application method shall be applied, and for new government grants incurred from 1 January 2017 to the date on which the standards came into force, adjustments shall be made according to the standards. The comparative financial statements for the period from January to June 2016 were not restated.	Other income	91,032
	Non-operating income	(91,032)

- (2) On 28 April 2017, the Ministry of Finance issued the requirements of the Notice on Issuing the "Accounting Standards for Business Enterprises No. 42 – Non-current Assets Held for Sale, Disposal Groups and Discontinued Operation" (Cai Kuai [2017] No. 13), which required that the adoption of Accounting Standards for Business Enterprises No. 42 – Non-current Assets Held for Sale, Disposal Groups and Discontinued Operation shall take effect on 28 May 2017. For the period from 1 January to 30 June 2017, There was no significant impact of the change in accounting policy on financial statements of the group.

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

34. Critical accounting estimates and judgements

The preparation of financial statements requires management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affectel.(g asrtaaesultsO.824D[(ReNos arIV)111(.1937(inIXnd inXIV conta aninformion ofabouthe essumptions ar) the riri

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES (CONTINUED)

34. Critical accounting estimates and judgements (Continued)

(3) Impairment of long-term assets

As described in Note II.20, long-term assets are reviewed at each balance sheet date to determine whether the recoverable amount of the assets is lower than carrying amount. If any indication shows that the carrying amount of the assets may not be fully recovered, the assets is deemed to have been impaired and an impairment loss is recognised.

The recoverable amount of an asset (asset group) is the greater of its fair value less costs to sell and its present value of expected future cash flows. Since a market price of the asset (the asset group) cannot be obtained reliably, the fair value of the asset cannot be estimated reliably. In assessing value in use, significant judgements are exercised over the asset's production, selling price, related operating expenses and discounting rate to calculate the present value. All relevant materials which can be obtained are used for estimation of the recoverable amount, including the estimation of the production, selling price and related operating expenses based on reasonable and supportable assumption.

If the management revised the gross profit margin used in the future cash flow calculation of the asset (asset group) and the revised gross profit margin is lower than the gross profit margin currently used, the Group is required to make provision for impairment of long-term assets.

If the management revised the discount rate before tax applied to the cash flow discount and the revised discount rate before tax is higher than the discount rate currently used, the Group is required to make provision for impairment of long-term assets.

If the actual gross margin or discount rate before tax is higher or lower than the management's estimate, the Group can not reverse previously recognised provision for impairment of long-term asset.

(4) Depreciation and amortisation of assets such as fixed assets and intangible assets

As described in Note II.14 and 17, fixed assets and intangible assets are depreciated and amortised over their useful lives after taking into account residual value. The useful lives of the assets are regularly reviewed to determine the depreciation and amortisation costs charged in each reporting period. The useful lives of the assets are determined based on historical experiences of similar assets and the estimated technical changes. If there have been significant changes in the factors used to determine the depreciation or amortisation, the rate of depreciation or amortisation is revised prospectively.

IV. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

5. Other receivables (Continued)

(1) Other receivables analysed by categories are as follows: (Continued)

- (i) An indirect wholly-owned subsidiary of Enric and an subsidiary of the Group, CIMC Enric Investment Holdings (Shenzhen) Ltd. ("EIHL"), entered into an agreement ("Agreement") on 27 August 2015 with SOEG PTE LTD ("SOEG"), Jiangsu Pacific Shipbuilding Group Co., Ltd. ("Jiangsu Pacific") and Evergreen Group Co., Ltd ("Evergreen") (collectively, the "Vendors"), pursuant to which the Vendors agreed to sell and EIHL agreed to purchase 100% equity interest in SinoPacific Offshore & Engineering Co., Ltd ("SOE"). Afterwards, the Company, SOE and Evergreen entered into a financial assistance framework agreement ("Financial Assistance Agreement") which governed the financial assistance provided by the Group to SOE in the form of loans and guarantees. As at 1 June 2016, Enric announced that the Board considered certain conditions precedent in the Agreement could not be fulfilled and the Vendors had breached certain material terms of the Agreement. EIHL delivered termination notices to the Vendors for termination of the Agreement and requested for the return of the prepaid consideration of 178,634,000. On the same date, the Company delivered termination notices to SOE and Evergreen for termination of the Financial Assistance Agreement and requested SOE to repay the loans of 482,052,000 and release the guarantees for bank loans of 1,000,000,000 provided by a subsidiary of Enric to, or in favour of, SOE.

During the second half year of 2016, the deposits of 1,000,000,000 pledged for SOE's bank loans have been withdrawn by the bank as SOE failed to repay its bank loans upon maturity. As at 31 December 2017, the total receivables due from SOE amounted to 1,480,351,000. Based on the information available, Enric has made substantial provisions of approximately 178,634,000 and 1,184,281,000 respectively for prepaid amount from the Vendors and the receivable from SOE with a total value of 1,362,915,000 during the year ended 31 December 2016.

SOE was under receivership by the SOE Insolvency and Liquidation Team (the "Receiver") which was appointed by the PRC Court. On 5 July 2017, EIHL, SOE and the Receiver entered into restructuring investment agreement pursuant to which EIHL as the restructuring investor, offered to purchase the major assets of SOE through acquiring SOE's issued shares, representing the entire equity interest in SOE for a consideration of RMB799,800,000. Subsequently, the restructuring plan was approved by SOE's creditors at the creditors' meeting as well as by the PRC Court on 4 August 2017.

For the period ended 30 June 2017, based on the information currently available and the update estimate of the recoverability ratio, Enric further made an impairment provision of approximately RMB105,549,000 to write down the receivables due from SOE. As at 30 June 2017, Enric has made provisions of approximately 178,634,000 and 1,289,830,000 respectively for prepaid amount from the Vendors and the receivable from SOE with a total value of 1,468,464,000.

- (ii) The borrowings mainly contained interbank borrowings of the Finance Company with an amount of 135,488,000 which expired from July 3 to July 5 2017; and repayment of car loan and petty cash fund for staff.
- (iii) Assets purchased under reverse repurchase agreements mainly contained the interbank pledge-style repo transactions of Finance company, one of the subsidiary of the Group.

(2) Aging analysis of other receivables is as follows:

IV. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

11. Available-for-sale financial assets (Continued)

(2) Detailed information of the available-for-sale financial assets: (Continued)

Available-for-sale equity instruments measured at historical cost:

	31 December 2016	Increase in current period	Decrease in in current period	30 June 2017	Shareholding ratio of investee	Cash dividend in current period
Available-for-sale equity instruments						
– historical cost						
– China United International Rail Containers Co., Ltd>(*CR Intermodal*)	380,780	–	–	380,780	10.00%	4,000
– Bank of Communications Schroder Fund Management Co., Ltd(*BOCM Schroder*)	8,125	–	–	8,125	5.00%	–
– Beihai Yinjian Co., Ltd(*Beihai Yinjian*)	1,700	–	–	1,700	1.01%	–
– Guangdong Samsung Enterprise Group Co., Ltd(*Guangdong Samsung*)	1,365	–	–	1,365	0.09%	–
– Donghua Container Transportation Service Co., Ltd	270	–	(270)	–	0.00%	–
– Zhuhai Yunzhou Technology Co., Ltd (*Zhuhai Yunzhou*)	20,000	–	–	20,000	2.00%	–
Subtotal	412,240	–	(270)	411,970		4,000
– Provision for impairment	(3,065)	–	–	(3,065)		–
Total	409,175	–	(270)	408,905		–

Available-for-sale equity instruments measured at historical cost mainly consists of equity investment of non-listed companies, which do not have quoted price in active market. The variation of reasonable estimate of fair value is large, and the probabilities used to determine the estimation can not be reasonably confirmed. Thus, the fair value can not be evaluated reliably. The Group so far do not have plan to dispose these investments.

Finance leases receivable-net	13,505,765	13,221,650
Sales of goods by instalments	235,898	325,592
Others	210,113	158,052
Sub-total	13,951,776	13,705,294
Less: provision for impairment	(452,449)	(485,052)
Total	13,499,327	13,220,242

At the end of 30 June 2017, there is no long-term receivables due from shareholders holding more than 5%(inclusive) of the voting rights of the company or related parties. (31 December 2016: Nil)

The total future minimum lease receipts under finance leases after the balance sheet date, which are based on contractual undiscounted cash flows (including interest payments computed using contractual rates or, if floating, based on rates current at the balance sheet date), are receivables as follows:

	30 June 2017	31 December 2016
Minimum lease receipts		
Within 1 year (inclusive)	5,677,533	5,467,492
1 and 2 years (inclusive)	3,746,417	3,608,636
2 and 3 years (inclusive)	2,543,013	2,261,810
Over 3 years	14,817,483	15,944,385
Sub-total	26,784,446	27,282,323
Less: unrealised finance income	(8,780,233)	(9,845,686)
Total	18,004,213	17,436,637

As at 30 June 2017, there is no long-term receivable derecognised due to transferring of financial assets in current period (31 December 2016: Nil).

Notes to the Financial Statements

For the period started from 1 January and ended 30 June 2017
(All amounts in RMB'000 unless otherwise stated)
(English Translation for Reference Only)

IV. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

12. Long-term receivables (Continued)

At the end of 30 June 2017, the Group's long-term receivables due from related parties amounted to 213,007,000 (31 December 2016: 107,298,000).

Notes to the Financial Statements

For the period started from 1 January and ended 30 June 2017

Refer to Note VI.2 for equity in associates.

The Group's investment ratios in TSC, LiHua Energy, Jiangsu Ruichen, Optton Inc (Shanghai), ZPMC, Cadro Hydraulic, Zhongyi Xinwei, Henan Yida and Shenzhen Road Network Technology Co., Ltd. are all below 20%. But since the Group has appointed directors to the above mentioned associates, the Group had significant influence over them. Thus, equity investments on these associates were evaluated subsequently by equity method.

As at 30 June 2017, except for MSC, there is no need for the Group to recognise provision for long-term equity investments in joint ventures and associates based on the provision testing result that compared the estimated recoverable amount and book value of long-term equity investments in joint ventures and associates (31 December 2016: Nil).

Notes to the Financial Statements

IV. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

21. Deferred tax assets and deferred tax liabilities (Continued)

(2) Unrecognised deferred tax assets

	30 June 2017	31 December 2016
Deductible losses	1,712,996	1,606,035
Impairment losses of SOE	634,426	340,729
Impairment losses of timber Concession rights	22,119	22,119
Others	3,125	3,125
Total	2,372,666	1,972,008

(3) Maturity of deductible losses that are not recognised as deferred tax assets:

	30 June 2017	31 December 2016
2017	1,296,480	1,199,243
2018	1,086,941	1,086,941
2019	437,892	340,655
2020	819,702	819,702
2021 and after 2021	4,149,817	4,149,817
Total	7,790,832	7,596,358

Note 1: By the end of 2016 and as at 30 June 2017, unrecognised deferred tax assets aged over 5 years (inclusive) arising from deductible tax losses resulted from foreign subsidiaries' operating losses. Deductible tax losses generated from Hong Kong, the United States of America, the United Kingdom of Great Britain and Australia can be offset with future profit indefinitely; deductible tax losses generated from the Netherlands can be offset in the subsequent nine years.

As at 30 June 2017, the Group is subject to an income tax on the difference of tax rates if its subsidiaries in Hong Kong and overseas decide to distribute dividends to the shareholders in mainland China. The temporary difference arising from the undistributed profits of such subsidiaries is approximately 3,630,258,000 (31 December 2016: 3,303,113,000). Since the Group can control the dividend distribution policy of its subsidiaries and has decided not to distribute dividends in the foreseeable future, the deferred income tax liabilities on such undistributed profits were not recognised.

The Group had no unrecognised deferred tax liabilities other than the mentioned above.

Notes to the Financial Statements

IV. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

28. Accounts payable (Continued)

(1) The Group's accounts payable is as follows: (Continued)

The aging analysis of accounts payable is as follows:

	30 June 2017	31 December 2016
Within 1 year (inclusive)	10,710,275	9,535,350
1 to 2 years (inclusive)	337,357	414,188
2 to 3 years (inclusive)	179,384	153,893
Over 3 years	118,162	57,520
Total	11,345,178	10,160,951

As at 30 June 2017, accounts payable over 1 year with a carrying amount of 634,903,000 (31 December 2016: 625,601,000) are mainly payables related to offshore engineering business. Since the production cycle of the offshore engineering project is usually more than one year, the payables have not yet been settled.

The aging is calculated from the date that the accounts payable is recognised.

(2) As at 30 June 2017, there was no accounts payable owed to shareholders holding more than 5% (including 5%) of the voting rights of the Group. Accounts payable owed to related parties are as listed follows:

Company name	Relationship with the Group	30 June 2017		31 December 2016	
		Amount	% of total balance	Amount	% of total balance
Y&C Engine	Joint Venture	38,931	0.34%	66,157	0.65%
TSC	Associates	13,807	0.12%	25,727	0.25%
Fujian Qingchen Bamboo Industry Co., Ltd.	Associates	10,496	0.09%	8,138	0.08%

Total		847,429	227,825	(123,973)	(187,597)	8,479	772,163

(1) The Group provides after-sales repair warranty to the customers, ranging from two to seven years for containers, one year for trailers, one to seven years for tank equipments, one to two years for airport ground facilities and one year for offshore business after delivery of vessels. The Group will provide repair and maintenance services in accordance with sales contracts during the warranty period in the event of any non-accidental breakdown or quality problems. The balance of "Provisions - Warranties for product quality" represents the Group's estimated obligation for such warranties of products sold out during the year and in the previous fiscal years.

(2) HI, one of the subsidiaries, provides the guarantee for the banking loans by which the customers buy vehicle products from HI. HI would accrue a provision for the ending balance of the loan guarantee, considering the credit quality.

39. Debentures payable

	31 December 2016	Current issue	30 June 2017
Medium-term notes	7,986,500	–	7,986,500

(1) Related information is as follows:

Debenture name	Par value	Issuance date	Maturity	Issuance amount
Medium-term notes -16CIMC MTN1 (i)	3,500,000	11 August 2016	3 years	3,500,000
Medium-term notes -16CIMC MTN2 (i)	2,500,000	22 August 2016	3 years	2,500,000
Medium-term notes -16CIMC MTN3 (ii)	2,000,000	17 October 2016	3+N years	1,986,500
Total	8,000,000			7,986,500

- (i) The Company can issue medium-term notes in the national inter-bank bond market. The company issued medium-term notes (MTN) with amount of 3.5 billion on 11 August 2016 with a ceiling of 6 billion to institutional investors in the national inter-bank bond market; with par value of 100 per note and fixed interest rate of 3.07% per annum. Interest is to be paid on 11 August each year in the arrears until redemption and par value to be paid on 11 August 2019. The notes are unsecured and targets institutional investors in the national inter-bank market. As at 22 August 2016, the Company made the second issue with amount of 2.5 billion with par value of 100 per note and fixed interest rate of 3.15% per annum was successfully issued publicly. Interest is to be paid on 22nd August each year in the arrears until redemption and par value to be paid on 22 August 2019. The notes are unsecured and targets institutional investors in the national inter-bank market.
- (ii) As at 17 October 2016, the Company issued medium-term notes with amount of 2 billion at face value. The net amount after deducting the issue fee was 1,986,500,000. The medium-term notes are issued for general corporate finance purposes. The first three interest-bearing years are accrued at an interest rate of 3.89% per annum and are paid annually from October 14, 2017 and the Company can choose a deferred interest payment. From the fourth interest-bearing year, the coupon rate is reset every 3 years. The medium-term notes have no fixed expiry dates and may be redeemed by the Company on or after October 14, 2019 at their nominal value, together with a payment of any accrued, unpaid or deferred interest. Before the settlement of deferred interest (including the interest of deferred interest), the issuer can not distribute dividend, reduce capital or any other payment to securities that are inferior to the midterm notes. As a result of the holder's protection clause, without the waiver of the note holder, the Company is required to repay the principal and interest if the Company and subsidiaries that it hold is more than 80% equity has failed to settle any financial institution loans due or exceed the agreed amount. Therefore, the medium term notes are treated as liabilities.

IV. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

43. Other non-current liabilities

	Note	30 June 2017	31 December 2016
Capital increment from strategic investors	(1)(2)	1,549,826	1,549,826
Commitment of dividends to minority shareholders	IV.5(7)(i)	487,632	487,632
Platform special inspection fees	(3)	73,421	73,421
Rental advance		11,576	12,677
Others		114,359	–
Total		2,236,814	2,123,556

- (1) As at 18 December 2015, Shanghai Taifuxiangzhong Private Equity Fund (Limited Partnership), Nanshan Dacheng New Material Investing Partnerships (LLP), Sumitomo Corporation and Shenzhen Dragon-Source Harbor City Investing Development Co., Ltd.(together referred to as "new strategic investors") entered an additional investment on CIMC Vehicle (Group) (referred to as "HI") contract with the Company, China Resources Shenzhen International Trust Investment Co., Ltd and China International Marine Containers (Hong Kong) Limited (together referred to as "original shareholders"); in January 2016, new strategic investors provide additional investment on HI USD166,173,000 (equivalent to RMB1,089,580,000), USD15,233,000 (equivalent to RMB100,000,000); in December 2015, new strategic investors provide additional investment on HI amounted to USD9,288,117 (equivalent to RMB60,246,000, based on the investing payment date exchange rate) and 100,000,000 respectively; after the additional investing, their shares on HI will be 16.822%, 1.544%, 0.929% and 1.544% of whole HI shares. Also, the contract regulates that if HI cannot launch a valid IPO before 31 December 2020, new strategic investors (except Shenzhen Dragon-Source Harbor City Investing Development Co., Ltd.) would have the right to ask the Company to repurchase their shares on HI in the form of cash. The repurchase price should be the sum of (a) the subscription price that the individual new strategic investor actually paid in this additional investing and (b) the total interest calculated based on 8% single interest per year and the period covered from the date of the subscription price actually paid to the date the controlling shareholders fully pay the repurchase amount.

The equity of HI that the investors have right to ask repurchase should be fully recognised as a liability because of the existence of right of repurchase: As at 30 June 2017, the relevant liability was 1,249,826,000 (31 December 2016: 1,249,826,000).

45. Other equity instruments

	31 December 2016	Current period issuance	Other changes in current period	Paid in current	30 June 2017
Perpetual bonds	2,049,035	–	35,908	(103,800)	1,981,143

	31 December 2015	Current year issuance	Other changes in current year	Paid in current	31 December 2016
Perpetual bonds	2,033,043	–	119,792	(103,800)	2,049,035

As at 16 June 2015, the Group issue unsecured perpetual bond at par value of 2,000 million. The net value amounted to 1,981,143,000 after the deduction of issue expenses. The equity instrument was issued for common corporate financing. The interest rate is 5.19% per annum at the first 3 interest-bearing year. The interest is paid once a year and the Group can choose to defer the payment. As of the fourth interest-bearing year, the coupon rate is reset every 3 years. This instrument has no settled maturity date, and the Group can choose to buy it back at the par value together with any accrued, unpaid or deferred interest after 16 June 2018 or later. Before the settlement of deferred interest (including the interest of deferred interest), the issuer can not distribute dividend, reduce capital or any other payment to securities that are inferior to the midterm notes of current period.

V. CHANGES IN THE SCOPE OF CONSOLIDATION

1. Business combinations involving enterprises not under common control

There is no significant business combination involving enterprises not under common control for the current period.

2. Disposal of subsidiaries

There is no loss of control of subsidiaries by disposal of equity interest for the current period.

VI. EQUITY IN OTHER ENTITIES

1. Equity in subsidiaries

All subsidiaries of the Group were established or acquired through combination not under common control. There is no acquisition of subsidiaries through combination under common control.

As at 30 June 2017, the numbers of companies included in the scope of consolidation added up to 621. Except for the important subsidiaries listed as below, the number of other subsidiaries held by the Group was 360, with paid-in capital amounting to 758,912,000. Other subsidiaries mainly included those engaged in manufacturing or service provision, which have relatively small scale of operation and the paid-in capital was below 20 million or USD3 million. Other subsidiaries also included those investment holding companies with no operating activities registered in Hong Kong, British Virgin Islands or other overseas countries.

IX. SHARE-BASED PAYMENTS (CONTINUED)

2. Information on equity-settled share-based payment

(1) Information on equity-settled share-based payment of Enric

Enric, a subsidiary of the Company, carried out a share options plan (the "Plan I"), which was approved by the shareholders' meeting on 11 November 2009. According to the Plan, the key management personnel and other employees in Enric were granted share options of Enric at nil consideration to subscribe for shares of Enric. The options are 50% exercisable after one year from the date of grant and are then 100% exercisable after two years from the date of grant. Each option gives the holder the right to subscribe for one ordinary share in Enric. The total number of share options granted was 43,750,000, with the exercise price of HKD4 per share.

Enric carried out another share options plan (the "Plan II"), which was approved by the shareholders' meeting on 28 October 2011. According to Plan II, the board of directors of the Company was authorised to grant share options to the key management personnel and other employees of Enric at nil consideration to subscribe for shares of Enric. The options are 40% exercisable after one year from the date of grant and, 70% exercisable after 2 years from the date of grant, and then 100% exercisable after 3 years from the date of grant. Each option gives the holder the right to subscribe for one ordinary share in Enric. The total number of share options granted was 38,200,000, with exercise price of HKD2.48 per share.

Enric, a subsidiary of the Company, carried out a share options plan (the "Plan III"), which was approved by the shareholders' meeting on 5 June 2014. According to the Plan, the key management personnel and other employees in Enric were granted share options of Enric at nil consideration to subscribe for shares of Enric. The options are 40% exercisable after two years from the date of grant, 70% exercisable after three years from the date of grant and 100% exercisable after four years from the date of grant. Each option gives the holder the right to subscribe for one ordinary share in Enric. The total number of share options granted was 38,420,000, with the exercise price of HKD11.24 per share.

Movement of share options of Enric:

	30 June 2017 '000	31 December 2016 '000
Beginning balance	83,572	86,599
Granted in current period	-	-
Exercised in current period	(1,676)	(1,211)
Cancelled in current period	(162)	(1,776)
Forfeited in current period	(132)	(40)
Ending balance	81,602	83,572

Notes to the Financial Statements

For the period started from 1 January and ended 30 June 2017

(All amounts in RMB'000 unless otherwise stated)

(English Translation for Reference Only)

IX. SHARE-BASED PAYMENTS (CONTINUED)

2. Information on equity-settled share-based payment (Continued)

(2) Information on equity-settled share-based payment of the Company

A share options scheme (the "Scheme") was approved in the shareholders' meeting of the Company held on 28 September 2010. According to the Scheme, the board of directors of the Company was authorised to grant share options to the key management personnel and other employees to subscribe for the shares of the Company. The effective period of the Scheme is ten years from the first grant date of share options. The options are exercisable in two periods. The options are 25% exercisable from the first transaction date after 24 months since the grant date to the last transaction date after 48 months since grant date. The remaining 75% are exercisable from the first transaction date after 48 months since grant date to the last transaction date of the Scheme. Each option gives the holder the right to subscribe for one ordinary share in the Company. In addition, the holder must simultaneously satisfy all the conditions as follows:

- (a) The holder should pass the previous year's evaluation.
- (b) The increase of net profit attributable to ordinary shareholders of the Company after deducting nonrecurring profit or loss should not be lower than the 6% and the average return on net assets after deducting non-recurring profit or loss should not be lower than 10% for the previous year of the exercise date.
- (c) During the waiting period, the net profit attributable to ordinary shareholders of the Company and the net profit attributable to ordinary shareholders of the Company after deducting non-recurring profit or loss should not be lower than the average figures of the three fiscal years before the grant day or negative.

The total number of share options granted was 60,000,000, 54,000,000 among which were for the initial grant with exercise price of 12.39 per share while the remaining 6,000,000 options were for reservation.

The Company distributed a cash dividend of 0.35 per share, 0.46 per share, 0.23 per share, 0.27, 0.31 per share, 0.22 per share and 0.06 per share as at 31 May 2011, 21 June 2012, 28 June 2013, 27 June 2014, 29 July 2015, 20 July 2016 and 20 July 2017 respectively to ordinary shareholders. In accordance with the Scheme, upon the implementation of the annual dividend distribution plan for 2010, 2011, 2012, 2013, 2014, 2015 and 2016, the Board of Directors adjusted the exercise price of the aforementioned 54,000,000 share options granted on 28 September 2010. After the adjustment, the exercise price is 10.49 per share.

According to the resolution approved by the shareholders' meeting on 22 September 2011, the aforementioned 6,000,000 share options for reservation in the Scheme on 28 September 2010 were granted with exercise price of 17.57 per share. With the implementation of annual dividend distribution plan for 2011, 2012, 2013, 2014, 2015 and 2016 to ordinary shareholders with cash dividend of 0.46, 0.23, 0.27, 0.31, 0.22 and 0.06 respectively, the exercise price for the reserved share options was adjusted to 16.02 per share.

X. CONTINGENCIES (CONTINUED)

3. Notes payable issued but not accounted for, outstanding letter of credit issued but undue and outstanding performance guarantees (Continued)

As at 30 June 2017, QDHFL, the subsidiary of the Group, had outstanding balance of performance guarantees issued by relevant banks totalling RMB83,000 (31 December 2016: Nil).

As at 30 June 2017, LYV, the subsidiary of the Group, had outstanding balance of performance guarantees issued by relevant banks totalling RMB1,702,000 (31 December 2016: Nil).

As at 30 June 2017, ZZCIMC, the subsidiary of the Group, had outstanding balance of performance guarantees issued by relevant banks totalling RMB18,392,000 (31 December 2016: Nil).

As at 30 June 2017, YanTai Tiezhongbao, the subsidiary of the Group, had outstanding balance of performance guarantees issued by relevant banks was RMB255,000 and USD868,000 (totally equivalent to RMB6,136,000). (31 December 2016: Nil).

As at 30 June 2017, QDCSR, the subsidiary of the Group, had outstanding balance of performance guarantees issued by relevant banks totalling RMB3,200,000 (31 December 2016: Nil).

As at 30 June 2017, QDCC, the subsidiary of the Group, had outstanding balance of performance guarantees issued by relevant banks totalling RMB59,734,000 (31 December 2016: Nil).

As at 30 June 2017, Ziegler, the subsidiary of the Group, had outstanding balance of performance guarantees issued by relevant banks totaling EUR1,295,000 (equivalent to RMB10,039,000). (31 December 2016: Nil).

As at 30 June 2017, Verbus, the subsidiary of the Group, had outstanding balance of performance guarantees issued by relevant banks totaling GBP 5,947,000 (equivalent to RMB52,395,000). (31 December 2016: Nil).

4. Significant pending litigations

CIMC Raffles, a subsidiary of the Company entered into drilling platform construction contracts, and the platform had been delivered to the purchasers in 2015. The purchasers believed that the deliverables cannot fulfill the technical requirements written in the construction contract, hence they asked Raffles to pay them compensation amounted to USD2,000,000. As at the report date, the final result of the litigation has not been reached. The management team of Raffles expected there is high risk to pay the compensation, hence they decided to accrue a provision valued USD2,000,000 (equivalent to RMB13,550,000) at 30 June 2017 (31 December 2016: RMB13,874,000).

XIII. SEGMENT REPORTING

In accordance with the Group's internal organisation structure, management requirement and internal reporting process, nine reportable segments are identified by the Group including: Containers, Road transportation vehicles, Energy and chemistry & food equipment, Offshore business, Airport facilities, Logistic services, Finance, Property development and Heavy trucks. Each reportable segment is an independent business segment providing different products and services. Independent management is applied to individual business segment as different technical and market strategy are adopted. The Group reviews the financial information of individual segment regularly to determine resources allocation and performance assessment.

1. Segment profits, losses, assets and liabilities

In order to assess the segment performance and resources allocation, the Group's management review segment revenue, expenses, assets and liabilities of each segment regularly. The preparation basis of such information is detailed as follows:

Segment assets include tangible assets, intangible assets, other long-term assets and accounts receivable, etc, but exclude deferred tax assets and other un-allocated headquarter assets. Segment liabilities include payables, bank loans, provision, special payables and other liabilities, while deferred tax liabilities are exclude.

Segment profit represents revenue (including external revenue and inter-segment revenue), offsetting segment expenses, depreciation and amortisation, impairment losses, interest expenses and income attributable to individual segment. Transactions conducted among segments are under normal non-related party transaction commercial terms.

XIV. FINANCIAL RISK AND FAIR VALUES ESTIMATES

The Group has exposure to the following risks from its use of financial instruments in the normal course of the Group's operations, which mainly include:

- Credit risk
- Liquidity risk
- Interest rate risk
- Foreign exchange risk

This note presents information about the Group's exposure to each of the above risks and their sources, the Group's objectives, policies and processes for measuring and managing risks and etc.

The Group aims to seek the appropriate balance between the risks and benefits from its use of financial instruments and to mitigate the adverse effects that the risks of financial instruments have on the Group's financial performance. Based on such objectives, the Group's risk management policies are established to identify and analyses the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The internal audit department of the Group undertakes both regular and ad-hoc reviews of risk management controls and procedures.

XIV. FINANCIAL RISK AND FAIR VALUES ESTIMATES (CONTINUED)

1. Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The Group's credit risk is primarily attributable to cash at bank, receivables, debt investments and derivative financial instruments entered into for hedging purposes and etc. Exposure to these credit risks are monitored by management on an ongoing basis.

The cash at bank of the Group is mainly held with well-known financial institutions. Management does not foresee any significant credit risks from these deposits and does not expect that these financial institutions may default and cause losses to the Group.

In respect of receivables, the risk management committee of the Group has established a credit policy under which individual credit evaluations are performed on all customers to determine the credit limit and terms applicable to the customers. These evaluations focus on the external ratings of the customers and their bank credit records where available and previous payment records (if available). Receivables are due within from 30 to 90 days from the date of billing. Normally, the Group does not obtain collateral from customers, but earnest or prepayment money is requested sometimes due to the customer's situation.

The management team of the Group had made the plan for financial leasing receivable risk management, based on the research on its own industries, the credit rating of counterparties and the knowledge of the counterparties' businesses and financial standings. If the default of contract occurs, the management team of the Group may ask for returning, withdrawing or selling leased property, depending on the applicableness in individual cases. If the delay of repayment occurs, the management team keeps the right to collect the default interest based on the amount of overdue repayment and default interest rate, until the overdue payment will have been paid. In addition, the management team may ask for the deposit which can be paid for the money owed by the lessee, depending on individual cases. When the Group assesses the credit risk, its strategy is to manage, restrict and control the over-concentration of the credit risk, especially, regularly assessing lessee's ability to make the repayment.

Based on the indicators such as assets conditions and profit forecast of the associates and joint ventures, the Group provide funds to them and continuously monitor the project progress and business condition, to ensure the recoverability of fund.

In addition, the receivables of the Group that are neither overdue nor impaired mainly due from a wide range of customers for whom there was no recent history of default.

The Group's exposure to credit risk is influenced mainly by the individual characteristics and industries of each customer rather than country or area in which the customers operate. And therefore significant concentrations of credit risk arise primarily when the Group has significant exposure to individual customers. At the balance sheet date, the Group and the Company had a certain concentration of credit risk, as 29.12% (2016: 30.89%) of the total accounts receivable and other receivables were due from the five largest customers of the Group.

Investments are normally made only to liquid securities quoted on a recognised stock exchange(except for investments for long-term strategic purposes). Besides, the credit rating of counterparty should be the same or above the Group. For transactions involving derivative financial instruments, counterparties should have sound credit ratings and with whom the Group has a signed netting ISDA agreement (International Swap Derivative Association). Given their high credit ratings, management does not expect any investment counterparty to fail to meet its obligations.

The maximum exposure to credit risk is represented by the carrying amount of each financial asset, including derivative financial instruments, as in the balance sheet. Except for the financial guarantees given by the Group as set out in Note X, the Group and the Company do not provide any other guarantees which would expose the Group or the Company to credit risk. The maximum exposure to credit risk in respect of these financial guarantees at the balance sheet date is disclosed in Note X.

Notes to the Financial Statements

XIV. FINANCIAL RISK AND FAIR VALUES ESTIMATES (CONTINUED)

2. Liquidity risk

Liquidity risk is the risk that an enterprise may encounter deficiency of funds in meeting obligations associated with financial liabilities. The Company is responsible for the cash management, including short term investment of cash surpluses and the raising of loans to cover expected cash demands, for individual subsidiaries subject to approval by the Company's board when the borrowings exceed certain predetermined levels of authority. The Group's policy is to regularly monitor its short-term and long-term liquidity requirements and its compliance with lending covenants, to ensure that it maintains sufficient reserves of cash and readily realisable marketable securities.

The following tables show the remaining contractual maturities at the balance sheet date of the Group's financial assets and financial liabilities, which are based on contractual undiscounted cash flows (including interest payments computed using contractual rates or if floating, based on prevailing interest rates at 30 June) and the earliest date the Group can be required to pay:

	30 June 2017					Total	Carrying amount at balance sheet date
	Undiscounted contractual cash flow						
	Within 1 year or on demand	1 to 2 years	2 to 5 years	Over 5 years			
Financial assets							
Cash at bank and on hand	5,737,102	-	-	-	5,737,102	5,737,102	
Financial assets at fair value through profit or loss	187,117	-	249,034	-	436,151	436,151

XIV. FINANCIAL RISK AND FAIR VALUES ESTIMATES (CONTINUED)

3. Interest rate risk (Continued)

(2) Sensitivity analysis

As at 30 June 2017, it is estimated that a general increase/decrease of 25 basis points (31 December 2016: 25 basis points) in interest rates, with all other variables held constant, would increase/decrease the Group's net profit by 56,922,000 and equity by 56,922,000 (2016: 60,931,000 and 60,931,000, respectively).

The sensitivity analysis above indicates the instantaneous change in the net profit and equity that would arise assuming that the change in interest rate had occurred at the balance sheet date and had been applied to re-measure those financial instruments held by the Group which expose the Group to fair value interest rate risk at the balance sheet date. In respect of the exposure to cash flow interest rate risk arising from floating rate non-derivative instruments held by the Group at the balance sheet date, the impact on the net profit and equity is estimated as an annualised impact on interest expense or income of such a change in interest rates. The analysis was performed on the same basis for the previous year.

4. Foreign exchange risk

The major currency received by the Group is USD and the major currency paid out is RMB. In order to avoid the risks resulting from the fluctuation of the exchange rate of RMB, in respect of accounts receivable and payables denominated in foreign currencies, the Group ensures that its net exposure is kept to an acceptable level by buying or selling foreign currencies at spot rates when necessary to address short-term imbalances.

- (1) Besides the exposure to currency risk arising from financial assets at fair value through profit or loss and financial liabilities at fair value through profit or loss disclosed in Note IV.2 and IV.26, the Group's exposure as at 30 June to currency risk arising from recognised assets or liabilities denominated in foreign currencies is follows. For presentation purposes, the amounts of the exposure are shown in RMB, translated using the spot rate at the balance sheet date. Differences resulting from the translation of the financial statements denominated in foreign currency are excluded.

	30 June 2017				31 December 2016			
	USD	EUR	HKD	JPY	USD	EUR	HKD	JPY
Cash at bank and on hand	677,567	1,513,464	32,959	24,414	823,367	1,169,615	40,023	44,700
Receivables	7,480,210	165,053	18,293	26,586	3,612,395	254,069	18,353	82,916
Short-term borrowings	(6,949,798)	(623,954)	-	-	(5,759,019)	(61,487)	-	(7,169)
Long-term borrowings	(12,385,960)	-	(215,244)	-	(14,736,500)	-	(132,386)	-
Payables	(487,959)	(113,654)	(614)	-	(1,023,302)	(118,003)	(30,414)	-
Current portion of non-current liabilities	(13,549)	-	-	-	(2,710,684)	-	-	-
Gross balance sheet exposure	(11,679,489)	940,909	(164,606)	51,000	(19,793,743)	1,244,194	(104,424)	120,447

Notes to the Financial Statements

For the period started from 1 January and ended 30 June 2017

(All amounts in RMB'000 unless otherwise stated)

(English Translation for Reference Only)

XIV. FINANCIAL RISK AND FAIR VALUES ESTIMATES (CONTINUED)

4. Foreign exchange risk (Continued)

(2) The following are the exchange rates for RMB against foreign currencies applied by the Group and the Company:

	Average exchange rate		Benchmark average exchange rate	
	For the Period from 1 January to 30 June 2017	For the Period from 1 January to 30 June 2016	30 June 2017	31 December 2016
USD	6.8871	6.5359	6.7744	6.6312
EUR	7.4349	7.2993	7.7496	7.3750
HKD	0.8857	0.8418	0.8679	0.8547
JPY	0.0616	0.0590	0.0605	0.0645

(3) Sensitivity analysis

Assuming all other risk variables remained constant, 2.80%, 2.80%, 2.70% and 1.90% weakening of the RMB against the USD, EUR, HKD and JPY respectively at 30 June 2017 (2.80%, 2.80%, 2.70% and 1.90% strengthening of the RMB against the USD, EUR, HKD, and JPY respectively at 31 December 2016) would have increased (decreased) equity and net profit by the amount shown below; whose effect is in RMB and translated using the spot rate at the balance sheet date:

	Equity	Net profit
30 June 2017		
USD	(245,269)	(245,269)
EUR	19,759	19,759
HKD	(3,333)	(3,333)
JPY	727	727
Total	(228,116)	(228,116)
31 December 2016		
USD	(415,669)	(415,669)
EUR	26,128	26,128
HKD	(2,115)	(2,115)
JPY	1,716	1,716
Total	(389,940)	(389,940)

2.80%, 2.80%, 2.70% and 1.90% strengthening of the RMB against USD, EUR, HKD and JPY respectively at 30 June 2017 (2.80%, 2.80%, 2.70% and 1.90% weakening of the RMB against the USD, EUR, HKD, and JPY respectively at 31 December 2016) would have had the equal but opposite effect on the amounts shown above, on the basis that all other variables remain constant.

Notes to the Financial Statements

277

For the period started from 1 January and ended 30 June 2017
(All amounts in RMB'000 unless otherwise stated)
(English Translation for Reference Only)

XIV. FINANCIAL RISK AND FAIR VALUES ESTIMATES (CONTINUED)

4. Foreign exchange risk (Continued)

(3) Sensitivity analysis (Continued)

The sensitivity analysis above assumes that the change in foreign exchange rates had been applied to re-measure those financial instruments held by the Group which expose the Group to foreign currency risk at the balance sheet date, the analysis excludes differences that would result from the translation of the financial statements denominated in foreign currency. The analysis is performed on the same basis for the previous year.

The above sensitive analysis does not include exposure to currency risk arising from foreign future contracts, Japanese Yen exchange option and swap contract for interest rate disclosed in Note IV.2 and IV.26 about financial assets at fair value through profit or loss and financial liabilities at fair value through profit or loss, but the change in exchange rate may have effect on shareholders' equity and net profit.

5. Other price risks

Other price risks are stock price risk. As at 30 June 2017, the Group held 40,414,000 tradable shares of Qingdao Port International Co., Ltd., 2,996,500 tradable shares of Sinotrans Shipping Limited, etc.

As at 30 June 2017, it is estimated that a general increase/decrease of the comprehensive index of shares 5.00% (31 December 2016: 5.00%), with all other variables held constant, would increase/decrease the Group's shareholders' equity by 9,158,000 (31 December 2016: 6,651,000).

The sensitivity analysis above arise assuming that the change in the comprehensive index of shares occurred at the balance sheet date in the reasonable range and had been applied to remeasure all those investments in securities held by the Group. The sensitivity analysis is also based on another assumption, namely, the fair value of the investments in securities held by the Group is relevant to composite index of stock market, and available-for-sales securities investment has same risk factor as trading securities investment, and all other variables held constant. 20.00% change in the comprehensive index of shares is a reasonable expectation of the Group for the period from the balance date to the next balance sheet date.

Notes to the Financial Statements

For the period started from 1 January and ended 30 June 2017

(All amounts in RMB'000 unless otherwise stated)

(English Translation for Reference Only)

XIV. FINANCIAL RISK AND FAIR VALUES ESTIMATES (CONTINUED)

6. Fair value estimates

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices);

Level 3: Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

(1) Assets measured at fair value on a recurring basis

The following table presents the Group's assets and liabilities that are measured at fair value in the above three levels As at 30 June 2017:

Assets	Note	Level 1	Level 2	Level 3	Total
Financial assets					
Financial assets at fair value through profit or loss					
Investments in equity instrument held for trading	IV.2	180,357	-	-	180,357

XIV. FINANCIAL RISK AND FAIR VALUES ESTIMATES (CONTINUED)

6. Fair value estimates (Continued)

(1) Assets measured at fair value on a recurring basis (Continued)

The following table presents the Group's assets and liabilities that are measured at fair value in the above three levels as at 31 December 2016:

Assets	Note	Level 1	Level 2	Level 3	Total
Financial assets					
Financial assets at fair value through profit or loss					
Investments in equity instrument held for trading	IV.2	138,072	–	–	138,072
Derivative financial assets	IV.2	–	326,969	–	326,969
Hedging instruments	IV.2	–	1,306	–	1,306
Available-for-sale financial assets	IV.11	2,441	30,803	–	33,244
Financial assets total		140,513	359,078	–	499,591
Non-financial assets					
Investment properties	IV.14	–	–	1,752,608	1,752,608
Total		140,513	359,078	1,752,608	2,252,199
Liabilities					
Financial liabilities at fair value through profit or loss					
Derivative financial liabilities	IV.26	–	(15,838)	–	(15,838)
Hedging Instrument	IV.26	–	(4,244)	–	(4,244)
Financial guarantee contracts	IV.26	–	–	(57,419)	(57,419)
Contingent considerations	IV.26	–	–	(125,540)	(125,540)
Total		–	(20,082)	(182,959)	(203,041)

The Group make the date when matters occurred which result in significant transfers between instruments in the three levels as the point of transfer. During the year ended 31 December 2016, there were no significant transfers between instruments in Level 1 and Level 2 neither nor Level 2 and Level 3.

For traded in active markets financial instruments, the group measures its fair value at an active market price; for not traded in active markets financial instruments, the group uses valuation techniques to determine the fair value. Valuation model mainly used are the discounted cash flow model and market comparable company model etc. Input values of the valuation techniques include the risk free interest rate, benchmark interest rate, exchange rate, credit spreads, liquidity premium, EBITDA multiplier, the lack of liquidity discount etc.

Notes to the Financial Statements

6. Fair value estimates (Continued)

(1) Assets measured at fair value on a recurring basis (Continued)

The following table presents the information of the assets measured at fair value in Level 3:

	Fair value as at 30 June 2017	Valuation techniques	Name	Significant unobservable inputs		
				Scope/weighted average	Relationship with fair value	Observable/ Unobservable
Investment properties- Completed investment properties	1,126,654	Income model Cost model	Rate of return/capitalisation rate	6%-8%		
			Monthly rental (RMB/square meter/month)	7-9%	(a)	Unobservable
			Budgeted construction cost to be incurred (RMB/square meter)	650-4,600		
			Anticipated developer's profit margin	9%-12%	(a)	Unobservable
Land use rights	595,411	Direct comparison	Market price (RMB/square meter)	450-2200	(a)	Unobservable

(a) The relationship of unobservable inputs to fair value are as follows:

- The higher of the rate of return/capitalisation rate, the lower of fair value;
- The higher of the expected vacancy rate, the lower of fair value;
- The higher of the monthly rental, the higher of the fair value;
- The higher of the market price, the higher of the fair value;
- The higher of the budgeted construction cost to be incurred, the lower of the fair value;
- The higher of the anticipated developer's profit margin, the lower of the fair value.

Notes to the Financial Statements

For the period started from 1 January and ended 30 June 2017

(All amounts in RMB'000 unless otherwise stated)

(English Translation for Reference Only)

XIV. FINANCIAL RISK AND FAIR VALUES ESTIMATES (CONTINUED)

6. Fair value estimates (Continued)

(1) Assets measured at fair value on a recurring basis (Continued)

	Fair value as at 31 December 2016	Valuation techniques	Name	Significant unobservable inputs		
				Scope/weighted average	Relationship with fair value	Observable/ Unobservable
Investment properties-	1,139,285		Rate of return/capitalisation rate	6%-8%		
Completed investment property		Income model	Monthly rental (RMB/square meter/month)	7-95	(a)	Unobservable
		Cost model	Budgeted construction cost to be incurred (RMB/square meter)	650-4,600		
			Anticipated developer's profit margin	9%-12%	(a)	Unobservable
Land use rights	613,323	Direct comparison	Market price (RMB/square meter)	450-2200	(a)	Unobservable

(2) Assets measured at fair value on a non-recurring basis

The non-current assets held for sale are measured at the lower of the book value and the fair value less the disposal expenses. As at 30 June 2017, the Group's assets classified as available for sale include investment properties of RMB26,401,000, fixed assets of RMB92,269,000 and intangible assets of RMB85,177,000, measured at fair value less disposal expenses (Note IV.8). The fair value is estimated based on the present value of estimated future cash flows (RMB26,401,000, RMB115,743,000 and RMB97,563,000), which belongs to the third level.

(3) Assets and liabilities not measured at fair value but for which the fair value is disclosed

Financial assets and liabilities in the group measured by the amortised cost method of including: accounts receivable, short-term borrowings, accounts payable, long-term borrowings, debentures payables, long-term payables etc.

As at 30 June 2017, all financial instruments are carried at amounts not materially different from their fair value.

There is an active market for bonds payable and fair value is determined by the quotations in the active market, which belongs to the first level. Fair value of long-term borrowings, long-term payables and debentures payables with no active market is determined by the discounted future cash flow of the contract in accordance with interest that is comparable and offer the same cash flow under the same conditions, which belongs to the third level.

Notes to the Financial Statements

For the period started from 1 January and ended 30 June 2017
 (All amounts in RMB'000 unless otherwise stated)
 (English Translation for Reference Only)

XIV. FINANCIAL RISK AND FAIR VALUES ESTIMATES (CONTINUED)

6. Fair value estimates (Continued)

(4) Estimation and assumption of fair values

The following summarises the major methods and assumptions used in estimating the fair values of financial assets at fair value through profit or loss and financial liabilities at fair value through profit or loss, available-for-sale financial assets on the balance sheet date.

() Available-for-sale financial assets

Fair value is based on quoted market prices at the balance sheet date for fair values of financial assets at fair value through profit or loss and financial liabilities at fair value through profit or loss (excluding derivatives), and available-for-sale financial assets if there is an active market.

() Financial assets

The fair value is estimated as the present value of the future cash flows, discounted at the market interest rates at the balance sheet date.

() Financial liabilities, including borrowings, debentures payable, long-term payables and other non-derivatives financial liabilities

The fair value of borrowings, debentures payable, long-term payables and other non-derivatives financial liabilities is estimated as the present value of future cash flows, discounted at the market rate of interest at the balance sheet date.

() Forward exchange contracts and interest rate swaps

The fair value of forward exchange contracts is either based on their listed market prices or by discounting the contractual forward price and deducting the current spot rate. The fair value of interest rate swaps is based on broker quotes. The quotes are tested for reasonableness by discounting estimated future cash flows based on the terms and maturity of each contract and using market interest rates for a similar interest rate instrument at the measurement date.

() Financial guarantees issued

The fair value of financial guarantees issued is determined by reference to fees charged in an arm's length transaction for similar services, when such information is obtainable, or is otherwise estimated by reference to interest rate differentials, by comparing the actual rates charged by lenders when the guarantee is made available with the estimated rates that the lenders would have charged, had the guarantees not been available, where reliable estimates of such information can be made.

Notes to the Financial Statements

For the period started from 1 January and ended 30 June 2017

XV. CAPITAL MANAGEMENT

The Group's objectives of managing capital are to safeguard the group's ability of sustainable development in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

Total capital of the group is shareholders' equity shown in the consolidated balance sheet. The group is not subject to external mandatory capital requirements, and use debt to asset ratio to monitor capital.

The Group monitors capital on the basis of Debt-Asset ratio. This ratio is calculated as total liabilities divided by total assets.

In 2017, the Group manages capital status by controlling the Debt-Asset ratio not to exceed 70% (2016: not to exceed 70%). The Debt-Asset ratio as at 30 June 2017 and 31 December 2016 were as follows:

	30 June 2017	31 December 2016
Total Liability	89,626,971	85,479,956
Total Assets	129,498,854	124,614,748
Debt-Asset Ratio	69%	69%

XVI. NOTES TO THE HOLDING COMPANY'S FINANCIAL STATEMENTS

1. Cash at bank and on hand

	30 June 2017	31 December 2016
Bank deposits	2,292,935	2,647,574
Other cash balances	7,391	12,648
	2,300,326	2,660,222
Including: cash abroad	503	519

As at 30 June 2017, restricted cash at bank and on hand of the Company amounted to RMB503,000 (31 December 2016: RMB2,752,000).

As at 30 June 2017, the fixed deposit of the Company in the Financial Company, a subsidiary of the Group, was RMB1,594,000,000 (31 December 2016: RMB942,000,000).

XVI. NOTES TO THE HOLDING COMPANY'S FINANCIAL STATEMENTS (CONTINUED)

3. Other receivables (Continued)

(2) Other receivables are analysed by aging as follows:

Aging	30 June 2017	31 December 2016
Within 1 year (Inclusive)	9,525,395	9,642,304
1 to 2 years (Inclusive)	1,528,555	1,530,022
2 to 3 years (Inclusive)	587,541	574,631
Over 3 years	1,331,663	1,389,039
Sub-total	12,973,154	13,135,996
Less: provision for bad debts	(4,580)	(4,580)
Total	12,968,574	13,131,416

The ageing is calculated starting from the date the other receivable is recognised.

As at 30 June 2017 and 31 December 2016, the Company did not have overdue other receivables that were not impaired.

(3) Other receivables are analysed by categories as follows:

Note	30 June 2017				31 December 2016			
	Ending balance		Provision for doubtful debts		Ending balance		Provision for doubtful debts	
	% of total		% of total		% of total		% of total	
	Amount	balance	Amount	balance	Amount	balance	Amount	balance
Other receivables with amounts that are individually significant (4)	12,873,563	99.23%	-	-	13,066,919	99.47%	-	-
Other receivables with amounts that are not individually significant (5)	99,591	0.77%	4,580	4.60%	69,077	0.53%	4,580	6.63%
Total	12,973,154	100.00%	4,580	0.04%	13,135,996	100.00%	4,580	0.03%

There were no collaterals that the Company held for other receivables that were made impairment aforesaid.

XVI.NOTES TO THE HOLDING COMPANY'S FINANCIAL STATEMENTS (CONTINUED)

3. Other receivables (Continued)

(9) As at 30 June 2017, the five largest other receivables are analysed as follows:

	Nature	Amount	Aging	% of total balance	Provision for doubtful debts
CIMC Hong Kong	fund transfer, daily transfer	3,612,395	Within 1 year	27.85%	–
C&C Trucks	fund transfer	1,421,641	Within 1 year, 1 to 2 years, 2 to 3 years	10.96%	–
Hongxin Berg	fund transfer	1,098,758	Within 1 year	8.47%	–
CIMCVL and its subsidiaries	fund transfer	849,639	Within 1 year	6.55%	–
Tianjin Hongxin Berg	fund transfer	591,447	Within 1 year	4.56%	–
		7,573,880		58.39%	–

The Company's five largest other receivables as at 31 December 2016 amounted to 7,609,722,000 and accounting for 57.93% of the total other receivables.

(10) Other receivables from shareholders holding more than 5% (including 5%) of the voting rights of the Company are analysed as follows

As at 30 June 2017, no amount due from shareholders holding more than 5% (including 5%) of the voting rights of the Company is included in the above balance of other receivables.

XVI. NOTES TO THE HOLDING COMPANY'S FINANCIAL STATEMENTS (CONTINUED)

4. Available-for-sale financial assets (Continued)

(1) Related information analysis of available-for-sale financial assets is as follows:

Available-for-sale financial assets measured at cost:

	31 December 2016	Increase in current period	Decrease in current period	30 June 2017	Share holding (%)	Cash dividend declared
Available-for-sale equity instruments						
– Cost						
– BOCM Schroder Stolt Fund Management	8,125	–	–	8,125	5.00%	–
– China Railway United Logistics	380,780	–	–	380,780	10.00%	4,000
– Guangdong Samsung	1,365	–	–	1,365	0.09%	–
– Beihai Yinjian	1,700	–	–	1,700	1.01%	–
Sub-total	391,970	–	–	391,970		4,000
Less: provision for impairment	(3,065)	–	–	(3,065)		–
Total	388,905	–	–	388,905		4,000

(2) Available-for-sale financial assets measured at cost held by the group are mainly unlisted equity investments with no active market price and their reasonable fair value estimates has large variation range; the probability determining the fair value estimate can not be reasonably determined so their fair value cannot be reliably measured. The group has no disposal of the investment plan.

5. Long-term equity investments

(1) Long-term equity investments are analysed by categories as follows:

	30 June 2017	31 December 2016
Subsidiaries	9,490,535	9,375,276
Less: provision for impairment	–	–
Total	9,490,535	9,375,276

There is no restriction on sale of the long-term equity investments held by the Company.
